OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless. — Advertisement.

WILLIAMS WILL NOT TALK

By Associated Press
Pittsburgh, Feb. 17.—President John
Williams, of the Amalgamated Association of Iron, Steel and Tin workers
yesterday refused to comment on the
action of the members of that organization in rejecting the proposition
looking to a reduction in wages agreed
upon at a conference of representatives of the men and independent sheet
and tin plate manufacturers here recently, subject to referendum of the
membership, except to say that the
result spoke for itself.

and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.—Advertisement.

Works is to Be increased

That operations at the plant of the Mander on sonsiderably increased scale in the near future is the belief of C. S. Prizer, vice-president and general manager. Reports have been current in Middletown, following the death last week of Robert A. Balfour, treasurer, and one of the largest stockholders of the company, that the plant will be sold. Appropose these reports, Mr. Prizer said: "There is absolutely no truth in the rumors and furthermore we expect to operate the plant in the future on a more extensive scale than in the past."
