

HARRISBURG TELEGRAPH Established 1837 PUBLISHED BY THE TELEGRAPH PRINTING CO. E. J. FRACKPOLE President and Editor-in-Chief F. R. OYSTER Secretary GUS M. STEINMETZ Managing Editor

ating, and reaping and harvesting have been the occupations of man since he first passed from the obscurity of savagery toward the civilization of to-day.

will align itself as always on the side of decency and fair play. And a strong expression of public opinion in America appears to have more weight with the warring nations than whole batteries of 42-centimeter guns.

EVENING CHAT

The almost entire absence of cattle cars from the trains in the Pennsylvania railroad yards shows the manner in which the quarantine for the foot and mouth disease is being conducted.

PROFITS OF FINANCIERS The evidence of James Speyer during the recent investigation into Rock Island affairs by the Interstate Commerce Commission shows that the firm of which he is the head had within eight years handled more than \$170,000,000 worth of bonds and notes at a total profit to itself of about eight-tenths of 1 per cent.

The editor of the Boston News Bureau draws attention to this as a strong contradiction of the general opinion that bankers make immense sums from railroad and industrial financing.

THE EASTER ARGOSY The Belgian Relief Committee's appeal to the boys and girls of America to send an Easter Argosy laden with food and clothing for the boys and girls of stricken Belgium is reminiscent of the plea of the charitable people of the country at the time of the Crimean war, when children went about begging "a cent for Sebastopol, please."

It is scarcely possible to look upon the proposed foot bridge as anything more than a crossing for the benefit of railroad employees, whose safety must be regarded by the company, and who are now greatly delayed in getting to and from the big freight transfer sheds by train blockades.

To-day the number of those who must be fed and clothed, if they are not to perish for lack of the necessities of life, is greatly in excess of the small army of sufferers left in the wake of the Crimean campaign.

BOTTLING MILK The decision of the Board of Health to require the bottling of all milk sold in Harrisburg is a step in the right direction.

Responses to invitations to become members of the organization of former councilmen are being received at the rate of a dozen a day.

A couple of kids were walking along the street yesterday afternoon carrying baseball bats and baseball when a man old enough to be their father told them to be played in the streets, especially streets which offered a chance for posting of pickets to spot the policemen.

THE JEWS IN THE WAR The editor of the Jewish Daily News, an influential New York newspaper, has suggested the calling of an American Jewish conference for the purpose of bringing to the attention of the nations the deplorable plight of the Jews of Europe, particularly since the outbreak of the war.

THE JOHNSTOWN LEADER very properly commends the Johnstown School Board for having voted to meet the expense of maintaining the school gardens of that city for another season.

Johnstown proposes to so occupy the time of its boys and girls that they shall be producers instead of merely consumers, which is observing an economical principle of no mean importance.

People who follow the cattle business say that in a short time the native cattle will make their appearance in the trade and that over 50,000 cattle will be on sale between now and the middle of summer.

People at the Capitol yesterday congratulated Howard N. Hoke, secretary to Attorney General Brown, upon the completion of twenty-eight years in his place.

One of the most singular sights witnessed in the streets in a long time was noted yesterday in Fourth street when blind literally led the blind.

Professor J. A. Singeliser, of the Central high school, is studying maps these days. He is arranging to take students out on hikes to study natural history and will cover nearby country.

A few people know that there is an organization of former councilmen which is somewhat akin to the new councilmanic organization.

Did they used to play right out in the street? asked one of the "Yes, and telegraph poles and manholes were bases," answered the man.
