"Warren, hadn't I better pack this afternoon?" said Helen as they strolled into the lobby and Warren dropped lazily into an easy chair.

"Well, this weather makes you feel like loitering around," he remarked. "What on earth do you have to pack so soon for? We're not going till tomorrow."

"I know, dear, but there's no need of waiting for the last moment to do things, and I hate to be hurried."

"All right, go along—and, for heaven's sake, don't pack the clothes I'm going to wear."

"Helen laughed as she got up to go. "I promise, dear," she said laughing.

Warren looked after her as she walked slowly upstairs. Helen had learned to accept the heat philosophically and to take her time about doing things, and consequently she had not minded the heat at all for several days.

Besides, Warren had noticed a change in her that puzzled him a little. She did not worry him with details as much as she used to, and every man at the port was crazy about her.

He had talked her with it several times and she had denied it laughingly. "Somehow she seemed different, and anything that was not easily understood worried Warren."

He wasn't the kind of man who liked the mysterious and aloof woman; in fact, he wasn't the kind of man who wanted his love to bother him.

Helen proceeded along the corridor and just because she was happy she picked up Winifred and kissed her in her warm scented little neck.

Winifred squealed with pleasure. Helen put her down with an injunction to help mother pack, and then she smiled with pleasure as Winifred trotted back and forth with her arms filled with clothes from the bureau.

She began to fold things and place them on the bed. All her filmy lingerie and Winifred's little underwear were placed in the trunk first with the shoes and the heavy coats.

Then came her own dresses and Warren's clothes. Warren had bought a linen suit and a Panama hat, and had worn nothing else since he had been there, and now Helen brought the suit he had worn down on the door.

She wondered if Warren would like to have it pressed and decided to telephone down to the office and have them ask Warren to come to the telephone. Just at that moment the bell rang, and Helen ran over to answer it.

INCUBATOR AND BROODERS BIG FACTOR IN POULTRY SUCCESS

Practical Equipment Necessary For Proper Raising of Chicks to Maturity

Size of Flock Should Govern the Style of House to Be Used

By James P. Hopkins Poultry Judge, Lecturer and Author. COPYRIGHT, 1915.

Poultry raising is becoming more scientific every day. The demand for quantity production of eggs and table fowl is compelling poultry raisers to adopt improved methods.

To this end, man has invented the incubator as an artificial hatcher. Then he had to provide for the rearing of young chicks in quantities.

Hence the brooderhouse, which will mother the chicks in a remarkable fashion—doing practically everything but "chucking."

The following article tells how to use these important articles of equipment. Many of those starting in poultry raising do not seem to heed the importance of equipment to the success of rearing chicks.

Incubation has made wonderful progress during the last few years. Today there are standard machines that will hatch as large a percentage as the hen, but the brooder is a different proposition.

In the brooding of chicks lies the cause of the failure of many beginners and this has been due to many different things. One of the mistakes that is most common is the neglect to have proper brooding capacity.

The large size of outdoor brooders may be used for April and May broods. While they can maintain heat enough for early Spring work, the disadvantage of attending the brooder out of doors in the bad weather of early Spring makes the indoor brooder placed in a light colonyhouse the better method.

The capacity of each of the chicks can be placed in a 6x8 colonyhouse, dividing the two brooders by a low board partition or wire netting and cutting two small openings in the partition.

WHITE ORPINGTONS

In the early days of fancy poultry breeding in America large sums of money were annually sent to England for the best it produced in Cochins, Brahmas, Dorkings and Indian games, which were then the popular fowl.

These fowls were gradually removed from the great popularity by the very meritorious American breeds of poultry which were in popular favor because of their dual purpose qualities of being good layers and good table fowls at the same time.

The former golden stream was diverted and almost stopped and English breeders had lean years until the late William Cook originated his now famous Orpingtons. These possessed the merits of being great layers and good table fowl and compared favorably with our Wyandottes and Plymouth Rocks.

They immediately sprang into popularity in America, and again the stream of American money flowed to England dark, stormy days when the muslin curtains are down.

