Monthly reports of officers and committees showing much successful activity on the part of every interest in the chamber were submitted. It was announced that the Credit Rating Bureau would be open for business some time in March. Five new members were elected. They were L. M. Bricker of the West Shore Bakery; Burns & Company, furniture; Ezra F. Hershey, of Hershey; Lalanc & Grosjean Manufacturing Company, for John Grey, their new local manager, and E. S. Marks, proprietor of H. Marks & Company.

Postal Business Here Steadily Increasing

No retrenchments have been made in the forces of the Harrisburg Post Office, although some have been made in offices of the large cities of the country by recent orders of the department at Washington.

According to Postmaster Frank C. Sites, this is due to the largely increased business done here, the total for the current year amounting to about 20 per cent. more than the same period last year. The fact that this added business has been done without any recent increase in the number of employees is considered equivalent to a reduction in those offices where no greater amount of business has been done.

Either Way—Drugs Are Harmful!

If a coffee drinker, have you stopped to think that, with every cup of coffee, you are taking from two to three grains of caffeine, a slow, but powerful drug?

According to medical authorities, caffeine is a cause of nervousness, heart trouble, indigestion, constipation and other ailments. It's a cumulative drug, and what's more, a habit-forming drug.

Sometime, when the coffee-drug gets in its licks, you'll realize the harm it does; but wouldn't it be better to avoid trouble—stop coffee now and use Postum.

It is a pure food-drink, made from selected wheat and a little wholesome molasses, carefully roasted, ground and skilfully blended. This gives it a snappy taste much like that rich, old Java, but Postum is absolutely free from caffeine, or any other harmful ingredient.

Postum comes in two forms:—Postum Cereal—requires boiling—15c and 25c pkgs. Instant Postum—a soluble form—no boiling required—made instantly in the cup with hot water—30c and 50c tins.

The difference is only in the form. Both kinds are equally wholesome and delicious and the cost per cup is about the same. Be sure to ask for the kind you want.

There's a Reason for POSTUM
