"PENNY Wise, and Pound Foolish"  
Sounds far, far away from any talk about eyes, doesn't it? But after all, it isn't so far away. For it is an attitude many of us assume to this most important of our organs.

With many of us, upon our eyes depends our livelihood. Many of us are compelled to work in poor light, often placing strains upon our eyes of which we are not conscious. And we wonder why they ache and give us trouble.

Now here's the point of this talk. When you experience eye discomforts, it's unwise to use the "penny wise" method.

What you want at such a time is service. Your eyes deserve it and you in justification cannot give anything but the best. And right in that one word you have the keynote of this store. Belsinger Optical service places at your disposal the care and knowledge which will make for your optical comfort. This is an exclusive optical store embracing all that goes to make up an ideal optical service.

Reports made by officers of the vessel when it landed are said to have stated that the information given in the wireless message was that a man aboard, believed to be a German, intended to destroy the ship. **SWEDEN INDIGNANT BECAUSE OF GERMAN DECLARATION**

Stockholm, via London, Feb. 6, 9:45 A. M.—Indignation is expressed by the Swedish press because of Germany's proclamation relative to a blockade of the British Isles. The Dagens Nyheter, which is in close touch with the Foreign Office declares England's regulation in regard to neutral shipping in the North Sea caused annoyance but that it guaranteed traffic would be safe on certain routes. The paper says that while Swedish vessels suffered severely from German mine laying, the latest report "beats the record by declaring the most extensively used waters a closed sea and threatening neutral ships with torpedoes."
