Going to the Expositions? Don't Miss Colorado Scenery

No one can be indifferent to the beauty and grandeur of the Colorado

No one can be indifferent to the beauty and grandeur of the Colorado Rocky Mountain scenery, and visitors to the California Expositions should make a point of seeing it. Also Denver, Colorado Springs, Pueblo, the Royal Gorge, and Sait Lake City, Now there's no extra charge for all this if you go via the Burlington Route (C., B. & Q.), because it so happens that the through service of that line has been planned so that you pass all of these points by daylight, and you can view from the train a panorama of mountain scenery that is as celebrated as any in the world. Surely on your way, you will not miss this opportunity and I would like to send you free, some pictures, maps and printed matter, not only of the Colorade wonders, but also of Glacier Park or Yellowstone Park, which, by all means, you should visit on the return trip. Please make use of me—let me help plan the trip for you. Call on or write.

A New, Harmless Way

to Banish Hairy Growths

By following this suggestion any woman can, in the privacy of her own home, remove every trace of hair or fuzz from her face: With powdered delatone and water mix enough paste to cover the not wanted hairs; apply and in 2 or 3 minutes rub off and wash the skin. This method is unfailing, harmless and quick in results, but care should be employed to get the genuine delatone.—Advertisement.

U. S. REPLY NOT YET READY

By Associated Press

Washington, March 23.—President Wilson said to-day the American Government's reply to the declaration by Great Britain and France of an embargo on commercial intercourse between Germany and neutral countries was not yet ready. At the same time he declined to give any intimation of its character hecause the document had not been finally put into definite shape.

Railroad men issued a statement, which, said in part:

"Emactment of the Baldwin bill would repeal the full crew law and simultaneously empower the Public Service Commission, after hearing in the matter, to direct and require any railroad to employ a sufficient and adequate number of men upon any of its trains to afford safe and efficient operation and service. It would thus substitute for an arbitrary law the intelligent judgment of a competent body vested with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect when the public and trainmen than is exerted with greater power to protect whe Railroad men issued a statement, which said in part:

WHAT CATARRH IS

It has been said that every third person troubled with catarrh in some form. Science has shown that nasal catarrh indicates a weakened condition of the body; that the secretion of the mucous membranes are quickly affected, and local treatments in the form of snuffs and

vapors do little, if any good.

To correct cafarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Tryit.

STEELTON GETS NEW

vania Announced at Norristown Conference

Norristown, Pa., March closing session of the 128th annual Philadelphia Methodist Episcopal

formulated at a meeting of the Municipal League Monday evening.

President Harry 'C. Wright this morning said that he believes Warren H. Manning, the landscape architect, who is drawing plans for the park, will have his work completed in time to be submitted to the league Monday evening.

If these plans arrive in time the league will complete the details of a plan to have all the school children of the borough help lay out the new park. A date will be set and members of the Municipal League will be on hand to direct the work. The school children will be furnished with picks, shovels and pruning knives and set to work clearing out the underbrush, laying out paths and drives and trimming the young trees.

It is likely that some Saturday in April will be selected for the undertaking and that Mr. Manning will be here to direct the work.

RUINS HAIR TO WASH IT WITH SOAP

tain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is

and ruins it.

The best thing for steady use is just ordinary mulsified cocoanut oil (which is pure and greaseless), is cheaper and better than soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified cocoanut oil at any pharmacy, and a few ounces will supply every member of the family for months.
