What Thin Folks Should Do to Gain Weight

Physician's Advice For Thin, Unde-veloped Men and Women

Physician's Advice For Thin, Undeveloped Men and Women
Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised fiesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recent fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strength-giving, fat-producing elements of acknowledged merit have been combined in this peer-less preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient. A month's systematic use of Sargol should produce fiesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained are provided. George A. Gorgas and other leading druggists supply Sargol and say there is a large demand for it. While this new preparation has given splendid results as a nerve-tonic and vitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.—Advertisement.

ENGLISH BIRDS TO BE BROUGHT HERE

State Game Commission Is Importing Ring-necked Pheasants to Stock the State

Ring-necked pheasants, one of the most famous of the English game birds, are to be imported into the State by the Game Commission for stocking State preserves and counties where game has become scarce and will probably be liberated before the first of April. The commission has been buying quali in Texas, Florida, Cuba and other places for restocking the State and has turned loose large numbers of rabbits from West Virginia, Tennessee and Virginia and is about to receive consignments of deer.

The deer were bought in Michigan and Massachusetts and the first of the lot will be distributed this week. It is expected to follow up these shipments with others which are being caught.

The ring-necked pheasants were shipped from England last week and are on the Atlantic, well out of the danger zone of war. The places where they will be liberated are not yet selected.

The State Game Commission is ex-

they will be liberated are not yet selected.

The State Game Commission is experimenting with Mexican quail. A dozen have been kept at the Capitol for almost a month and have thrived in spite of the change in climate.

It is expected that before the end of the week the legislative committee of the recent conference on game and fish laws will have a talk with Governor Brumbaugh about the suggestion that a commission of twelve, to include senators, representatives and sportsmen, shall be named to make a study of the manner in which consolidation of game, fish and forestry departments has worked out in New York and other States.

The first hearings on game bills will probably be asked for the second week in March.

in March.

Valuable Advice to Sufferers

"There are many different forms of omach trouble," said a well-known ecialist recently, "but practically all specialist recently. "but practically all are traceable to excessive acidity and food fermentation. That is why the results obtained from the use of drugs are usually so disappointing. Admitting fermentation and consequent acidity of the food contents to be the underlying cause of most forms of indigestion, it naturally follows that the use of a reliable antacid, such as the pure bisurated magnesia which is so frequently prescribed by physicians, will produce better results than any known drug or combination of drugs. Accordingly, I almost invariably advise those who complain of digestive trouble to get some bisuratd magnesia (note the name carefully, as other forms are unsuitable for this purpose, of from their druggist, and take from one to two teaspoonfuls of the powder, or two 5 grain compressed tablets, with a little water after meals. This by immediately neutralizing the acid and stopping the fermentation, removes normal and healthy digestion."—Advertisement.
