A Genuine Rupture Cure Sent On Trial To Prove It Don't Wear a Truss Any Longer.

After Thirty Years' Experience I Have Produced An Appliance For Men, Women and Children That Actually Cures Rupture.

Ten Reasons Why

You Should Send For Brooks Rupture Appliance

- 1. It is absolutely the only Appliance of the kind on the market today, and it is the only one that inventors have sought after for years... 2. The Appliance for retaining the rupture cannot be thrown out of position... 3. Being an air cushion of soft rubber it clings closely to the body, yet never blisters or causes irritation... 4. Unlike the ordinary so-called pads, used in other trusses, it is not cumbersome or ungainly... 5. It is small, soft and pliable, and positively cannot be detected through the clothing... 6. The soft, pliable bands holding the Appliance do not give one the unpleasant sensation of wearing a harness... 7. There is nothing about it to get foul, and it becomes soiled it can be washed without injuring it in the least... 8. There are no metal springs in the Appliance to torture one by cutting and bruising the flesh... 9. All of the material of which the Appliance is made is of the very best that money can buy, making it a durable and safe Appliance to wear... 10. My reputation for honesty and fair dealing is so thoroughly established by an experience of over thirty years of dealing with the public, and my prices are so reasonable, my terms so fair, that there certainly should be no hesitancy in sending free coupon to-day.

Others Failed But the Appliance Cured

Mr. C. E. Brooks, Marshall, Mich.

Your Appliance did all you claim for the little boy and more, for it cured him sound and well. We let him wear it for about a year in all, although it took him 3 months after he had begun to wear it. We had tried several other remedies and got no relief, and I shall certainly recommend it to my friends, for we surely owe it to you. Yours respectfully, WM. PATTERSON, No. 717 S. Main St., Akron, O.

Pennsylvania Man Thankful

Mr. C. E. Brooks, Marshall, Mich.

Perhaps it will interest you to know that I have been ruptured six years and have always had trouble with it till I got your Appliance. It is very easy to wear, it is neat and snug and is not in the way at any time, day or night. In fact, at times I did not know I had it on; it just adapted itself to the shape of the body and seemed to be a part of the body, as it clung to the spot no matter what position I was in.

It would be a veritable God-send to the unfortunate who suffers from rupture if all could procure the Brooks Rupture Appliance and wear it. They would certainly never regret it. My rupture is now all healed up and nothing ever did it but your Appliance. Whenever I have any opportunity presents itself I will say a good word for your Appliance, and also the honorable way in which you deal with ruptured people. It is a pleasure to recommend a good thing among your friends or strangers. I am, Yours very sincerely, JAMES A. BRITTON, 80 Spring St., Bethlehem, Pa.

Dear Sir:—I am glad to tell you that I have been sound and well and can plough or do any heavy work. I can say your Appliance has effected a permanent cure. As a judge of the arrival of an Appliance I was in a terrible condition and had given up all hope of ever being sound. I had heard of your Appliance I would never have been cured. I am sixty-eight years old.

NEW POSTMASTERS IN JUNATA VALLEY

Mr. Lesher is a well-known newspaper man, being editor and publisher of the Huntingdon Monitor, and chairman of the Huntingdon county Democratic committee. He will succeed Howard E. Butz.

KIDNEY TROUBLE FROM OVERWORK

I am a blacksmith by trade and would like to say a word to all who have to work hard and suffer with their kidneys. I suffered for about ten years and was treated by a Waynesboro, Va. Doctor. He said that I had kidney trouble in its worst form and that he had done all he could for me. I read about Dr. Kilmer's Swamp-Root and as I could hardly do a day's work, was willing to try anything that would do me any good. After taking Swamp-Root a few days I felt so much better that I continued until I felt that I was cured and I was altogether a new man. That was eight years ago and if I ever feel the least pain about my kidneys I just take a few doses of Swamp-Root and in a few days I am all right. I feel to-day that I am a well man and would say to all who suffer with their kidneys, take Dr. Kilmer's Swamp-Root, for it has done more for me than all the doctors, and saved doctors' bills.

I can further say that about two years ago my son was sick in bed and was taking medicine from doctors and got worse all the time. I went in the night and got a fifty-cent bottle of Swamp-Root and told him to lay aside all the doctors' medicines and take Swamp-Root. He took six bottles and I am glad to say that he is well to-day and has not had any trouble with his kidneys since. It was Swamp-Root that cured him. My son now thinks that there is no medicine that a doctor can give that can compare with Dr. Kilmer's Swamp-Root.

Very truly yours, G. W. HARDING, Personally appeared before me this 8th day of March, 1912, G. W. Harding, who subscribed the above statement and made oath that same is true in substance and in fact. Given under my hand this 8th day of March, 1912. B. H. PATTON, Justice of the Peace.

Remove Ashes Often

Ashes should be removed immediately after raking. If they are allowed to accumulate they exclude the air from the ash pit and cause the grate bars to burn out.

Grate bars in a furnace should last a long time if the ashes are not allowed to pack up against them in the ash pit.

Ashes are disagreeable to handle at best and the coal that gives less ashes for a ton should have the preference.

Our Wilkes-Barre coal gives lots of heat and little ash.

A Cold House Means Sickness

Heavy colds, pneumonia and even tuberculosis are frequently the result of a cold house. An even warmth is essential to your family's health and even heating requires good fuel. Montgomery coal is all coal, burns evenly, thoroughly and gives the maximum in heat value. Try a ton the next time.
