

You Can Play the Angelus

Herein lies the difference between the Angelus and all player-pianos. You can play as well as the expert demonstrator, because the Angelus devices, all patented, will do as much for you as for the skilled musician.

The Melodant accents the melody. The Phrasing Lever gives correct control of tempo. The Diaphragm Pneumatics duplicate the human touch. The Sustaining Pedal introduces the loud effects at just the right points. These and other patented devices enable you to play the Angelus artistically the first time you try. Come in and investigate for yourself. A genuine Angelus costs only \$700 on partial payments; others up to \$1,050.

Choose Your Easter Victrola or Edison Diamond Disc Now

Don't buy either until you have heard both demonstrated side-by-side, for in no other way can you be certain of getting the one which pleases you best.

Either will place all the world's best music at your command, but you must hear them played to properly decide, for they are entirely different.

Come in tomorrow or any time it's convenient. This is the only store in the city displaying all styles of Victrolas and Edison Discs, \$15 to \$275. Demonstrations any time it's convenient for you to stop in.

Austro-Hungarian Embassy Opposes Bill Pending in Pennsylvania Legislature

Washington, April 1.—The Austro-Hungarian embassy to-day presented to the State Department a note calling attention to the workings of the Pennsylvania bill pending before the Pennsylvania Legislature as being in violation of the treaty of 1829 between the United States and Austria-Hungary. The contention was made that discrimination against foreigners would be permitted.

ican workmen, and also to that section under which no compensation would go to nonresident parents or other dependent relatives of alien workmen.

Attorney General Brown said this afternoon that he would await the official notice before considering the matter.

"Flitting Day," but Few Changes Are Reported

A comparatively dull "flitting day" but not so quiet as last year on the first of April is the report made by real estate dealers and transfer men of the city. Probably 100 families are moving their household goods to different locations and a few business firms are changing quarters.

store, which is moving from 24 North Second street to occupy the building at 212 North Second, while a new building is being erected on the old site. A. M. Blake moved his wall paper business from 103 North Second street to 225 North Second.

DETECTIVE MARKED FOR DEATH

New York, April 1.—Detective Amadeo Polignano, chief witness in the trial of Frank Abarno and Carmine Carbone, charged with attempting to set off bombs in St. Patrick's Cathedral, arrested a man outside the courtroom to-day whom he said had given himself and another detective the Italian "death sign."

WILL SPEAK ON FREEDOM

Prinz Eitel Frederick Succeeds Von Kluck?

Reports come from Holland and Switzerland that the Kaiser has appointed his son, Prinz Eitel Frederick, to succeed General von Kluck, wounded by shrapnel recently. It is further rumored that General von Kluck had a stormy scene with the Kaiser just before being wounded and that he then rode to the front line of trenches, exposing himself to the gunfire, evidently with the purpose of getting himself killed.

Poor, Old Stuffed Elk Again Wandering; Oil City Lodge Has Mailed It

The much-traveled, many times kidnapped, 500-pound stuffed elk that several patriotic Harrisburg Elks stole from the lodge of the Reading Elks last Saturday and placed as a trophy in the grillroom of the Elks home here on Sunday morning has gone.

At 4 o'clock this morning two thieves, Elks of the lodge in Oil City, Pa., worked their way into the rooms in North Second street and lugged the stuffed mascot to a waiting auto truck, took it to Steelton and consigned it by Adams express to Frank Parks of Oil City, with instructions for him to lock it safely in the lodgerooms there.

The history of this stuffed elk would fill a book with public news and the secret intrigues centering around it that only two-legged Elks know of would require an addition to the State Library.

After being stuffed it had its first lodging in the lodge of the Elks at Tacoma, Wash., where it first tempted visiting Elks from the East, who swiped it and started a chain of crime that links together almost every large lodge of Elks in the country.

Harry Cooper, of the Harrisburg lodge, has an auto and he says he is going to Oil City to recover the property of the local boys, who, he says, intend to keep it.

