COCOANUT OIL FINE FOR WASHING HAIR

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain to much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greuseless) is much better than soap or anything clse you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with

hair.
Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt. dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

manage.
You can get mulsified cocoanut oil (it must be mulsified) at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

Bulgars Enter Greece, Says Saloniki Dispatch

By Associated Press

London, April 5, 12.40 P. M.—The roving band of Bulgars, driven out of Serbia after its sudden raid, has penetrated Greece at three points, according to Salonika dispatches. The English press sees in this episode the possibility of developments which may mean a flare-up in the smoldering Balkan situation. Advices reaching London by way of Rome, however, assert that Bulgaria has agreed to give full satisfaction to Serbia. If this is true, probably the only sequel to the episode will be to draw from Bulgaria a definite statement as to the policy she purposes to pursue. All the Balkan nations, as well as Italy, are awaiting the outcome with interest.
