## PROGRESSIVE VOTES WITH DEMOCRATS

### Senate Overwhelmingly in Favor of Repealing Present Underwood Tariff Law

The Senate last night by a vote to 35 to 10 adopted a resolution calling upon Congress to repeal the present Democratic tariff and placing upon the Democratic national administration responsibility for the business and industrial depression.

The resolution was introduced by Senator Edwin H. Ware, of Philadelphia, and is in line with a movement which contemplates similar action by the Legislatures of other industrial States, including New York, Illinois, Massachusetts, Connecticut, Rhode Island and others.

Senator Ware got unanimous consent for the consideration of the resolution and almost had it passed without a roll call.

Lieutenant-Governor Frank B. McClain was about to put the motion on the adoption of the resolution when Senator Washburn, Democrat, called for the yeas and nays.

The 35 voting in the affirmative are all Republicans. The lone Washington party senator, Smith, of Crawford county, voted with the Democrats and is recorded in the negative.

The resolution is as follows: "Whereas, The great industrial Commonwealth of Pennsylvania has suffered more than any other State in the Union because of the present tariff; and

"Whereas, Under its operation our important steel plants, our textile mills and other industries have been operating only about one-half capacity; and

"Whereas, The army of unemployed in our cities and towns has brought continued distress through inability to obtain proper food, raiment and shelter; and

"Whereas, We believe present conditions will become worse instead of better at the close of the war; it is therefore

"Resolved, That the Legislature of Pennsylvania now in session do request the Congress of the United States to repeal the present tariff law and replace it with a law giving adequate protection to our labor and industries, and under normal conditions, sufficient revenue to warrant the repeal of the present unjust and unequal special methods of taxation now in operation."
