Army Transports Will Be Used to Carry Goods From Philippine Islands

Washington, March 18.—Because of the lack of shipping facilities between the Philippine Islands and the United States, army transports will be utilized for carrying goods from the islands which could not be transported in any other way.

Secretary Garrison to-day called President Wilson's attention to the report from Governor General Harrison on the "unfortunate condition" in the Philippines because of lack of ships for exports to the United States.

Subway Traffic Tied Up When Auto Breaks Down

Traffic was tied up in the Market street subway last evening about 5:30 o'clock for twenty minutes when an automobile broke down.

The Harrisburg Railways Company was the principal sufferer, its schedules being deranged on Hill, Oberlin and Seaton lines. It was twenty minutes before a street car could be gotten through the subway and as a result many hundreds of people got home late for supper.

Through the efforts of the transportation department of the Railways all cars were soon running on schedule.

PROPOSES CANAL DEFENSE

Panama, March 18.—Brigadier-General Clarence R. Edwards, commander of the United States military forces in the canal zone, addressing a St. Paul, Minn., banquet last night advocated the organization of an all-embodied canal workers into reserves to form part of the canal defense force under his command.

RAILROADS FILE BRIEF

Washington, D. C., March 18.—Attorneys for several eastern railroads to-day filed a brief in the Supreme Court in support of their contention that the government has illegally retained some \$25,000,000 due to the railroads for transportation of mails. The brief is in a test case, to be argued early April 5.

Corn-Mad? Use "GETS-IT," It's Sure

Makes Corn Vanish Like Magic
 A hard spot of skin makes up every one who ever known. Some folks, to this day, putter around with sandpaper, tickle tape, thick plasters, corn pullers, salves, gouge corns out with knives, snip them with scissors, make them bleed and then howl because they can't get rid of corns. Use GETS-IT. There's nothing to do but apply 2 drops. The work is done. GETS-IT does the rest. No pain, no itching, no changing shoes, no limping, never fails. Try it to-night for your corn, callus, wart or bunion. Be sure that you get "GETS-IT" and nothing else.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

HIGHWAYMEN MURDER TELEGRAPH OPERATOR

Hold Up Another Along Railroad, Rob Him and Then Cut His Throat

Highland Falls, N. Y., March 18.—Highwaymen operating during the night along the West Shore railroad held up one man, robbed him and cut his throat and later entered the railroad station, where they killed the night telegraph operator and escaped with a small sum.

George Griffin, whose throat was cut in a station in the morning, was 24 years old. Three years ago his cousin, of the same name, was murdered under similar circumstances in the railroad station at Tappan.

At the hospital where he was taken, Griffin said he had been attacked by three men on the railroad tracks. They robbed him of \$3 and cut his throat. Two arrests have been made by detectives who are engaged in the search for Hotelling's murderers.

Commerce Chamber's New Policy Is Commended

The Chamber of Commerce policy of urging its members not to patronize or encourage out-of-town solicitors, canvassers, salesmen or peddlers, resulting in a loss of business to local merchants, is shown by the following letter received from one of its members:

"Your 'Bottle of Ink' postal received yesterday morning, and I am very glad to see that you are taking an opportunity to make use of it about an hour later, when a Philadelphia tailor with a card in his hand called at the office. He had not gone very far with his introduction when I handed him your card, which, controlling my tongue, I had to say to him, and showed him further that the local Chamber of Commerce was behind just such a movement.

"I want to say that I heartily endorse your policy, and will give my pleasure to keep your card at hand and continue to extend it rather than the hand of the out-of-town peddlers who strike me."

City Fire Dept. Compares Well With Other Towns

Statistics of the Harrisburg Fire Department, including present equipment and contemplated purchases, are published in the current issue of the Firemen's Herald, of New York, which has obtained detailed figures from the chiefs of the fire departments of more than 500 cities of the United States. Harrisburg compares favorably with other cities of its size.

The contemplated purchases by Harrisburg mentioned in the census are two auto combination chemical and motor cars, one horse-drawn hose cart and one horse-drawn steam fire engine, ten horse-drawn combination wagons, three horse-drawn aerial or service trucks, one horse-drawn hose cart and two auto combination hose and chemical cars.

