Kill Catarrh Germs and Stop Catarrh

Breathe This Antiseptic Dry Air in Your Own Home and Quickly End Catarrh, Head Colds and Snuffles

One of the surest signs of catarrh of the head, nose and throat is catching cold easily. When you have catarrh the mucous membrane becomes inflamed, swollen and sensitive and a slight draft or sudden change of temperature at once sets up sneezing, snoring and wiping your nose. Then again while these delicate tissues are in an inflamed state the catarrhal germs sneezed out and coughed up by other sufferers find quick and easy lodgement in your affected nose and throat and immediately start eating their way into your sensitive organs. Then your catarrh gets worse and you wake up mornings with tongue thick, mouth sticky and nose all stopped up.

CROSS, FEVERISH, SICK CHILDREN NEED "CALIFORNIA SYRUP OF FIGS"

A coated tongue means sluggish liver and bowels—Listen mother

Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has sore stomach, diarrhoea, remember a gentle liver and bowel cleansing should always be the first treatment given.
