THURSDAY EVENING, APRIL 1

A BUSY SUMMER AHEAD NDICATIONS are that Harrisburg i going to enjoy a busy and pros-perous summer. Every day brings with it the announcement of con templated building operations and pub-

lic improvements. The Cumberland Valley Railroad Company has started work upon the ter and bedeck himself as nature does reconstruction of its Mulberry street the countryside and the dumb crea across the Susquehanna at a tures that inhabit it? cost of approximately three-quarters of a million dollars and the Pennsylvania Railroad Company is to go ahead with its freight station developments at a cost that will be considerably

The city itself is engaged in con pleting the river wall and in the construction of large sewer extensions It is also getting ready to erect a new firehouse and many smaller improve ments are being outlined for the year including the construction of three miles of roadway along the municipal parkway, the completion of the formal entrance and roadways at Reservoir

of 1913. Even the long-looked-for nev ing the year, the Capitol Park Extenof clearing the old Eighth ward district and the suburbs are coming for ville, another at Wormlevsburg, a new firehouse at Camp Hill, the enlarge ment of the filter plant at New Cumberland and extensive new building velopments in Lemoyne and along the Carlisle pike.

It is doubtful if, since the day the rebuilding of the Rockville bridge and the great period of public and private improvements that followed, Harrisburg ever previously has enconstruction work as is now under way or contemplated for the imme-

operating full or part time, the coming summer is bound to be one of the busiest and most prosperous the labor-ing man of this vicinity has ever experienced, and everybody knows that when labor is employed at fair wages ousiness flourishes. So the outlook is bright indeed.

Some there are who have no inherent sense of humor and they are to be pitted indeed, for as often as not, realizing their weakness, they develop a substitute for laughter that sounds.

Apparently their success is due to the little acts of thrift which they practice. a substitute for laughter that sounds like a cross between the cackling of a hen and a death rattle. Still others there are who imagine that they are displaying laudable selfrestraint in concealing their merriment, and yt a few whose hard, sorrowful experiences have crushed the laughter from their souls.

WORK FOR IDLE MEN

OFFICIALS of the Lackawanna Iron & Steel Company have done a very worthy thing in throwing open large tracts of company land near Lebanon for cultivation by its idle workmen and the distribution of seeds and gardening tools among those who desire to take advantage of the opportunity thus afforded to provide for their table during the summer.

Other industrial managements might follow this lead with profit to them is need is a friend indeed and the corporation that is loyal to its men in ime of necessity will be apt to find its men loyal to it when it needs their loyalty most. Have we not in our desire to fit our boys to earn a living sometimes gone beyond the limit of common sense in beyond the limit of common sense in our criticisms of the school system as it exists?

Manual training and technical education have a large place in the life of to-day. This is an age of specialization and the boy who knows one thing well is, generally speaking, of more use to the community and more likely to succeed for himself than the lack of all trades who is master of none. But it is also true that the average man who has made a marked success in life has been a reader and an observer. The student of history and he who is familiar with the classics

This is the sensible course. THE EASTER SPIRIT

In his Palm Sunday sermon a Harrisburg minister is quoted as saying that the Christian people of the city care more for Easter clothes than they do for the spirit of Easter in the church. This statement, if true, one is entitled to believe overdrawn. Of course, there are many who place dress and other worldly frivolities above their Christian duties, but it is doubtful if there is one church member worthy of the name who lays more stress on his or her Spring suit than upon the celebration of Easter in the church.

Beside, the prevailing desire to come forth in new clothing at Eastertide is symbolic of the season which is pre-Members Do Not Look For Adjournment Much Before the

"April Fool"

It's a sad sort of "April Fool" when a retailer tries to persuade you not to buy the article you want, but to take something "just as good." Up-to-date merchants avoid this style of joking. It is not good business.

Substituting has been relegated to the past with the doctrine of caveat emptor, short weighting, and other irregularities.

There is more profit in a satisfied customer than in the few extra pennies to be made from a "substituted" article.

IT IS VERY EASY TO GROW

Middle of May Representative W. Atlee Brum baugh, of Blair county, who presented the bill to designate the sweet pea as the State flower, has outlined his reasons for the bill. Messrs. Dunn and Phillips, who back the myrtle and wild honeysuckle, respectively, have not put their reasons on record. Mr. Brumbaugh's reasons are as follows: "The sweet pea is accessible to

be grown in any flower garden and therefore gardening would be encouraged. We are teaching school children the habits of industry by providing school gardens and such a flower as this would fittingly decorate many school grounds. Its habitat is worthy of study and the flowers can be of study and the flowers can be plucked with an accommodation to the plant. Its domestication has increased the admiration and popularity. The cultivation of this flower upon the residential lawns as well as in public parks and grounds would be largely increased. I do not know whether there is much sentiment for this particular flower, but if this procedure suggests a more appropriate one I am exceedingly satisfied."

WHAT CAUSES COLDS?

This question and "How to Prevent Colds" is asked a thousand times every day. A cold is really a fever, not always caused by the weather but due to a disordered condition of the blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the body better able

to withstand the varying elements.

This is the underlying reason why
the medicinal fats in Scott's Emulsion quickly overcome colds and build strength to prevent more serious sickness. It contains nature's medicinal fats, so skillfully prepared that the blood profits from every drop, and it is free from harmful drugs or alcohol.

"ADIEU" By Wing Dinger

Dear reader, for some months now I've written every day
(With one or two exceptions
When I had to be away)
A little verse of poetry,

Whose purpose was to bring To you a cheerful message As night her shades did fling

As well as good ones, yet That makes no difference if they Made you your woes forget

But now I'm through, dear reader, You'll hear no more from me. Beginning with to-morrow Another's work you'll see.

They say my stuff is no good. They've told me I won't do, And so, dear, gentle reader, Wing Dinger says "Adieu."

GIVES VIEWS ON "HARDSCRABBLE"

To the Editor of the Telegraph:
Dear Sir: I am not a resident nor a property holder in that portion of Front street called "Hardscrabble," but I was present for an hour or more at the hearing held in the Council chamber of the Courthouse, last Friday.
The hearing was for the ostensible purpose of finding out the values attached to the properties to be taken over by the city of Harrisburg for the purpose of beautifying the River Front, I listened at that hearing to men whe were sworn, glving an estimate of what they thought their property was worth, and it seemed to me that the people of that section were at a decided disadvantage.

and it seemed that section were at a decided disaction was there in the interest of the city of Harrisburg to determine, if possible, not only to ous these people from their homes, but to get their homes at such a rate as almos might imply confiscation. Surely when men have lived in homes, rearred their families in them, and become attache to them, they deserve some consideration, and the viewers should consideration, and the viewers should consideration where the consideration are the consideration. have not employed attorneys, are left defenseless before the City Solicitor.