Steelton has one horse-drawn fire engine, two horse-drawn combination wagons, one horse-drawn truck, and one horse-drawn hose cart. No contemplated purchases are given for Steelton.

Pardon Board Refuses to Free Wife Murderer

The State Board of Pardons to-day recommended commutation of the death sentences of Andrew Malinowski, Albert Simon, Joseph Ploga, and Gregario Rizzati, Philadelphia, and granted a pardon to Dusan Maric, also of Philadelphia, who was convicted in 1904. The three men granted clemency were under sentence of electrocution. Simon was declared to be insane by a report of State alienists.

The board refused to pardon Luza Zarevic, who murdered his wife in 1908, and also refused the following applications: Charles Miller, surgery, Chester; William Feldman, assault and battery, Philadelphia; James Brumm, assault and battery, Philadelphia.

Pardons were recommended as follows: William R. Wayne, assault and battery, Montgomery; Earl Wagner and Charles E. Switz, arson, York; Charles C. Rodewig, gambling, York; John Harreck, burglary, York; Arthur W. Hampton, William Hatton, larceny, Philadelphia; Jacob Coyle, assault and battery, Philadelphia; Annie Peter, adultery, Chester; Harry McGough, manslaughter, Philadelphia.

"CONSTRUCTIVE HELPFULNESS" POLICY OF TRADE COMMISSION

Washington, D. C., March 18.—With "constructive helpfulness" as its announced policy toward business, the new Federal Trade Commission set to work to-day to carry out its program as directed by the president last night at the White House between President Wilson and the commissioners. The commissioners let it be known to-day in outlining their policy that there was no intention of beginning a campaign of annoying or harassing business, but on the contrary that it was gradually to map out ways wherein corporations and individuals who trade may conduct their business conformably to the anti-trust laws.

LOADING SUPPLIES FOR EUROPE

New York, March 18.—Work is being rushed to-day in the loading of more than a dozen steamers here with food supplies, ammunition, guns, motor trucks and other material for the use of the allies in the war. Several steamship companies have been compelled to charter additional vessels to carry to Europe heavy cargoes waiting on New York piers.

VILLAGE STREWN WITH DEAD

London, March 18, 11 A. M.—The village of Neuve Chapelle, converted into a shambles by the bombardment of the British, now is a heap of ruins thickly strewn with bodies, according to the description of the British operations in that region written by eyewitnesses and given out at the press bureau to-day.

TO RENEW RUSS TREATIES

Washington, March 18.—The Wilson Administration is preparing to take tentative steps looking to the renewal of commercial treaties with Russia without attempting to settle the Jewish passport issue, which was the subject of the abrogation of the old treaty.

WASHINGTON SILENT ON TROUBLE IN EAST

Officials Will Only Say That Representations to Japan Were Made Independently

Washington, March 18.—It was stated officially at the White House to-day that representations by the United States to Japan concerning the latter's demands on China had been entirely independent of any action by Great Britain and Russia or other powers.

Further than this statement, officials in all quarters preserved the strictest silence regarding the situation as one of delicacy. State Department officials, however, have admitted that since the beginning of the negotiations between Japan and China over the former's demands for commercial and other concessions, the United States has been endeavoring to influence Japan to ameliorate her demands and to prevent any infringement of the rights of the United States. None of the steps in the representations, which have been made to the Japanese ambassador here, as well as to Tokio and Peking, have been made public.

Notes and Comments From the Kelker St. Auto Show

"When it comes to real class, and a touch of the French in motor car designing, we believe the Jeffery Big Six can be put beside the finest in the land, and that is the Regal," said G. E. Matteson, in discussing the merits of the fine Jeffery model in the Benz-Landis exhibit. "And under the beauty of its graceful lines it has all that can be required in a high-grade six for motor car use—speed, comfort, power and style distinction."

The Regal is in charge of W. O. Haney who is seeking local representation for the Regal line. The Regal this year includes a four, a light four and an eight-cylinder model, all equipped with electric headlights. There has been a decided change for the better in Regal design this year and the new models are attractive in their streamline construction.

