STATES GUARD TO BE STRENGTHENED

Washington Dispatch Indicates That It May Be Raised to 20,000 Men Before Long

A Washington dispatch to the Philadelphia Inquirer says: "As a measure of national security, the War Department is actively engaged in prosecuting plans to place the Pennsylvania State Guard on a war footing. As rapidly as possible, the federal government is to supply the guard in every State with arms, ammunition and a full complement of field equipment on the basis of war strength. Pennsylvania, New York, Ohio and Michigan are the States first to be supplied. The War Department heads are working on the plans to raise the National Guard to war strength, with complete equipment ready for instant use under instructions that such a program will not require any addi-

tional legislation by Congress. On its present footing the Pennsylvania guard is composed of approximately 10,000 officers and men. This is an average of sixty to a company or about one-half war strength. The Pennsylvania guard recruited to war strength will be composed of a little more than 20,000 men and officers. The War Department proposes to get into Pennsylvania as quickly as possible arms and equipment for 20,000 men. "When the arms and munitions of war are distributed at various armories throughout the State the federal authorities propose to co-operate with the State authorities in stimulating enlistment up to war strength. Service in the State guards is to be made more attractive than at any time in the history of the government. "The execution of this big change of policy with respect to the guard is under the immediate direction of Assistant Secretary of War Breckenridge, assisted by Brigadier General A. L. Mills, chief of the division of militia affairs. While the War Department authorities believe it to be the best policy to go about the work of converting the National Guard into an effective and fully prepared engine of national defense with as little publicity as possible it became known to-day that the storing of war supplies in

Pennsylvania and other States is to be worked out along the plan practiced by Germany with respect to its reserve forces. The quick mobilization of the German reserve forces fully equipped for active service, following the declaration of war, is everywhere admitted by military experts to be one of the marvels of the European conflict. "In working out this plan, and applying it to the National Guard in Pennsylvania, the War Department will use the supplies of arms and munitions of war now in reserve. It is believed the reserve supply of arms and munitions of war now in hand together with that provided for in appropriation bills, to be enacted at this session, will enable the federal government to place the militia of three-fourths of the States on a full war basis so far as equipment is concerned. **TWO HAGERSTOWN WEDDINGS** Hagerstown, Pa., Feb. 9.—Miss Jennie M. Kline and Irvin R. Winters, both of Anville, Pa., were married yesterday at the parsonage of the First Baptist Church in this city by the Rev. E. K. Thomas. Miss Ruth Kerr, of Enos, Pa., and Harvey C. Blair, of West Fairview, Pa., were married here on Saturday at the parsonage of St. John's Lutheran Church by the Rev. Dr. S. W. Owen.

No Rule Governing Length of Pastorate Methodist ministers in Harrisburg say there is no rule against a minister remaining in one city longer than six years. Announcement was made recently in Altoona that the Rev. Horace Lincoln Jacobs, pastor of the First Methodist Church, would be transferred because of adoption of this rule at the conference held in Harrisburg one year ago. The names of the Rev. E. H. Hart, pastor of the Fifth Street Methodist Episcopal Church, and the Rev. J. H. Daugherty, pastor of Ridge Avenue Methodist Episcopal Church, of this city, were mentioned as two of the members who would also be transferred for the same reason. The information given by local ministers was that Bishop Cranston, who presided over last year's conference, announced this year that he would transfer all ministers who had held a pastorate six years or longer. This, however, was not taken as final, as Bishop Cranston has always granted the wishes of a congregation regarding a pastor's return. Try Telegraph Want Ads.

Organized Charities Are in Urgent Need of Aid The Associated Charities of Harrisburg is now in debt and in urgent need of greater public assistance, according to Donald McCormick, treasurer. Responses from contributors, he said, have been less this winter than in former years and the calls for assistance are heavier. The general opinion is that the Stough campaign and many other extra appeals for help this winter have affected the usual contributions to local charities. The Children's Aid Society is also in debt. **Mt. Pleasant Laddies Presented With Trumpet** The Mount Pleasant Fire Company, No. 8, yesterday received a handsome silver trumpet and large crayon portrait of the late secretary of the company, John G. Willis. The gifts were from the Neversink Company, of Reading, and were brought to Harrisburg by a committee of seven, of which Frank Amen was chairman. The presentation was made yesterday afternoon. President George W. McElhenny, of the Mount Pleasant company, received the gifts. Following the meeting a dinner was served the visitors at the enginehouse. Try Telegraph Want Ads.

British Use of Flag Condemned in Congress Special to The Telegraph Washington, Feb. 9.—The use of the United States flag by the Lusitania was formally and informally before Congress yesterday, although friends of the administration deprecated the discussion of the case in Congress at this time. Representative Martin, of Deadwood, S. D., made an impassioned five-minute speech protesting against the flying of American colors by ships of belligerent nations. Try Telegraph Want Ads.

PALACE THEATER 333 MARKET STREET HARRISBURG, PA. —TO-MORROW— **CHARLES CHAPLIN** (Formerly With the Keystone Co.)
