Girls With Beautiful Faces or Graceful Figures

American girls have a world-wide reputation for beauty, but, at the same time, there are girls in our cities who possess neither beauty of face nor form, because in these instances they suffer from nervousness, the result of disorders of the womanly organism. At regular intervals they suffer so much that they are obliged to keep days for their recovery their strength. Of course, such periodic distress has its bad effect on the nervous system. The withered and drawn faces, the dark circles and crow's feet about the eyes, the straight figure without those curves which lend so much to feminine beauty, are the unmistakable signs of womanly disorders. When a girl becomes a woman, when a woman becomes a mother, when women pass through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by these organic disturbances. At these critical times women are best fortified by the use of Dr. Pierce's Favorite Prescription, an old remedy of proved worth that keeps the entire female system perfectly regulated and in excellent condition. Mothers, if your daughters are weak, lack ambition, are troubled with headaches, lassitude and are pale and sickly, Dr. Pierce's Favorite Prescription is just what they need to surely bring the bloom of health to their cheeks and make them strong and healthy. If you are a sufferer, if your daughter, mother, sister need help get Dr. Pierce's Favorite Prescription in liquid or tablet form. Then address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and receive confidential advice from a staff of specialists, that's free; also 128-page book on women's diseases sent free.—Advertisement.
