

NEWS OF THE RAILROADS
ASSERT LAW COST THEM TWO MILLIONS

Railroads Maintain They Could Not Afford to Underman Their Trains

What the railroads consider their strongest argument on the right for the repeal of the full crew law, is that if they undermanned their trains they would be the heaviest sufferers.

STATE'S REVENUE LARGE THIS WEEK

Insurance and Bank Stock Taxes Caused It to Go Over the Two Million Mark

Pennsylvania's income the first week of March ran over \$2,350,000 according to figures at the State Treasury, the amount being larger than for any week since the opening of the present fiscal year, and being due to the big payments of State taxes on bank and trust company stock and on premiums of foreign insurance companies doing business in Pennsylvania.

Close to a million dollars has been received for automobile licenses for 1915, payments having been started in December while other automobile licenses since the first of the year have netted almost a quarter of a million dollars.

Dauphin Cases - New outbreaks of the foot and mouth disease have been reported to the State Livestock Sanitary Board in the last few days from Lancaster, Schuylkill and Dauphin counties and valuable cattle will be killed to prevent spread of the disease. The Lancaster outbreaks are not far from that city and in Schuylkill the disease appeared near Tamaqua. The Dauphin cases are near Millersburg and Pillov.

To Close Case - The Public Service Commission will probably select a date in April for hearing the arguments on the objections to the proposed telephone rate schedule for the State, on which testimony has been heard in the Chamber of Commerce and Pittsburgh city complaints against service will be handled in local complaints and investigations made.

Taxs Chartered - State charters have been issued to five taxicab companies since the first of the year and applications are now pending for several others. There were less than half a dozen charters for such lines issued last year.

Smallpox Outbreak - Two cases of smallpox have been reported to the State Department of Health from Complanter township, Venango county. The two patients had traveled extensively on the electric cars in that vicinity and one attended school while the other worked in a grocery store. A general vaccination has been ordered of known contacts in Oil City and vicinity.

Governor Away - Governor Brumbaugh went to Philadelphia last night. Investigations on - Eighty cases of typhoid fever have been reported in Allegheny county, the highest being at Allegheny. The State Department of Health has begun an investigation of the cause of the epidemic. An epidemic of scarlet fever in Greenville has been reported to the department. There are thirty cases now under quarantine. The schools have been closed.

Contracts Approved - The Public Service Commission has approved the applications of the Lehigh Township Light and Power Company, the Wallingford Light and Power Company, the Cement Light, Heat and Power Company, the Northampton County Electric Company, the Lehigh Township Electric Light and Power Company and the Lehigh County Electric Company for the approval of the sale of their property, franchises, etc., to the Lehigh Valley Light and Power Company.

RAILROADS MUST OBEY QUARANTINE
They cannot go through this State. The State has suffered a loss running into the millions by the disease, which was brought here from the West, and endeavoring to stamp it out. All shipments of cattle, goats and antelope districts inside the State are prohibited and all shipments into the State from Chicago or any place not classed as "quarantined" are prohibited. It is necessary to prevent any possible further spread and the State is standing pat on its regulations notwithstanding pleas of packers and shippers. The State officials have made a quarantine of the Erie, Lackawanna and Pennsylvania and Baltimore and Ohio railroad have given their word not to ship cattle through the State, but it was found out yesterday that the quarantine was being violated by the Erie, Lackawanna and Lake Shore, whose lines run across Erie county. Cattle from Chicago have been going from Ohio into New York State by way of Erie, flat against the State quarantine.

Last night notice to stop was given these three lines and today Deputy Attorney General S. M. Hargett followed it up by sending telegrams and letters to presidents and directors of the three roads that under the act of 1913 they can be made personally liable and subjected to fines and imprisonment for violation of the cattle shipment prohibition. This is the first time these powers have ever been invoked.

The State has also asked the federal government not to issue permits for shipment of cattle into or through Pennsylvania. Chicago cattle people are threatening suit in United States court, but the Keystone State is standing pat on its order.

Washington, D. C., March 6. - President Wilson today gave a recess appointment to George Rublee, of Cornish, N. H., as a member of the new Federal Trade Commission. Mr. Rublee's nomination was not confirmed by the Senate at the last session.

STORM MAKE'S CITY'S PARKS FAIRYLAND OF BEAUTY

Harrisburg's parks were visions of loveliness this morning. The Telegraph photographer snapped a few of the beautiful park scenes in Reservoir and on Capitol Hill.

SNOW STORM GIVES SPRING CRUEL LAP

Has fallen within the past eighteen hours over the eastern part of the State, and according to forecasts there is to be no cessation of hostilities for days.

One of the heaviest snow and sleet storms of the winter has the entire country from the Mississippi east in its grip. The fall exceeded eight inches in this city noon and in the West snow was reported more than one foot deep. The snow began falling here early last evening, with a strong back at the signs of Spring with a vengeance. Early this morning when the street cars began operating, difficulty arose in maintaining the schedules but at noon the cars on all of the city lines were about on schedule, and many of the suburban ones were only a few minutes behind.

Both the Pennsylvania and the Philadelphia and Reading trains coming into this city were on schedule, it was announced this morning. The telephone and telegraph companies with branches in this city were also among the fortunate ones and report that no connections were broken by the storm.

The Department of Streets and Public Improvements employed more than 125 extra men and thirty carts to clean the streets, and the men and teams were busy all day removing the snow which fell during the past twelve hours.

