Spring Millinery Courts Your Favor
**Models Will Display the
 Charms of the New Hats**
 9.30 to 11 A. M. and 2.30 to 4 P. M.

Our opening is always the premier fashion event of the new season for which hundreds of women wait, knowing that they will be rewarded with a rare style treat.

Creations from such famous designers as Rawak, Jardine, Earl, Burgess, Phipps and others will be worn by models in a promenade on the second floor in the morning and afternoon during the hours announced above.

Much could be said in telling of the new hat styles, but on an occasion so important as a Spring opening, women prefer to see for themselves rather than read about them, especially there will be so many beautiful and exclusive creations to admire.

The Spring opening presents styles that are entirely new since the earlier preliminary showings—notably the many new sailor and other shapes that show the tendency to larger hats.

Taffetas & Other Highly Favored Spring Silks in the Opening

The importance of silks in the development of the very beautiful dress designs of the season is unmistakable.

The voluminous circular skirts for afternoon and evening gowns are at their pinnacle of charm when carried out in silk of the right color, pattern, texture and weight.

Taffetas perhaps lead in favor, but to ensure the proper lines it must be taffeta having a slight body finish to give a slight measure of weight to the silk.
 The exposition of taffetas, crepes, foulards, and other of the silk fashions for Spring to be held to-morrow will be to those with dressmaking ahead, the most helpful we have ever held.

The Selection of the Right Corset

Most exacting in demand is the modiste and dressmaker. They, as a rule, know when a corset is correctly or incorrectly designed.

The best dressmakers recognize the merit of the Frolaset front lacing corset. They often require that their customers be fitted in a Frolaset before they do any work. Isn't this a thing worth considering?

We want every woman to know that we believe the Frolaset is as perfect a corset as human skill can design. The lines are correct, the comfort it affords is absolute; the material is of a high quality; the workmanship is careful. In fact, every detail is perfect. If you decide to try a new make—the Frolaset should interest you.

Beautiful, perfect-fitting models at \$3.50, \$5.00, \$6.50, \$8.50 and \$10.00. Special attention given fittings.

"KEEP PUBLIC ROADS PASSABLE" --KUNKE

President Judge Turns Constable Complaints Over to District Attorney For Action

"Public roads, they are to be kept open, should be made in at least fairly passable condition, and it is the duty of the town supervisors and others to whom the responsibility is entrusted to fulfill this duty," said President Judge Kunke today in turning over to District Attorney Stroupe a dozen March quarter sessions constables' reports dealing with unsatisfactory road conditions. Mr. Stroupe said he would give the matter his prompt attention.

Chief among the complaints was one from Constable Joseph Dunkl of the Thirteenth Ward. He mentioned Nineteenth street, Derry, Greenwood, Brookwood, between Nineteenth and Twenty-first; Twenty and-a-half and Twenty-first streets between Derry and Greenwood.