The two Brookway trucks, an express type and a stake body shown by E. J. Cavender, are receiving critical inspection from the merchant who contemplates relegating old "Dobbin" to a pension of green pasture or the slow-moving line of motor cars. The Monroe is a new light car being introduced by Hottenstein & Zech, but made by some superior experienced and successful men in the automobile industry. The car has streamline body, left-hand control, deep upholstered seat, mohair top with curtains and cover, windshield, electric lights, and sells for \$460. The new cars were received yesterday and will probably be placed on exhibit this evening.

With C. H. Miller representing the Studebaker, Mr. Hull, representing the Oldsmobile, and Mr. Erikman for the Detroit Electric, R. Barrett of the East Grand Auto Company, which has a line of arguments marshaled in favor of the three cars in his exhibit. One Metz, who was on duty one Wednesday, and seven since February 1 is the report from the Metz Sales Company exhibit. The Metz is a new model, contracted for thirty-five of these little cars for this season and expect to extend the allotment. The price of the Metz has been increased to a capacity of 100 cars each day.

Hayne, is exhibit inside the door, the Hayne, is presided over by Roberts & Hohn, and a big, long line of lingos is always on display. Hayne, is being the parent of the motor car industry, and the wonderful evolution of Hayne into the present graceful, light.

E. L. Thrasher, who was the man that thrashed together so many Buick orders that it took a trainload of sixty-seven cars to bring them to Philadelphia, is assisting at the Hottenstein & Zech display. Thrasher says, regardless of rumors circulated to the contrary, that every one of those Buick automobiles were delivered to dealers and paid for and not placed in storage by the Philadelphia branch.

Seen and Overheard at the Arena Auto Show

An entirely new design in motor manufacture is shown this season at the Arena show in the Chalmers-Delage high speed valve in head motor, which is a feature of the new Chalmers. This car, which is being shown for the first time in Harrisburg, has attracted the attention of engineers and other motorists, persons who had heard advanced reports of the Chalmers' intention of building a new, low-priced, six-cylinder model. This car is the first car ever built by the Chalmers company at less than \$1,500. The contrast between this generous sized, amply powered, modern automobile and the "old" model of six or seven years ago is a pretty good index of the progress which the motor car industry has made.

SERVICES FOR DAUGHTER

Funeral services for Esther Ruth Cressman, 6-year-old daughter of Mr. and Mrs. John L. Cressman, 342 South Thirteenth street, will be held from the home to-morrow morning at 8 o'clock, the Rev. John Henry Miller officiating. Burial will be made at Kutztown Saturday.

Mrs. Florence Weeks Mayo, of Scranton, Penna.

Scranton, March 13.—The photograph is the first published picture of Mrs. Florence Weeks Mayo, who charges that Virginia J. Mayo, who had not been on the professional baseball field for twenty-four years, "Billy" Sunday to-day stood up to bat before Ben Shibe, owner of the Philadelphia Athletics, on the Philadelphia grounds, knocked out a "home" the first crack and circled the bases in 16 seconds.

Scranton, March 13.—The photograph is the first published picture of Mrs. Florence Weeks Mayo, who charges that Virginia J. Mayo, who had not been on the professional baseball field for twenty-four years, "Billy" Sunday to-day stood up to bat before Ben Shibe, owner of the Philadelphia Athletics, on the Philadelphia grounds, knocked out a "home" the first crack and circled the bases in 16 seconds.

COMPLETE LIST OF ENDEAVORERS URGED COUNTY MERCHANTS TO SUPPORT GOVERNOR

Appraiser Joseph Miller Will Likely Turn Over Books to Commissioners at Next Session

At the meeting of the County Commissioners next week Joseph Miller, Dauphin county's mercantile appraiser will likely turn in his report of the licenses in the county for 1915. All told there will be about 1,403. The list will be about the same as in previous years although it is probable that Mr. Miller will have his list and books completed earlier than usual.

Leaders of Christian Endeavor Societies in this city and vicinity have received a circular letter signed by Dr. B. W. Swayne, chairman of the Pennsylvania Christian Endeavor Union, asking them to support Governor Brumbaugh's stand on local option.

Fifty thousand members of Christian Endeavor Societies throughout the State have enlisted in the work, and individual members are urged to petition representatives in their district to vote in favor of the local option bill.

