ENDS INDIGESTION AFTER EATING

Just because the peptic pills, soda mints and other artificial digestive tablets you have been taking no longer give you the desired relief and you must take two, four or six instead of one to stop your heartburn, bloating, sour rising, belching and stomach lump, it's no sign there is no quick relief for you, but a sure sign that it's high time you changed your medicine. Give up these so-called aids to digestion, that work on the food, and do the stomach no actual good, or you'll belch and bloat till doomsday. You need a remedy that will strengthen your stomach muscles, and lining and increase the flow of digestive juices. Then your stomach will do its own digesting. There is an old-time remedy called M-i-o-n-a Stomach Tablets, which give wonderfully quick relief in such cases. They are a splendidly balanced stomach prescription and no matter how bad your stomach is, how long it has bothered or what or how much you eat, these little tablets will make your stomach digest every last particle of food in it. H. C. Kennedy or most any good druggist in this vicinity sells M-i-o-n-a on a positive guarantee of satisfactory results, or money back.—Advertisement.
