New York, March 16. — Specialties were again more prominent than the active or seasoned issues at the outset of to-day's market operations. The minor Coppers, Alaska Gold, Centrai Leather and Motor Shares made general gains, while leaders were slightly lower or unchanged. Later Bethlehem Steel and Texas Company were added to the list of higher prices, the former advancing two points. Reading's uncertain course reflected current gossip connected with its future dividend prospects. Some very substantial recessions were recorded by American stocks in London, notably Canadian Pacific, Reading and Union Pacific.