John S. Weaver Funeral Will Be Held Saturday

The funeral of John S. Weaver, who died yesterday, will take place Saturday afternoon. Services will be held at 2:30 o'clock in Zion Lutheran Church, South Fourth street. The Rev. S. Winfield Herman, pastor, will officiate. Burial will be made in Harrisburg Cemetery.

EFFECT OF GASOLINE ON TIRES

It is wise to resist the temptation that occasionally occurs to wash or wipe off a motorcycle tire with gasoline, says the Motorcycle Review. Gasoline, like all oils, is a foe to rubber. Its effect on a tire may be readily learned by immersing in it a small piece of rubber for a short time. When the rubber is removed it will be found to be so brittle that it will crack or break between the fingers.

WILL STUDY BIRDS

A study of our birds will be begun to-night by members of the Harrisburg Natural History Society at a meeting to be held at 8 o'clock at the Museum, curator's office. Plans for the 1915 work will be outlined and outdoor excursions arranged.

STOMACH TROUBLES Due to Acidity

SO SAYS EMINENT SPECIALIST.
 So-called stomach troubles, such as indigestion, wind, and sourness, are in probably nine cases out of ten simply evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach, and causes that full, oppressive feeling which, if not relieved, probably the best and most effective corrector of acid stomachic contents should be taken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, and neutralizes the acidity in a few moments. Fermentation, wind and acidity are dangerous and unhealthy. Stop or prevent them by the use of a proper antacid, such as bisulphated magnesia, which can be obtained from any druggist and is suitable for the stomach to do its work properly without being hindered by poisonous gas and dangerous heartburn.

TWO SECRETARIES RESIGN

New York, March 18.—The American Baptist Foreign Mission Society announced to-day that it had accepted the resignations of the two most recent additions to its staff of secretaries, the Rev. Dr. Emory W. Hunt, former president of Denison University, Granville, Ohio, and the Rev. Arthur C. Baldwin, formerly pastor of the First Baptist Church of Fall River, Mass.

TOO BAD.
 Daddy: Santa certainly brought you a lot for Christmas; you ought to be very thankful.
 Johnny: Aw! dere all useful things.

GOOD ADVICE.
 Jack: Have you got fur to get yet?
 Santa: Yes—thousands of miles.
 Jack: Well, you're an old man, hadn't y' better leave yer bag right here.

Smith's 412 Market St.

Claims Coal Dealer Short Weighted Hun

Oliver Kreiser, 111 North Fourth street, complained to the Telegraph to-day that recently he was given two short weight in a load of coal. Kreiser said he had informed H. D. Reel, dealer of weights and measures, and requested that the coal be weighed. Kreiser also said he had purchased 500 pounds of coal, but received only 403 pounds.

WILL BE BURIED HERE

Mrs. Caroline M. Rohrer, aged 32 years, who died Tuesday at her home in Franklin Park, Va., will be brought to-night by Undertaker Charles H. Mauk to the home of her parents, Mr. and Mrs. John C. Peffer, 1921 North Sixth street. Funeral services will be held Friday afternoon at 2 o'clock, the Rev. Mr. Hoover, former pastor of the Harris street United Evangelical Church, officiating. Burial will be in the Camp Hill Cemetery. Mrs. Rohrer is survived by her husband, her parents and one sister.

Grass Fire Threatens Presbyterian Mission

Fire in the weeds and grass near the Presbyterian Mission, at Jefferson and Division streets, was the occasion for two telephone calls to the Camp Curtis Fire Company last night and this morning.

MEN MAY BE ALIVE

Seattle, Wash., March 18.—Making a daring dash on a bare chance, the eight men of the ill fated Stefansson exploring steamer Karluk, last seen by rescued companions on ice packs in mid-Arctic ocean, are still alive, the steam trader Belvedere left Seattle last night to push into the heart of the Arctic to Herald Island.

MACHINERY CASE DROPPED

Boston, Mass., March 18.—The suit of the Federal government to dissolve the United Shoe Machinery Corporation on the ground that it was an illegal monopoly in restraint of trade, was dismissed by the United States district court to-day.
