**How to Buy Coal**

It is necessary for the coal merchant to have full particulars if he is to give you good reliable service.

Tell him if you have a Hot Air, Steam or Hot Water Furnace. Whether it is large or small and it will be a good thing for him to know about the size of the fire box.

The coal dealer will then be able to give more of an idea what kind of coal will give you the best results than if you merely inform him you want "furnace coal."

There are many kinds and sizes of coal and it is important that you get the kind that is best suited to your conditions.

We have two yards containing many varieties, tell us about your requirements.

**LAW DEPARTMENT REORGANIZATION**

Attorney General Presents His Ideas in Two Well Drawn Bills For the House

**CENTRALIZES MATTERS**

House Holds a Busy Evening Session to Clear the Deck For the Week End

Attorney General Brown's bills for reorganization of the State's law department and centralization of the legal business of the Commonwealth were introduced into the House by Mr. McNichol, Philadelphia, last night and will be promptly acted upon by the Judiciary general committee.

One bill places all legal business and affairs of every branch of the government under "direction and control of the Attorney General," requiring all chiefs of departments to be made by the Attorney General, who will designate their compensation. The act will affect most of the departments of the State government now having their own course.

The companion bill reorganizes the Attorney General's department, fixing offices and salaries as follows: Attorney General, \$12,000 per year; first deputy, \$7,500; one deputy at \$6,000; two deputies at \$5,000 each; two deputies at \$3,500, all to be appointed by the Governor; private secretary, who is also to be stenographer, \$3,500; three law clerks at \$3,000 each; five stenographers at \$1,200 each; one messenger at \$1,200 and one telephone operator at \$900. The Attorney General is authorized to appoint such additional deputies, law clerks and stenographers "as he may deem necessary, whose compensation shall not exceed in the aggregate \$20,000 per annum." All officers and employees are to perform such duties as shall be assigned them by the Attorney General.

**Rush to Report**

Seventy-two bills were reported to the House as the result of activities of committees during the day. In the list of bills reported were those authorizing municipalities to tax real estate of public service corporations, authorizing third class cities to tax realty of railroads, etc. reducing retail oleo license; for State license of lawyers; classifying counties as cities are classified; appropriating \$240,320.47 to counties as reimbursement for bounties paid; providing for taxation of life insurance companies without capital stock; second class city automobile taxation bills; requiring posting of primary election returns at polling places; regulating practice of optometry; requiring assessors to supply agricultural statistics to county commissioners; amending the dental laws and regulating sale of chisels.

The manufacturers committee has been called to meet Tuesday, when the administration child labor bill will be considered. Tuesday was also fixed by the House Judiciary general committee as the time to consider the compensation acts.

The House worked for two hours last night.

Bills passed finally included: Providing for State education of blind children over 8 years of age. Providing fine of \$10 for hindering attendance officers. Regulating granting of State teachers' certificates on county permit certificates. Regulating State inspection of upholstering. Giving commission on State Industrial Home for Women right of eminent domain. Regulating salaries of clerks in office of recorder in Philadelphia. Providing registration of realty ownership in second class cities. Establishing State license for insurance associations known as Loyds. Bills introduced included: Mr. Landis, Montgomery—Requiring county commissioners to furnish to first class townships duplicates of valuation for taxation purposes. Mr. Eby, Perry—Authorizing county commissioners to appoint a county chemist and to equip a laboratory; amending road tax law so that abatement may be allowed on tax paid to August 1. Mr. Habgood, McKean—Providing that no one may be eligible for district attorney unless he has had one year's practice at law.

**BRUMBAUGH FOR OPTION HEARING**

Law and Order Committee Is Formally Asked to Set a Date For All to Speak

Governor Brumbaugh said last night there would be enough votes in the House to pass the local option bill on second reading. He made that statement in response to some inquiries in view of the claims of the liquor people that they are going to defeat the bill on that stage.

The Governor said that it was the understanding that the Williams bill would be reported out after the hearing on April 6. In this connection he said that he was satisfied with the way things looked for the bill.

Last night the Governor gave out his letter to Chairman Williams on the local option hearing. The letter was as follows:

"My dear Mr. Williams: "I beg to advise you that I have received a large number of requests for a public hearing on the local option bill. Most of the individuals interested, some for and some against the bill, have indicated that it would be in their judgment right that a hearing be held on this subject.

"I agree in this judgment, and would respectfully ask you and your committee at your next meeting to arrange for a public hearing on the afternoon of April 6, a day which in equity and justice seems to me to be fair; and at this hearing all parties and interests should receive the same fair and impartial opportunity to present what to them seems wise concerning this measure.

"I respectfully request that you grant this hearing on the date above indicated, and beg to be

"Respectfully yours,  
 (Signed) "M. G. BRUMBAUGH."

**WAR**

We give our children drums to beat Before they stand upon their feet; We give them swords and soldiers gay, And at the game of war they play. We bend the twig of humankind, Yet marvel if the tree's inclined.

Early we learn that might is right, That life itself is one long fight. Our mode of speech, our mode of life Are echoes of the ancient strife. The women dress an military, Yet weep if nations come to blows.

Our poems and pictures, books and plays The doughty deeds of warriors praise. Our mode of speech, our mode of life Are echoes of the ancient strife. The women dress an military, Yet—"war" is a horrible affair.
