AMOS G. MANAHAN

Now on Honor Roll of the Pennsylvania Railroad.

One of the veterans of the Penn sylvania Railroad who is now enjoying a well-earned rest is Amos G. Manahan, of Cape Charles, Va. He was retired last month with a service record of 57 years and 9 minths. Mr. Manahan is well known in Harrisburg. At one time he was employed on the Middle division. He was employed as special agent of transportation service on the Norfolk and Western at the time of his retirement.

Mr. Manahan entered the service of the Pennsylvania system on March 17, 1857, as freight brakeman. He was subsequently freight conductor, passenger conductor and train dispatcher. In 1882 he became assistant trainmaster. sylvania Railroad who is now enjoying

In 1882 he became assistant trainmaster.

It was during the Centennial at Philadelphia, in 1876, that Mr. Manahan demonstrated his exceptional ability in the handling of trains. He worked continuously as train dispatcher twelve hours every day, supervising the traffic west of Lancaster, via the Columbia and Mount Joy branches. He had as many as thirteen sections of eastbound day express trains, all to be met on single track by westbound trains. On Pennsylvania day 201,000 passengers were handled.

Among the exciting events occurring during Mr. Manahan's career, as he himself describes them, were the "big strike in 1877," the "big ice gorge between Middletown and Columbia" and the "big snowstorm." when no trains ran between Downingtown and Paoli for three days.

Trainmasters Meet; Discuss Important Topics

Trainmasters of the Pennsylvania Trainmasters of the Pennsylvania Railroad on the main line and from the Schuylkill Valley division of the Pennsylvania Railroad attended a conference at Altoona yesterday. While here are no indications of a big rush of business when Spring comes, it is the custom to hold monthly and quarterly conferences and discuss various questions with the general superintendenf.

tendení. At present freight business is at a very low ebb. Every effort is being made to keep the men working and according to a statement yesterday no retrenchment, if any, is expected before April 1. At Altoona the general impression prevails that there will be no further cut. There is a probability that another rearrangement of freight pools may be made, but of this officials know nothing positively.

Woman's Health Requires Care

Women are so constituted as to be peculiarly susceptible to constipation, and their general health depends in large measure on careful regulation and correction of this tendency. Their delicate organisms rebel at the violence of cathartic and purgative remedies, which while they may afford temporary relief, shock the system and seriously disturb the functional organs. A mild laxative is far preferable and, if properly compounded, much more effective.

The combination of simple laxative herbs with pepsin sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is Ideal for women's use. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St., Monticello, Ills.

Mr. Singletary Says Vinol Ended His Suffering from an Awful Cough and Threatened Lung Trouble

Sunter, S. C.—"I am an oculist and for several years I suffered with an awful cough and lung trouble, so that at times I was scarcely able to go about on account of my condition. I had tried almost every medicine recommended for such troubles, without help, and finally a friend advised me to try Vinol. Before I had taken one-half bottle I could see an improvement. I have now taken six bottles and my cough is not only gone, but my general health is lots better."—J. W. Singletary, Sumter, S. C.

RHEUMATISM NOW

Says We Must Keep Feet Dry Avoid Exposure and

Eat Less Meat

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water, and above all, take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin profes of the skin are also a means of reeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism. At the first twinge of rheumatism, at the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.
