Important to All Women Readers of This Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.
Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.
You may suffer a great deal with pain in the back, bearing-down feelings, headache and loss of ambition. Poor health makes you nervous, irritable and maybe despondent; it makes anyone so.
But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.
A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, overworked women.
Many send for a sample bottle to see what Swamp-Root, the great Kidney, Liver and Bladder Remedy, will do for them. Every reader of this paper, who has not already tried it, by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., may receive sample size bottle by Parcel Post. You can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.—Advertisement.

Reckless Coal Buying

Why is it that less thought is given to buying coal than almost any other article.
Coal is one of the largest items of expense and should have the most consideration.
The reason why so many people have trouble with heating their house is because they think all coal is alike. If they happen to hit upon a good combination, well and good, but if results are not as expected then they blame the coal.
There are many things to be considered: the drafts, whether strong or poor; the size of the furnace; the kind of furnace; the kind of heat; whether hot air, steam, or hot water; the location of the house; etc. All these things have a bearing on the kind and size of coal required.
We shall be glad to advise you.

SUFFRAGISTS TO MAKE STATE BLOOM

Plan to Have It Covered With Yellow Flowers This Summer as a Campaign Move

IDEA IS TAKING WELL, TOO

Scheme Being Boosted by the State Headquarters in This City and Elsewhere

The State of Pennsylvania is to be converted into a huge yellow flower garden by the suffragists this summer. From Lake Erie to the Delaware river, the whole State will blossom with the suffrage colors. Not a town or hamlet is to be overlooked. Everywhere one turns, the eye will be greeted with yellow blooms. In the suburban towns and the residential sections of the larger cities every suffragist yard will boast a suffrage garden. In the more congested sections, window boxes will help to carry out the suffrage color scheme.

Behind this picturesque plan to let the people of Pennsylvania know that the cause is the real and compelling issue this year is a story of the kind that O. Henry would have liked to write—the story of a little woman who wanted to make a big contribution to the cause, and who made it, although she never realized how big it really was.
"I can't do much," she said, when she made her offer to the State association last December. "I haven't got the money. But I'm going to plant my whole garden with yellow flowers this Spring, and I'm going to get my neighbors to do the same, so that every one in our little town will see the suffrage colors and know that our cause is the right one. To-day, however, the hum of her contribution to the State campaign and the idea of a suffrage garden before either she or anyone else grasped the full beauty of the wonderful possibilities that existed in her humble offering. To-day, however, the magnitude of her gift is appreciated, and early in May thousands of yellow gardens will be planted by suffragists in all parts of the State. The plan is to have the suffrage colors in the garden of the woman who contributed the idea that is to make the whole State beautiful.
