How Fat Folks May Become Slim

A SIMPLE, SAFE AND RELIABLE WAY THAT CALLS FOR NO DRASTIC DIET, OR THE-SOME EXERCISE

To be excessively fat is very mortifying. People who are too stout are mighty sensitive on this subject. Style and fat folks are strangers. Therefore people who are carrying around a burden of unhealthy and unsightly fat will be glad to know that they can reduce their weight without starvation diet or tiresome exercises.

If you have been getting too stout or too fat and want to reduce your weight in a simple, safe and reliable way, use as much time as you can in the open air, practice deep breathing and get from any good druggist a box of oil of korein capsules; take one after each meal and one before retiring at night.

Watch yourself. You are losing weight, and don't leave off the treatment or even a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, helps digestion, costs little and is designed to reduce fatty accumulations in the system wherever located.

Even a few days' treatment should show a noticeable reduction in weight, the flesh should become firm, the skin smooth and the general health improved. In fact your footstep should even become lighter, your work seem easier and a lighter and more buoyant feeling take possession of your whole being.

Every person who is ten or fifteen pounds over normal weight should give this treatment a trial. You will probably find it is just what you need. —Advertisement.

How to Destroy the Dandruff Germ

BY A SPECIALIST

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well known fact, but when we realize that it is also indirectly responsible for many other diseases as well, we appreciate the importance of any agent that will destroy its power. We are therefore, particularly glad to give herewith the prescription which an eminent scientist states he has found after repeated tests, and which has destroyed the dandruff germ in from one to three applications. It will also almost immediately stop falling hair, and it has in numerous cases produced a new hair-growth after years of partial baldness. This prescription can be made up at home, or any druggist will put it for you: 5 ounces Bay Rum, 2 ounces Lavone de Compo, one-half drachm Menthol Crystals. Mix thoroughly, and after standing an hour it is ready for use. Apply three times a day, rubbing into the scalp with the finger-tips. If you wish it perfumed, add 1 drachm of your favorite perfume. While this preparation is not a dye it is unequalled for restoring gray hair to its original color. —Advertisement.

Genuine Prescription For All Rheumatism

Satisfaction Guaranteed or Money Back, Says H. C. Kennedy

Rheuma—that is the name of the scientific prescription that is putting old rheumatism out of business. Rheuma cures by driving the uric acid from the blood. It also acts directly on the kidneys and is better for them than most so-called kidney cures.

Porter Smith, Dobbin, W. Va., writes: "I have been a great sufferer from rheumatism for about 26 years. The disease had become chronic. I began taking Rheuma with little faith in its virtues, but was better from the first day I began its use, and at this time have no more pains." H. C. Kennedy and all druggists sell Rheuma, and no rheumatic sufferer can afford not to use it. 50 cents a bottle. Your money back if not satisfied. —Advertisement.

DR. RAUNICK ENLISTS BOYS IN FIGHT FOR CLEANER CITY

This was Dr. Raunick's first move in his plan to get the youth of the city working for "clean-up" week, which begins May 3.

U. S. Warships Rescue 300 From Sinking Steamer

By Associated Press

San Francisco, March 30.—With 300 passengers on board, mostly women and children, including 45 orphans, the General Frisbie, a small bay steamer, struck a submerged rock one hundred yards off the Panama-Pacific Exposition grounds last night and began to sink. Life boats from United States warships anchored nearby promptly took off all hands and brought them ashore.

The party on the General Frisbie were part of a county delegation to the exposition. The orphans were from a home at Vallejo.

PROJECTILE BREECHE-BUOY

One of the latest of inventions for saving life at sea is a breech-buoy apparatus designed for use when a ship has been wrecked near shore. The line is fired from a mortar of the usual type, carried on board the ship, and the new feature is in the line-carrying projectile, which is so made that it ejects itself automatically. This projectile consists of a grappling hook, or anchor, fixed to a solid-steel cylinder. The weight of the cylinder being such as to cause the prongs to wedge themselves securely among the rocks on shore. The line attached to the projectile is a steel rope having a strength of 5,000 pounds. A picture of the device appears in the Popular Mechanics Magazine.

STATUARY MADE OF COTTON

During a cotton festival held at Waco, Tex., scores of bits of cotton were utilized in the construction of a large arch which was built to span a roadway leading to the exhibition grounds and serve as the entrance to the place. In the middle of the structure appeared the figure of King Cotton, made entirely of the product. At night it was brilliantly illuminated by electric lights.

"Numerous pieces of statuery modeled from cotton, its hulls and seeds, were displayed in the exhibit," says the Popular Mechanics Magazine. "Many of these, which showed considerable ingenuity, served as advertising mediums for different local business houses."

BUILDING MOVED OVER WATER

An unusual piece of house moving was recently accomplished at Cleveland, Ohio, when a three-story building, occupied by a yacht club, was blocked up on barges and towed eight miles over Lake Erie to a new site on an island in Rocky river. The structure is 52 by 78 feet in size, and placed an aggregate weight on the three scows which were employed of approximately 210 tons. The largest of the barges, forty feet wide and 120 feet in length, was lashed in the middle and supported 50 per cent of the load. A picture of the building during its removal is a feature of the Popular Mechanics Magazine.

SO THIS IS HOW "BUD" FISHER SPENDS HIS TIME

"Bud" Fisher, creator of Mutt and Jeff, apparently is as handy with his feet as with his pen. "Bud" and Mrs. Fisher recently captured the honors in a dancing contest staged by a popular New York restaurant and earned a free trip to Bermuda for their territorial prowess. —Cartoon Magazine.

WOMEN MAY BE STRONG

and enjoy life whether in the home or business world if they can keep at bay those ailments peculiar to their sex. If every woman realized how Lydia E. Pinkham's Vegetable Compound, that simple remedy made from roots and herbs, goes to the root of the trouble and overcomes such symptoms as headache, nervousness, and irritability, they would be healthier, happier and stronger.
