You Can't Brush Or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, hen you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retirins; use enough to moisten the scalp and rub it in gently with the finger tips. Do this to-night, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it, no matter how much dandruff you have have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky an soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never falls to do the work.—Advertisement.
