Starts Work on Structure Across Potomac River on Branch of Western Maryland

Hagerstown, Md., April 14.—Work-men in the employ of the Pennsylva-nia Steel Company, of Steelton, Pa., yesterday began laying the first span of the girder bridge across the Poto-mac river, five miles above Williams-port, on the new branch line from the Western Maryland Railroad into West Virginia. The bridge will have twelve piers, and it will require about two months to complete it. The Pennsyl-vania Steel Company has the contract to erect the superstructure.

POSITIVE RELIEF FOR CONSTIPATION

The progress of modern medical science is, perhaps, no more force-fully evident than in the simplify-ing of many of the old time remc-dies of past generations. For in-stance, the harsh catharties and violent purgatives used by our fore-fathers to relieve constipation are now known to be not only unneces-sary but really harmful. Constipa-tion can be more effectively reliev-ed without the discomfort and pain these old-time remedies oc-casion.

pain these old-time reinteness of casion. A combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Cald-well's Syrup Pepsin is most effec-tive, yet mild and pleasant. It's absolutely free from opiates and narcotics and equally as desirable a remedy for the tinlest babe as for rugged manhood. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Wash-ington St., Monticello, Ills.

A graphic description of the hor-rors of war in the East is told in a letter received by Mr. and Mrs. Sam-uel W. Fleming, of this city, from their son-in-law, Robert M. Labaree, Pres-byterian missionary, stationed in Per-sia. Mrs. Labaree, a daughter of Mr. and Mrs. Fleming, is a missionary of Market. Square Presbyterian Church. It was dated March 6 and tells of the consternation created by the with-drawal of the Russian troops, Janu-ary 2. The wild Kurdish tribes at once started a series of depredations on the Christian native residents of the bor-der districts. Thousands left every-thing behind them and fied for the Russian border. Women and little children, he said, were forced to trudge through the sand and mud. Many died along the way.

Sister, Not Nephew, of Director, Lynch to Submit Scheme For Closing Market Street Gap to Public Works Board Tonight

OF PLAN FOR STEPS

If the school board decides to ap point an assistant or vice principal fo Central high school, the choice, it is understood, will be Miss Anna M. Saul and not Bertram W. Saul, as has been

Approval of the plan to close the unsightly gap in the river front wall at Market street by continuing the construction of the line of steps across the opening will be asked of the Board of Public Works this evening by City Commissioner William H. Lynch, su-perintendent of streets and public im-provements. In connection with the announce-ment of the meeting of the board to-night on the wall gap problem it is understood that the river interceptor board of arbitration will be ready to report on its findings relative to Con-tractor W. H. Opperman's charges for extras by the latter part of this week. The result of the interceptor settle-ment will help to determine the ques-tion of whether or not the continuance of the line of steps at Market street can be proceeded with without asking for additional money. The balance that is now being held back by the board, it is said, is to provide for pos-sible settlements should the city lose out in its contention with Opperman. Should it win, there will be asked for if necessary under any circumstances was stated by Commissioner Lynch yesterday after Council meeting. No authority to follow his scheme for continuing the steps will be necessary except should money be needed. Commissioners M. Harvey Taylor and Harry F. Bowman, it is under-stood, are in harmony with Mr. Lynch's plan to build steps at Market street instead of a straight wall across the oneng.

Threatened by I. W. W.

Paterson, N. J., April 14.—George Arnold, retired millionaire silk manu-facturer, who was chiefly instrumen-tal in bringing "Billy" Sunday to this industrially restless city, has been threatened by I. W. W. agitators. He said so last might, just before he left the tabernacle, and with "Billy," "Ma." 'Husky Jack" Cardiff and equally husky detectives, passed through a line of eight policemen to his automo-bile.

line of eight policemen to his automo-bile. "I don't care to say just at this time what the threats amount to." said Mr. Arnold. "I don't care a snap of my fingers for those who have made them; oh, it's the I. W. W. all right. I don't intend to take extra precautions either for my person or my home. It's a pretty pass, isn't it, when the man who has brought such a great force for good to this city as Mr. Sun-day should be threatened because he's done it."

HOT WATER Always Ready at Demand

You can't blame folks wanting hot water at all hours of the day and night. It means so much for your health and comfort.

AN AUTOMATIC GAS WATER HEATER HEATS THE WATER AS YOU USE IT

There is no fuss about hot water because it is always ready when you are ready. You open the faucet-on goes the gas and out comes the water steaming hot. Turn the water off-the gas is turned off. Expense stops.

This is the cheapest way to provide continu-" ous hot water for your home.

See a demonstration, phone or write for a representative.
