A WARNING TO MANY Some Interesting Facts About Kidney Trouble

Few people realize to what extent their health depends upon the condition of the kidneys. The physician in nearly all cases of serious illness makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's disease, which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in 1913, in the State of New York alone.

660,000 People Walked Over This Rug

The above Rug was shown on pavements on 5th ave., New York, during month of January regardless of weather conditions—about 500,000 persons walking over same, and after being shown in a similar way throughout the country, has had at least 660,000 persons over it. Having arrived from Lexington, Kentucky, today, it will be shown on our pavements for several days. Outside of being grimy it has shown very little sign of wear or difference in color.

As to the Rug, Kirmanshah, Kazak, Hamadar, etc., Oriental patterns can be truly reproduced, unlike a Milton loom which is limited to seven colors at most, there is no limit to the number of colors which can be handled in the Royal Bengal fabric.

Not only do we reproduce Orientals in design, but we have also, the same soft tones of coloring—aged colorings such as are found in Orientals. Woven in one piece, seamless, of carefully selected wool yarns. Weight about 50 lbs. Pile full and flat, and modestly deep.

This Rug will immediately appeal to those who have a desire for Orientals, and for severe, hard service we recommend it. Made in 9x12, 8x10, 4x7, 27x54 size and 30-inch wide runners. See our window display.

Hereafter the basis of adjustment will be:

In Ford sizes, plain tread, 6,000 miles; Kant Slip, 7,500 miles. All other sizes, plain tread, 5,000 miles; Kant Slip tread, 6,000 miles.

The word "adjust" is merely figurative, because in 1914 the total adjustment in Kelly-Springfield Tires for the whole United States was less than 1%.

You get this unequalled service in uninterrupted mileage—not adjustment.

Before buying some other tire at a lower price analyze the basis of adjustment offered by the other maker—see what you really do get for less money.
