Machinist's Apprentice to Head of Mfg. Concern Young Man's Record

CHARLES S. MYERS

By Special Correspondence

Columbia, Pa., Feb. 29.—From a machinist's apprentice to the head of a machine manufacturing company which is now one of the substantial industries of Columbia is the record of Charles S. Myers, secretary and treasurer of the Myers Machine Tool Company, which he founded and organized. This is a marked tribute to the ability and enterprise of a young man who, in the brief period of six years, has established an industry that now employs thirty men. Mr. Myers started alone in a building 20 by 40 feet in 1909 and now the plant occupies 6,000 feet of floor space. Seventeen additional have been erected since the business started. The concern is now incorporated and its products are shipped to all parts of the world. W. E. Hoffman is president of the corporation and Samuel H. Klinc vice-president. Mr. Myers is regarded as one of Columbia's most popular and successful business men.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process. Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's to-day.—Advertisement.

Of Course They Do

Recently I advertised the new Screwless Eyeglass Mountings that I introduced in Harrisburg a few weeks ago. I have heard it remarked that screwless mountings were going to cut my profits to a minimum by reducing breakage of lenses. I'm "ticked to pieces" to have some of my competitors take that short-sighted narrow view. Of course these new screwless mountings will reduce breakage. That's what they are intended to do. But if you stop to think you will see where this is a good, live, strong talking point in their favor. It's a talking point that will make sales and new customers. I'll take chances by pleasing my old customers and making new ones. The Screwless Eyeglasses are giving line satisfaction and no doubt they will soon take the place of the old styles that have caused so many broken lenses. The only mounting that never costs you a cent for new springs. They are guaranteed indefinitely.

Blood Destruction Stopped and Rebuilt

Worries Overcome, Evidence Brushed Away. The Skin Cleared.

S. S. S., the famous blood purifier, is man's architect. It contemplates the damage done and repairs the damage. It also looks after the possible damage and corrects all tendency to blood eruptions, decay of bones, clogging of joints and any and all of those myriad of destructive effects such as rheumatism, catarrh, swollen glands, sore throat, bronchial affections and the kind of infirmities so well known as being caused by impure blood. And now, why should S. S. S. do all this? Simply because it is Nature's antidote, a remedy of searching influence. It contains a powerful, natural ingredient, that sweeps its way to the skin. And in doing this it not only annihilates destructive germs but causes them to be so converted that they are easily and harmlessly voided, expelled or destroyed and then driven out through the natural outlets of the body. Thus let S. S. S. be your safeguard in all blood troubles no matter what they are. It won't fail you. Get a bottle today of any drugist but refuse any and all substitutes. Get in communication with the medical department. Write The Sift Specific Co., 24 Swift Bldg., Atlanta, Ga. This special advisory work on blood troubles has been of incalculable benefit and has cured a host of sufferers.

How Do You Buy Coal?

Do you look at your new furnace and say to yourself "I think I will use Egg Coal?" In all probability you call up your coal dealer and tell him to send you a ton of Egg Coal—and that's all the thought you give it. You don't consider whether the drafts are strong enough for the large coal or whether it would be better to try a medium coal or a very hard coal or any of the many other influences that go to make up a successful furnace and a warm house. Conditions are not the same in every house. The kind of coal your neighbor burns will possibly not suit you. Coal costs money and should be purchased with care. There are many varieties and it is important to get the right kind. We shall be glad to advise you. United Ice & Coal Co.
