Spring Millinery Courts Your Favor
**Models Will Display the
 Charms of the New Hats**

9.30 to 11 A. M. and 2.30 to 4 P. M.

Our opening is always the premier fashion event of the new season for which hundreds of women wait, knowing that they will be rewarded with a rare style treat.

Creations from such famous designers as Rawak, Jardine, Earl, Burgess, Phipps and others will be worn by models in a promenade on the second floor in the morning and afternoon during the hours announced above.

Much could be said in telling of the new hat styles, but on an occasion so important as a Spring opening, women prefer to see for themselves rather than read about them, especially there will be so many beautiful and exclusive creations to admire.

The Spring opening presents styles that are entirely new since the earlier preliminary showings—notably the many new sailor and other shapes that show the tendency to larger hats.

The Selection of the Right Corset

Most exacting in demand is the modiste and dressmaker. They, as a rule, know when a corset is correctly or incorrectly designed.

The best dressmakers recognize the merit of the Frolaset front lacing corset. They often require that their customers be fitted in a Frolaset before they do any work. Isn't this a thing worth considering?

We want every woman to know that we believe the Frolaset is as perfect a corset as human skill can design. The lines are correct, the comfort it affords is absolute; the material is of a high quality; the workmanship is careful. In fact, every detail is perfect. If you decide to try a new make—the Frolaset should interest you.

Beautiful, perfect-fitting models at \$3.50, \$5.00, \$6.50, \$8.50 and \$10.00.
 Special attention given fittings.

An Important Style Event is This Presentation of the New Suits, Coats & Gowns

This assemblage of Spring outergarments for women is of great interest to all who would know the new styles. This opening is the most style-informing, the most authoritative and the most practical event of Spring in this city, serving at once as a guide to and a guarantee of style satisfaction at the most moderate of prices.

Women's Spring Suits

The latest smart short jacket styles in belted effect or swaying loosely from the waist line, and the more conservative models with longer jackets in semi-belted or plain tailored styles. These are fashioned of the finest qualities of poplin, gabardine and serge in all the modish Spring shades \$16.50 to \$42.50

Women's Spring Coats

The showing of new coats embodies all the most-talked about effects in covert, shepherd checks and the smart black and white plaids. The coats are plain tailored, full ripple back or belted \$15.00 to \$25.00

Gowns and Dresses

Evening gowns in pompadour silks, crepe meter, net and taffeta, elaborately trimmed in silver or gold lace and shirred flouncings, the newest empire styles in all evening shades. \$16.50 to \$37.50

Beautiful silk dresses in crepe, pongee, crepe de chine, chiffon taffeta and crepe meter; the colors are rose, tan, sand, putty, navy and Belgium blues and black; style include empire, eton and Russian effects with the new wide skirts \$15.00 to \$39.50

Dives, Pomeroy & Stewart—Second Floor.

Taffetas & Other Highly Favored Spring Silks in the Opening

The importance of silks in the development of the very beautiful dress designs of the season is unmistakable.

The voluminous circular skirts for afternoon and evening gowns are at their pinnacle of charm when carried out in silk of the right color, pattern, texture and weight.

Taffetas perhaps lead in favor, but to ensure the proper lines it must be taffeta having a slight body finish to give a slight measure of weight to the silk.

The exposition of taffetas, crepes, foulards, and other of the silk fashions for Spring to be held to-morrow will be to those with dressmaking ahead, the most helpful we have ever held.

"KEEP PUBLIC ROADS PASSABLE" -- KUNKEL

President Judge Turns Constable's
 Complaints Over to District
 Attorney For Action

"Public roads, if they are to be kept open, should be made in at least a fairly passable condition, and it is the duty of the township supervisors and others to whom this responsibility is entrusted to fulfill this duty," said President Judge Kunkel to-day in turning over to District Attorney Stroup half a dozen March quarter sessions constables' reports dealing with unsatisfactory road conditions. Mr. Stroup said he would give the matter his prompt attention.

