MEARLE BILL IS VETOED; NEW GAME BOUNTY MEASURE GOES THROUGH

The Mearkle bill making it a misdemeanor to issue a check on a bank where there are not sufficient funds to the credit of the payee, and to refuse to make good the amount and two other bills were vetoed by Governor Brumbaugh to-day. Eight bills, including the new game bounty measure, were approved.

In vetoing the Mearkle bill the Governor says: "This bill is unconstitutional and impracticable. The method of collecting debts is defined by law, and to make a criminal court a collecting bureau is manifestly wrong." The Governor in vetoing the bill making an appropriation of \$334,800 to the Game Commissioners for payment of salaries, expenses, etc., gives as a reason that he does not approve of using funds derived from the hunters' license act to increase salaries of officials of the Game Commission. "This is not a question to which the fees paid by the hunters was dedicated in the above cited act," says the Governor. "Moreover, it is a grave question whether this is an opportune time to increase the salaries of the Game Commission. It is a question which in some cases work to the harm of our people and the general trend of thought in favor of one term for executives alike impel me to question the wisdom of this bill."

Four Game Bills Signed: Four bills relating to game were in the list approved, one being the Phillips bill, designed to prevent frauds in securing the State allowance for the heads or pelts of noxious animals or birds. It provides \$6 for each wild cat, \$2 for each fox, \$1 for each weasel or mink. It provides that affidavits as to killing shall be made before a game protector or magistrate and the pelts or heads must be produced, and after being inspected shall be mutilated so there is no chance of their being presented a second time. The claims are to be made direct to the State Game Commission, which will certify to the Auditor General for direct payment. The requirement that bounties shall be paid by county commissioners is abolished. The penalty for fraud is to be fine of from \$100 to \$500 or one day in prison for each dollar of fine. Other game bills were the Senate bill authorizing the establishment of state game preserves on leased lands as well as on state forest reserves. These preserves are to be closed at all seasons and in addition to fines for killing any game a person whose resistance to arrest is to be penalized by \$100 fine. Amending law so that dogs may be trained in the field from September 1 to March 1. Authorizing killing of blackbirds when caught destroying nests, eggs or young of other birds, growing crops or fruit or berries and an emergency Game Commission to direct killing of birds when they have become a nuisance.

Other Bills Approved: House bill authorizing filling of vacancies in first class city councils at any election. House bill regulating filing of accounts of feeble-minded, insane and epileptic persons. House bill authorizing county commissioners to bury and dispose of widows of soldiers, but not in excess of \$50.

Senate bill conferring upon mothers the rights in making wills as are possessed by fathers in regard to custody of minor children.

A LETTER from JULIAN ELTINGE

America's Foremost Impersonator of Beautiful Women:

"After having used a number of Hair Removers for my arms and chest, El Rado is the best thing I have tried. It should be a great help to womankind."

It is said of Mr. Eltinge, "The most beautiful woman on the stage is a man." El Rado plays an important part in his transformations. Could there be surer, more conclusive proof of its efficiency?

El Rado is Sanitary Liquid that removes hair from the face, lip, neck or arms quickly and harmlessly. All you have to do is saturate the hair thoroughly with a little El Rado, and in a few moments the hair becomes harmlessly dissolved. You then wash off with a little plain water and the hair is all gone, while the skin is left in a perfectly smooth, clear condition.

The decided vogue for sleeveless evening gowns and sheer, transparent houses is necessitating more and more the removal of hair from under the arms. Any form of cutting or shaving for such a purpose is most unwise, as this not only increases the growth, but coarsens it. El Rado is more simple to use, it removes the hair for a much longer period, and the hair keeps becoming finer with each application.

El Rado is sold in 50c and \$1.00 sizes at leading drug and department stores with the distinct understanding that the money is to be refunded if not satisfactory. Try El Rado on your arm to-day. Take nothing else.

If you prefer we will gladly fill your order by mail direct, in plain wrapper. If you will write enclosing stamps or coin. For full information and letters from prominent users merely send a postal. Pilgrim Mfg. Co., East 28th St., New York.

HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you Darken Gray, Faded Hair with Sage Tea

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Weyth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known and famous druggist says everybody uses Weyth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied. It is so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.—Advertisement.
