A feeling as of a tight band about the head is often felt in addition to the pain of a headache that is caused by nervous exhaustion. The ache is gen-erally in the back of the head, rarely in the forehead, and is often accom-panied by dizziness. The way to stop this sort of head-ache is to stop the cause of it. Over-work, worry and failure of the blood to properly nourish the nerves are the most common causes. Rest and a tonic for the blood and nerves will cause the headache to disappear in most causes. H.