Chief among the complaints was one from Constable Joseph Dunkle, of the Thirteenth Ward. He mentioned Nineteenth street, Derry to Greenwood; Brookwood, between Nineteenth and Twenty-first; Twenty-first and Twenty-third; and Twenty-third and Twenty-fifth streets between Derry and Greenwood. Citizens of the Thirteenth, he said, were the complainants. Other complaints included sections in Jackson, Jefferson, Wisconsin and Middlesboro townships and Elizabethville.

Colonel Joseph B. Hutchison, of the city force, in concluding his report of conditions in the city relative to disorderly houses, said: "The city has never been as free from such places as now."

Another Baby Barrister.—Dauphin county's latest "baby barrister" was admitted to practice this morning when Attorney Mark T. Minor, was presented for admission by Attorney William H. Earnest, with whom he will be associated. Mr. Minor is a Warrensville, Locoming county man and is a member of the Locoming bar. He is a graduate of the University of Pennsylvania law school class of 1914.

Delivery of Coal Begins.—The delivery of river coal to the city pumping station was begun yesterday by J. Weiner, the contractor, who will put 5,000 tons of the fuel. Commissioner Harry F. Bowman had fixed March 15 as the time for starting of the work and Mr. Weiner was on the job with his team and steamers.

Wants \$5,000 for Slander.—Suit for \$5,000 damages for alleged slanderous statements made against her by John Gledits was filed yesterday by Mrs. Catherine Pilling.

Settle Railways Accident Case.—Settlement of the suit against the Valley Railways Company brought by Clinton E. Jones, Camp Hill, to recover damages for the death of his wife, Leah E., who was killed in the trolley accident March 6, 1914, when the car tumbled at Elchberger's corner in Shiremanstown, was effected yesterday, when counsel agreed upon a verdict of \$6,250 in the plaintiff's favor.

Cadillac Eight No Longer Than Four Models

Those who seek the Cadillac exhibit expecting to find a car of radical external appearance and who do not know that the hood covers a motor of eight cylinders might assume that the power plant was the conventional four-cylinder design, for the hood is no longer than that used on last year's cars. This is due to the fact that the eight cylinders are not arranged in line, but are set opposite each other, at right angles, or in V form, four on each side. The advantages of this construction may be classified under four heads: size, weight, torque, and cooling. The compactness of construction results in correspondingly short crankshaft and camshaft, which practically eliminate the periodic vibration or thrashing to which long shafts are subjected. On a given power basis, the cylinders are smaller, as are the reciprocating parts, which—taken together with the shorter shafts—result in a lighter flywheel—results in material reduction of weight. Torque or turning power is absolutely continuous and uniform with eight cylinders, according to engineers, and additional cylinders could not confer any appreciable advantage in this respect. Hence eight is regarded as maximum so far as number of cylinders is concerned.

Select Speakers For Antiboze Meeting

Professor F. F. Holsopple, the Rev. William N. Yates and the Rev. E. F. Curtis are the three speakers delegated to address the local option meetings to be held in the Grand Methodist, Augsburg Lutheran and Fourth Reformed Churches on Sunday. The services will start at 3.30 o'clock and are open to men only. The purpose of holding the three meetings is to create a strong sentiment in favor of the local option measure.

SERVANTS' UNION PLANNED

Gompers Urges Organizing Janitor and "All Other Workers"
 New York, March 16.—On the hope of bringing the membership up to 3,000,000, President Samuel Gompers, of the American Federation of Labor, has issued a manifesto calling upon all national and international unions to organize the "unorganized" workers of every field of honorable human endeavor. Particular instructions were given to organize stenographers, typewriters, bookkeepers, office assistant elevator operators, porters, janitors and "working women employed in homes and known as domestics and household workers."

VISITING RECTORS WILL PREACH AT ST. PAUL
