To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected a complete cure after other treatments have failed. Sufferers who can scarcely hear a watch tick tell how they have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows: Secure from your druggist 1 oz. parmit (Double Strength), about 75c worth. Take this home and add to it 1/2 pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day. Parmit is used in this way not only to reduce by tonic action the inflammation and war data in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective. Every person who has catarrh in any form should give this recipe a trial and find themselves from this destructive disease.—Advertisement.

BEER CARRIED INTO GETTYSBURG POLLS

Eight Witnesses Testify in Brodbeck-Beales Congressional Election Contest

Gettysburg, Pa., Feb. 3.—Two witnesses at the Brodbeck-Beales congressional hearing yesterday, testified that beer has been carried into the polls of the Third ward on election day and drunk there by members of the election board. This testimony was given by Otis G. Baughman and Joseph Galbraith. The Third ward polls is in Adams county courthouse.

Eight witnesses out of a list of fifty-two were heard during the day, but there was no evidence given to indicate that Congressman-elect Beales had bought votes. Counsel for both sides indulged in personalities during the hearing yesterday and there were frequent outbursts of applause from the big audience when points favorable to Beales were brought out in the testimony. The crowd was openly partisan to its fellow townsman. This was apparent when Postmaster Charles Duncan, appointed by Brodbeck, refused to join the latter and his followers in a conference at their headquarters here. Duncan is said to be in sympathy with leading Democrats of York who have at two different times asked Brodbeck to drop the contest.

Appetite Follows Good Digestion

'HEAVEN' SUBJECT OF EVANGELIST'S SERMON

Meetings at Mechanicsburg Tabernacle Well Attended Under Unfavorable Weather Conditions

Mechanicsburg, Pa., Feb. 3.—"Heaven," the subject of Evangelist Miller's sermon last evening brought the greatest gathering of souls at any service during the tabernacle meetings. Forty-five persons took the solemn vows and confessed Christ. One entire family came, one after the other, until reunited. During his sermon the Rev. Mr. Miller impressed on his audience the Christian virtues necessary to obtain the heavenly home. Pounding the pulpit, he emphatically asserted that "The man who says there is no heaven is so small, God could blow him in a man's eye and he'd never wink." "The pearls in the gate of Heaven cost the very life blood of the Son of God."

The graded schools were present in a body and sang under the direction of Miss Bessie Bear. Prayer was offered by Mr. Weber, secretary of the Carlisle Y. M. C. A., and Miss Maude Reed sang a solo. The total number of conversions at this, the beginning of the fourth week, amounts to 539, and the expense of the campaign are all cleared up, so that no more collections need be taken, unless for a special cause. Friday will be merchants' day, when the stores will be closed in the afternoon and the business and professional men attend in a large delegation.

It is Just Natural To Admire Babies

Our altruistic nature impels love for the cooing infant. And at the same time the subject of motherhood is ever before us. To know what to do that will add to the physical comfort of expectant motherhood is a subject that has interested most women of all times. One of the real helpful things is an external abdominal application sold in most drug stores under the name of "Mother's Friend." We have known so many grandmothers, who in their younger days relied upon this remedy, and who recommend it to their own daughters that it certainly must be what its name indicates. They have used it for its direct influence upon the muscles, cords, ligaments and tendons as it aims to afford relief from the strain and pain so often unnecessarily severe during the period of expectancy. Every woman should mention "Mother's Friend" when the stork is the subject of conversation. An interesting little book is mailed free upon application to Braden Regulator Co., 405 Lamar Bldg., Atlanta, Ga. It refers to many things that women like to read about. Get or recommend a bottle of "Mother's Friend" to-day and write for the book.
