**College Club Hears of Pennsylvania Waterways**

Farley Gannett, of the State Water commission, gave an illustrated lecture yesterday afternoon before the College club, and a number of guests at the residence of Mrs. Phillip T. Meredith, 1605 North Front street.

Mr. Gannett showed pictures of the waterways of Pennsylvania, showing how many of the streams are polluted by coal and culm, unprotected, flooding the country and ruining agriculture. Bridges of steel and concrete were shown in contrast to the old time bridges of wood, and some beautiful German views gave a fine idea of what that great country does for the protection of its waterways. Mr. Gannett said that few cities have taken such an interest in their river fronts as Harrisburg, and he complimented the city on its beautiful approach.

Mrs. George B. Kunkel, president of the club, presided and Miss McGinness of Steelton was elected to membership, during a brief business session.

**THE BATTLE FRONT**

Petrograd, Russia, April 15, via London.—The number of head and arm wounds of the men at the front is enormous, for men in trenches expose only their heads and arms. Many hundreds are hit in the head and death does not result from the wound. Occasionally one may see the slightly wounded walk back with heads bound up or arms in slings. Motor trucks loaded with wounded tear along the roads leading back from the extreme front. Perhaps forty per cent. of the wounded are back on the firing line after three months' care and rest in a hospital. It all depends on a man's health and blood. If the blood is pure and good, the soldier gets the first aid, proper treatment and his wounds heal by first intention.

Good blood is everything to every man. It means fresh, strong nerves, good digestion, good circulation. Those who have used Dr. Pierce's Golden Medical Discovery marvel at the way it checks blood diseases. See a man to-day with skin all broken out; see him a few weeks later after using the "Discovery," his skin is all cleared up, eyes bright, and he is contented with himself.

The foundation of good health is good blood: Are you pale? Are you weak? Are you no longer ambitious or energetic? Have you pimples or boils? Do you suffer from headaches, low spirits? Then you are anaemic—your blood is thin, lacking in healthy, strength-giving red corpuscles. Then your blood is impure—and your liver is not up to its task of clearing the blood from the poisons accumulated.

Dr. Pierce's Golden Medical Discovery is a temperance remedy that will restore to you rich, healthy, glowing blood—a remedy proved by experience (in tablet or liquid form). It is a glyceric extract of roots from our forests, known to science as those which will best give the stomach, liver and bowels needed help.—Advertisement.

How many live! Only four! The other little one is lost—lost to his mother after nine months of weary waiting, because he does not get the right food. His mother, with all her love, does not know perhaps that so many babies cannot digest cow's milk easily—does not know how many kinds of sickness, diarrhoea, even consumption, scarlet fever and the foot and mouth disease of last year, are carried in milk from unclean dairies and sick cows. Babies cannot fight all this sickness.

Your own breast milk is what your baby should have, and when it is not enough give him something so nearly like it, that he won't know the difference. Give him

**Reduce Your Year's Fuel Bill**

Coal prices (except Pea and Buckwheat) were reduced 50c per ton on April 1st by all the large mine owners.

We have reduced our prices the same amount—50c.

That's what you save by getting your coal now for next winter—50c on each 2000 lbs.

Figure out the amount of coal you use by 50c per 2000 lbs. saved. You will find it quite a nice saving.

If you burn 20,000 lbs. you save \$5.00.

\$5.00 is worth saving is it not?

And then besides you get better coal than in the winter time when the coal mines are so busy.