Activity Continues on Board German Cruiser

Newport News, Va., April 1.—Activity continued to-day on board and about the German converted cruiser Prinz Eitel Friedrich, whose three weeks' stay at the shipyard dock here is expected to be terminated within a few days.

Coaling of the vessel under supervision of officers of the United States Navy, which began late yesterday and continued throughout the night, had not been completed at 8 o'clock this morning, and there still was a considerable part of the 1,500 tons of fuel to be taken aboard.

State School Teachers to Be Given Hearing

Delegates to the sixth annual convention of the State Teachers' league will be given a public hearing before the Legislature Tuesday afternoon, April 6. They will urge the lawmakers to see that the provision in the code of 1911, raising the minimum salary to \$45 and \$55, is carried out.

SCOTT REACHES WASHINGTON

Washington, D. C., April 1.—Brigadier-General Scott, chief of staff of the army, returned from his successful expedition bringing in the recalcitrant Plutes impressed with the belief that the New-Get, their leader, is innocent of the charge of murder, or that at least the evidence is purely circumstantial, and possibly furnished by unfriendly Utes.

HOW TO GET RID OF DYSPEPSIA

Don't Rely on Medicine; Don't Go on Freak Diet; Common Sense and an Antacid Usually All That Are Needed

"If you have dyspepsia, indigestion, sour stomach, belching, distress after eating, heartburn or any other stomach trouble due to hyperacidity (the usual cause of stomach troubles), you should take no medicine to act upon the stomach itself. That is positively not the way to cure the trouble. Again, you should not half starve yourself by going without the nutritious food that you need to rebuild waste tissues. Some foods are not good for people even when in perfect health—very rich, sweet, highly seasoned dishes. Avoid these, but eat fairly substantial meals of plain foods. Eat slowly. Even if you drink nothing but water, you should not drink with meals. Drink before and after meals. Do not take pepsin or other artificial digestants. If you follow the foregoing simple instructions it is probable that you will not need any medicine at all except, if you want to call it medicine, a little antacid after meals. The best antacid is ordinary bisurated magnesia, which can be purchased at any drug store. This is not to act upon the stomach, but on the contents of the stomach. The antacid, as you can learn by consulting your dictionary or encyclopedia, is merely to neutralize or counteract the excess acid so the stomach can digest the food normally. Take a teaspoonful of bisurated magnesia in a little cold or hot water after each meal. You should get immediate relief even if your case is severe. Careful, moderate eating and the use of bisurated magnesia should put your stomach in normal condition in a short time; if you have not allowed dyspepsia to advance to the extreme stage of developing stomach ulcers.—Advertisement.

TWO VIEWS OF AMERICAN SUBMARINE F-4, SUNK AT HONOLULU

The F-4 went down to the bottom of Honolulu Harbor in 720 feet of water during maneuvers of warships there. She held a crew of at least eighteen men under command of Lieutenant Ede. The F-4 was launched January 6, 1912, and was the first craft of the kind built by the Seattle Construction and Dry Dock Company. J. V. Patterson, president of the company, said that the F-4 was submerged twenty-four hours at her builder's trial and could remain that length of time under water without inconvenience to the crew. The F-4, which cost \$500,000, is 142 feet 7 inches long, 16 feet 10 inches deep and 15 feet 3 inches beam. She was designed for a cruising radius of 2,400 miles, and is fitted with four torpedo tubes.

I am serenely. Though passions beat
Like mighty billows on my helpless
heart.
I know beyond them lies the perfect
sweet
Serenity which patience can impart.
And when wild tempests in my bosom
rage,
"Peace, peace!" I cry; "it is my
heritage."
I am good health. Though fevers rack
my brain
And rude disorders mutilate my
strength,
A perfect restoration after pain
I know shall be my recompense at
length.
And so through grievous day and
sleepless night
"Health, health!" I cry; "it is my own
by right."
I am success. Though hungry, cold,
ill-clad,
I wander for a while, I smile and
say,
"It is but for a time—I shall be glad
To-morrow, for good fortune comes
my way.
God is my father. He has wealth un-
told;
His wealth is mine—health, happiness
and gold."
