Face Eruptions Have Deep Significance

Often They Indicate Impurities Deep in the Tissues.

Facial eruptions are most of impaired nutrition result y elimination of body waste realize this to be true. Are

ing from faulty elimination of body wastes. Most people realize this to be true. And yet it is a difficult matter to convince such people they should avoid those harmful drugs such as mercury, lodide of potash, arsenic and so on. S. S. S. gives just as good effect without the destructive results, because it is more searching. It goes deeply into the circulation wherever the blood flows, but it does not remain to clog the system. And its effect is complete and thorough as indicated by lood tests. One of the strange things today is that so many people are wedded to the notion that mercury is the one antidote. It is not so. There is in S. S. a product of nature that is rated one of the most potent principles known for the complete elimination of blood troubles.

of blood troubles.

Wherever you go there are people who know this to be true from their own experience, for it has been clearly shown there is one ingredient in S. S. as essential to health if the blood be impure as the nourlashing elements of the grains, sugars and salist of our daily food. Get a bottle of S. S. S. today of any druggist, but Insist upon S. S. S., accept no substitute. And if your case is peculiar or of long standing, write to the Medical Adviser. The Swift Specific Co., 101 Swift Bldg., Atlanta, Ga.

street worth about \$100 a foot front.

"What." demanded Attorney Nead.
counsel for Fred W. Dinger, another property owner, "do you value the ground on the eastern side of the street?"

"Well not much more."

"You own property on the eastern side?"

The Major admitted that he owns a thirty-three foot front lot in the eleven hundred block on the east side. "What would you consider its value?" asked Mr. Nead.

"Oh about a hundred and fifty dollars a foot—"began Major Ensminger. "I'll buy it from you at that price!" suddenly interrupted Mr. Dinger.

Mr. Smith Sniffs a Commission
The viewers brightened.

"Green, Democrat, resigned.

Knows Nothing of Bigclow Resignation.—Governor Brumbaugh said to-day he knew nothing of the printed frumor that State Highway Commissioner E. M. Bigelow had resigned on account of poor health. The Governor has received no intimation from Mr. Bigelow that he intends resigning. Commissioner Bigelow has been confined to his home in Pittsburgh for several days with a cold. He stated over the felephone last night that he had not resigned and was not contempating such action.

suddenly interrupted Mr. Dinger.

Mr. Smith Suiffs a Commission
The viewers brightened. "Ah,"
murmured Mr. Smith, "here's where
the board of viewers sits up and takes
much notice. Now if there's a commission for making a sale here,
why—!" He paused significantly.
Mr. Dinger, however, was busily
writing out an agreement. After the
session he promptly sought out Major
Ensminger. "He told me to come
over to his office," said Mr. Dinger,
"and I'm going to go after that thirty
three front feet—for \$150!"

"Looks to me like the board could
surely claim a commission on a real
estate sale," gravely commented Mr.
Smith. "It begins to look more and
more that way."

CREW OF U. S. SUBMARINE DEAD

[Continued from First Page.]

Other submarines stationed here are engaged in searching the ocean bed for the missing F-4, while the naval tug Navajo and other vessels are grappling for the submarine. Shortly after midnight the Navajo and the tug Intrepid reported their lines fast at adepth of 35 fathoms to what was believed to be submarine F-4. Other vessels of the submarine feet immediately went to the spot to investigate. The fotailla of submarines stationed here were engaged in target practice early yesterday near the harbor entrance when the F-4 was submerged. The three other divers of F-4 type intoited the disappearance, but no real apprehension was felt for her safety until several hours had passed.

Lieutenant Alfred L. Eda was in command of the F-4.

Records Show Sixteen

maneuvers. European navies, however, have had several serious accidents in which submarines have gone to the bottom and with their crews have been recovered. It was pointed out to-day that American submarines have one feature of construction intended to meet just such an emergency as confronts the five on their outer skin is a large eye, into which grappling hooks being the formation of the five outer skin is a large eye, into which grappling hooks being the five outer skin is a large eye, into which grappling hooks being the five of construction intended to meet just of construction intended t Searching Ocean Bed

F-4 Failed to Send Up Signal Buoy; May Have Big Rocks in Harbor

Washington, D. C., March 26.—Naw Which Resulted Fatally By Associated Press Washington, D. C., March 26.—Naw Life the submarine F4 is sunk in 120 fathoms of water—720 feet—as Honolulu dispatches report, naval officers have no hopes whatever that any of her crew is alive. At such a depth, they say, the submarine must be crushed and full of water, they say, the submarine must be crushed and full of water Department received this dispatch from Commander Charles E. Smith, commander fortharies E. Smith, commanding the first submarine division of the Pacific fleet, off Honolulu:

"F-4 left tender at 9 a. m. for submerged run March 25. Falled to return to surface. Entrance of being contained the first submarine division of the Pacific fleet, off Honolulu:

"F-4 left tender at 9 a. m. for submerged run March 25. Falled to return to surface. Entrance of the hardon being covered with oil created grave alarm at the Navy Department. It was fearth the F4 had struck a rock, although it was pointed out that Lieutenant 2 demight her bourden. No Signal Sent Up

But the alarm of officials was lincreased by the omission in Commander Smith's report of any reference to a signal from the submerged craft. She was equipped with a of the submarine and capable of being released from within. As no mention was made of the appearance of the marker buoy, officials concluded it has not come to the surface by the F-1, a sister ship of the sunken F-4, in San Francisco bay two years ago, is 283 feet, at which depth she remained for ten minutes and cruised at a speed of six knots. At that depth the hull creaked and grouned under the other from Commander Smith's dispatch mentioning a thirty-fathom depth gave some hope that the F-4 might not be more than 180 fest down, in which case there might be a chance for the dispatch was made to the proper time the United Commander Smit

region. Each side reports that the attacks of the other were repulsed. The status of military operations in Northern Poland remains in question. Official reports give no idea of the operations beyond bare announcements of the results of isolated engagements and little is known except that a battle of importance over a long front is under way. Petrograd dispatches convey the idea that the Germans have all but abandoned their attempt to

Unearth Prehistoric (?) Bricks 22 Feet Down

Stone bricks, perfect in size, were found to-day by men working on the South Second street sewer. Contractor William H. Opperman, Jr., said it was the queerest find since he has been in business. The bricks came from a depth of twenty-two feet and were found about 100 yards east of Chestnut street. They have the appearance of being hand cut.

RUSS DIRECT OFFENSIVE AGAINST AUSTRIAN FRONT

By Associated Press

By Associated Press

London, March 26, 11.38 A. M.—As has been predicted by military observers since the fall of Przemysl, Russia is now directing her chief offensive against the Austrian front on the Carpathians. In the north between the Nieman and the Vistula rivers the Russian forces are making little effort to advance, evidently being content to hold Field Marshal von Hindenburg in check, but desperate fighting is taking place in the Carpathians, where the Russians are thrusting back the Austrians along the Dukla and Uzsok line.
