Peculiar After Effects of Grip This Year

Leaves Kidneys in Weakened Condition

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are often very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp-Root, which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy, and being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample bottle of Swamp-Root, on receipt of ten cents, to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular size bottles 50c, and \$1.00. For sale at all druggists. Be sure to mention this paper.—Advertisement.
