How War Will Aid Faith

By Ella Wheeler Wilcox

Copyright, 1914, Star Company.
 Like some schoolmaster, kind in being stern,
 Who hears the children crying o'er their slates
 And calling, "Help me, Master!" yet helps not,
 Since in his silence and refusal lies their self-development, so God abides Unheeding many prayers. He is not deaf.
 To any cry sent up from earnest hearts;
 He hears and strengthens when He must deny.
 He sees us weeping over life's hard suns,
 But should he give the key and dry our tears,
 What would it profit us when school were done,
 And not one lesson mastered?
 What a world
 In fabled Pandora's box were such vast ills
 As lies in human hearts. Should our desires,
 Voiced one by one in prayer, ascend to God,
 And come back as events shaped to our wish,
 What chaos would result!
 In my fierce youth
 I sighed out breath enough to move a fleet,
 Voicing wild prayers to heaven for fancied booms
 Which were denied; and that denial bends
 My knee to prayers of gratitude each day
 Of my maturer years. Yet from those prayers
 I rose always regarded for the strife
 And conscious of new strength. Pray on, say heart,
 That which thou pleadest for may not be given.
 But in the lofty attitude where souls
 Who supplicate God's grace are lifted, there
 Thou shalt find help to bear thy daily lot
 Which is not elsewhere found.

Many foolish people are saying that the present war calamity will increase the materialism of the world and destroy its faith. Faith which can be so easily destroyed is not and never has been faith. The old theology has received a body blow during the last six months is quite true. But that does not mean the death of religious sentiment, any more than the skirt meant the passing of fashion. Fashions stay ever in the world, while modes change. Religions remain ever, though creeds change. The religious scholars, the psychics and the seers have long known that this war must be.
 In March, 1911, Mr. A. P. Sinnet gave a lecture to a large audience in Albemarle street, London. He said he had received a message from his invisible friend of such an unusual nature that it seemed desirable to give it wider publicity than would result from being kept in his note book.

The following is what he related: Kaiser Wilhelm to be Crowned King of British Empire—Not After Indemnity.
 "There was a thickening force gathering on the lower astral plane which could not fall to have terrible effects on the physical plane when it burst. The Masters were trying to soften its effects. The present German plan was not to annex Holland, but to attack Belgium. There would ultimately be a general war, in which Germany, including Austria and the Turks, would be opposed to Great Britain, Russia, France and Italy."
 "The Emperor was the center of German hostility. He had some regard for his English kinsmen, but was the bitter enemy of the race. Bismarck was working on him, though he was not conscious of this. Direct elemental influence had accounted for some of his speeches. His second son—not the first, who was weak, but the sailor—was of the same temperament as the father. The same elemental forces worked through both. The Kaiser's scheme contemplated a direct attack on the coast of England. He was not aiming at indemnity, but he wanted to be crowned King of the British Empire."
 "It was decreed that at the war's end there would be a great redistribution of European territory."
 Message Proves There Are Stranger Things Than Dreamt of in Our Philosophy.

Mr. Sinnet is a man of wide culture and large experience, and has during the greater part of his life, been interested in studying the profound phases of psychical phenomena. The fact that he delivered this lecture three years before the breaking out of the present war should cause the most doubting Thomas to realize the truth of the words, "There are stranger things in Heaven and earth than are dreamed of in our philosophy."
 As well might one doubt the existence of a great ruling power in the universe because human beings break the laws of health and suffer from typhoid fever as to doubt God because war rages on earth.
 The fever must rage until the human system rids itself of the poisons within. The war must rage in order that the human race may rid itself of the last vestige of belief in war.
 War Should Precede Until Entire World Has Ceased to Believe in War.
 However the family of the sick man may pray to have the fever arrested, it is for the good of the patient that it should reach its height and finish its course before it is arrested; however the advocates of Peace may pray for Peace, it is right and just that the war should proceed until the entire thinking world has ceased to believe in war. Our prayers should be directed toward the Source of smooth and strength, and we should ask for those qualities to enable us to await the end. Prayer is a ladder on which the human mind climbs and comes in contact with great spiritual forces. Let us pray.

WHERE TO FIND NATIONALLY ADVERTISED GOODS The World's Best Merchandise In and Near HARRISBURG, PA.

Merchandise that will bear national advertising has to have exceptional merit. It is therefore quite evident that when an article is nationally advertised and nationally sold, year in and year out, year after year, it is exceptionally good goods to stand the test and prove worthy of continued sales and growth. It is conceded by experts that when an article is advertised generally—nationally—it is the best possible product. The wise always, in consequence, prefer nationally known goods and ask for what they want by name. Read the magazines and keep posted on nationally advertised goods.

WOMEN FROM 45 to 55 TESTIFY To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me. — "I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial." — Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis. — "At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since." — Mrs. M. J. BROWNELL, Manston, Wis.

March Record of Dairy and Food Division Shows Good Work by State's Agents

One hundred and forty-three arrests for violation of the pure food laws of Pennsylvania were ordered during the month of March by Dairy and Food Commissioner James Foust, the total being sixty-three more than ordered during the whole of February and away ahead of January. Seventy-nine arrests alone were for violation of the State laws governing sales of milk and cream in Philadelphia, Allegheny, Erie, Dauphin, Center, Schuylkill, Franklin and Northampton counties. Twenty-five arrests for the sale of foods unfit to eat, loaded with chemicals or adulterated were also ordered.

In the list of food arrests were a number for sales of Easter candies, which were either coated with varnish preparations, artificially colored or containing chemicals. Special attention was given to such stuffs because of the large amounts on sale for the holidays. Twenty-two arrests for violations of the oleo law were reported chiefly from Philadelphia and Montgomery and eight for sale of cold storage products not properly marked. Most of these were also in Philadelphia.

The receipts of the division since the first of the year have aggregated \$232,196.48, the whole appropriation to run the division for two years being only \$184,600. In March the revenue was \$11,727.87. Oleo licenses turned in \$3,410. The rest came from fines.

Military and Naval Terms Often Puzzle

New Dictionary Aids Reading of War Reports

Definitions of military and naval terms, grouped together under a single heading, is one of the special features of The New Universities Dictionary now being offered to readers of this paper, contributing to the splendid success attending the distribution of the book. Nearly everybody nowadays is reading about the war, and not infrequently the reports from the other side contain some word or expression with which the average reader is unfamiliar. The meaning of such terms can readily be had by turning to The New Universities Dictionary, as well as that of many expressions which have come into more common usage since the Continent of Europe has become one vast battleground and the high seas turned into a "danger zone" by the naval operations of the contending powers.

In all there are twenty-five of these supplementary dictionaries containing the definitions of hundreds of words brought into general and proper use not only by the war in Europe but by the forward steps in science, business, society, religion and the increasing popularity of sports of all kinds, which can be found in no dictionary other than the one this paper is distributing among its readers at a nominal cost.

Coupons are being redeemed in large quantities, so enthusiastically has the offer been received, and it is evident that The New Universities Dictionary is finding its way into the business office as well as the home.