BABY ATTEND SECOND WEDDING OF MAMMA
Candidates for licenses this morning and after the necessary questions had been put and answered and inscribed, the pair were handed their hands and were sworn that they had told the truth. Possibly they didn't understand the interpreter, for - the bride and groom - both smiled, blushed, drew a bit closer - and gratefully HELD hands while the oath was being administered. Stojan's other hand and arm were busily engaged with tiny Anna.

When the license had been filled out and Stojan had temporarily switched Anna to his left arm in order to get at his pocketbook, the pair started away. They believed they had been married. Explanations were in order during which they said they supposed that the act of being sworn while holding hands - meant the official sealing of Cupid's contract.

However the bride couple had hoped to wed at once and in order not to disappoint them Recorder Wickensham suggested that Alderman Murray be called in. Because of the press of business in the recorder's own office, the ceremony was adjourned to courtroom No. 1.

Janitor "Jim" Robinson, who was whistling "In the Good old Summer-time," as he swept out the courtroom, switched his tune to the opening bars of the "Wedding March" as the party entered.

Nor is even this all of the story. When Anna was asked how long she had been married before, she said "Nine years!"

"How many children have you got?" kindly inquired a court attache.

"Nine!" cheerfully smiled Mrs. Anna.

MUNICIPAL LIGHT PLANT DISCUSSED

Expert Outlines Plans Before the Highspire Council; May Get Current From York Haven

Plans for the installation of a municipal-owned electric light plant were discussed at a meeting of the borough council of Highspire last evening.

W. H. Temple, a lighting expert from Philadelphia, who outlined a number of plans for lighting the streets, was retained to find out whether or not Highspire borough can obtain current from York Haven.

Mr. Temple will take up the matter with officials of the York Haven company and report at the next meeting of council. If it is possible to obtain current from the York Haven company the borough will likely install a substation similar to the one at Royalton. From this substation the current for street lighting and for commercial purposes also will be distributed. It is planned.

The borough fathers of Highspire have been considering a number of plans for the lighting of the streets for some time. Some time ago a municipal-owned plant was proposed, but no action was taken. The demand for lighted streets has been growing and it is likely that some action will now be taken.

PLAN TO BREAK ALL ATTENDANCE RECORDS

Congregations in Five Lower End Towns Are Waging a "Go-to-Church" Fight

Five towns in the lower end of Dauphin county will observe a "Go to church" Sunday to-morrow.

Under the auspices of the Ministerial Association of Steelton and vicinity, a vigorous campaign has been waged by all the churches in Steelton, Highspire, Oberlin, Enhaunt and Bressler with a view to breaking all church attendance records to-morrow.

Each of these five towns has been divided into districts and committees of church workers has visited every family in the various districts and urged them to go to church to-morrow. Many of the churches have arranged special exercises for their services to-morrow. Ministers will preach sermons on the benefits derived from regular church attendance and many of the choirs will sing special music.

Diamond Tires satisfy 99% of their users

That means an awful lot when you come to think about it. It means built-in mileage of the sturdiest sort - and the price is honest and low, not padded. This letter explains it:

"Philadelphia, November 28, 1914. 'We believe that it will interest you to know that out of 1500 Diamond cases sold this year up to October first, the number that have been returned to us for adjustment amounted to less than one per cent. This we consider a remarkable showing, and speaks volumes for the quality that is built into Diamond Tires. About ninety per cent of the total number sold were Squeegee Treads, which we consider the best tire value we can offer our customers. The service rendered by this type of tire is consistently uniform.'

"CHILD'S TIRE COMPANY, 'Per Chas. J. Roth.' And other dealers all over the country tell the same story. Added to the wonderful Diamond Service, you can now buy Diamond Squeegee Tread Tires at the following 'FAIR-LIST' PRICES:

Table with 4 columns: Size, Diamond Squeegee, Size, Diamond Squeegee. Rows include 30 x 3, 30 x 3 1/2, 32 x 3 1/2, 33 x 4, 34 x 4, 36 x 4 1/2, 37 x 5, 38 x 5 1/2.

McNichol Sees Penrose and Outlines What Republicans Will Ask in the Session
Following a conference in Washington with Senator Boies Penrose on his way north from Florida, Senator James P. McNichol returned home last night after a two weeks' trip to Florida. Senator E. H. Vare arrived the day before. Republican State Chairman William G. Crow, senator from Fayette county, who was a member of the party that visited St. Lucie, also participated in the conference with the senator. The repeal shall not take effect until after the next November election.

First - Legislation to change the election laws shall not attempt to restrict a candidate to running upon but one ticket at the primaries, as that question has been raised as to the constitutionality of such a regulation. A bill will be passed, however, to prohibit the substitution of the name of anyone on any ticket who has been rejected by the nonpartisan ballot.

Second - If the nonpartisan ballot act shall be repealed, and this seems probable, the repeal shall not take effect until after the next November election.

Third - The submission of the woman suffrage constitutional amendment to the voters next November is to be advocated and the amendment will be approved by the Senate without delay.

Fourth - Bills for workmen's compensation and the child labor legislation will be promptly passed.

Fifth - Local option is not to be considered as a political issue and the legislators will not be influenced either way by the Republican State leaders.

Sixth - The majority situation in Philadelphia is to be allowed to develop available candidates and no attempt will be made to force the candidacy of any aspirant at this time; with the primaries to be held not until September. Senator Penrose and his associates say they will await a "crisis" of sentiment before they declare for any candidate for mayor.

Seventh - Senators McNichol and Vare are declared to have reached an understanding to work in harmony at the majority primaries, with no agreement up to date upon any candidate for mayor.

DARDANELLES CLEAR OF MINES