For the poultry keeper who rears more than several hundred chicks during the season, a different system must be used. There are now two systems in general use on the large poultry farms.

The older of the two is the long brooder house with its hot water system; the other is the long brooder house with the newer coal or oil burner and both improved systems have accomplished good work.

The smaller brooder stoves will fit nicely in the 8x10-ft. colonyhouse with a 7-foot high front and 5-foot high rear; 10-ft. by 10-ft. and 12-ft. by 12-ft. colonyhouses are also used with good results.

The cost of these colonyhouses is not great. The popular 6-ft. by 8-ft. is manufactured by several firms who make a specialty in poultryhouses and they can be purchased from \$18 to \$20 fully equipped.

The larger 8-ft. by 10-ft. and 12x12-ft. can be purchased from \$25 to \$30. These are not cheap makeshift poultryhouses, but whether bought or built for that money should last a long time, especially if painted.

To stand the weather test, all poultry buildings when not covered on the outside with some of the prepared roofing papers, should have at least two coats of good paint applied.

All poultry keepers seem to have their "hobbies" as to the proper kind of a poultryhouse to use and when the average beginner sees so many different styles advocated he is often at a loss as to which one to adopt or as to which brooding system is best for him.

All have some good points, but none have as many good points combined as the shed roof colonyhouse. Both from an economic standpoint as well as practical, this style of house is becoming more popular each year among those poultry keepers who look carefully into the merits of a good house.

They can be easily built by anyone who is handy with the saw and hammer or when the carpenter is engaged can be put up in good time at less cost than those of more complicated design. They can be used to brood the chicks and after that can be employed to quarter the growing chicks to maturity.

Even then, many, after culling the flock, use the houses to quarter a number of winter layers, the size of the flock depending on the size of the colonyhouse, allowing, as a rule, from three to four square feet of floor space to each fowl.

Solving Brooding Question. The brooding question can be solved by knowing the number of chicks to be reared and the systems depend largely upon the number of chicks to be hatched and reared.

Concrete keeps you out of mud and slush. Concrete walks, steps and porch floors are even, clean, attractive. They are easy to free of snow, last like stone, save paint and repairs.

Insure the quality of your improvements by using the best materials. Don't risk using inferior cement or sand. ALPHA is a superior grade of Portland Cement that makes everlasting concrete work.

Call on us for more information about concrete work. We will give you a copy of the large, illustrated book, "ALPHA Cement—How to Use It," which tells how to make floors, steps, walkways, foundations, and scores of other permanent improvements with ALPHA, the Guaranteed Portland Cement.

How to Succeed Raising Poultry. The beginner in poultry raising has many lessons to learn. He must realize it is a business, the same as any other money-making proposition.

It requires capital, experience and knowledge before it can be conducted on a scale large enough to pay. This should not discourage anyone from undertaking it. If you have an aptitude for the work you can succeed at it.

But work is essential to success. Read next week's article on the subject. It will appear next week exclusively in the Telegraph.

Raise Chickens in Your Back Yard

Back-yard poultrymen everywhere are solving the high-cost-of-living problem. Only a small space and a limited capital are required. You can add to your income and build up a pleasant, profitable business in your spare time, IF YOU START RIGHT.

Knowledge of the proper way to hatch, raise and feed poultry is essential to your success. Good Profits for Beginners. The International Correspondence Schools have cleared the way to success by showing thousands of men and women how to make money from a small flock.

The I. C. S. Course in Poultry Farming enables beginners to understand every essential. In six months, R. C. Maxwell of Pittsfield, Mass., made \$171.75 net profit from 100 pullets, solely as a result of I. C. S. training.

"When I enrolled for your course my fowls were netting me \$250 a year; last year my profits were almost \$750," says T. E. Castle, Virginia, Mont. "After failing with poultry four times I enrolled in the I. C. S. Poultry Farming Course, started again, and am making \$24.00 a month from 100 common hens. The course is worth ten times what I paid for it," says E. J. Hennessy, Hecla, Pa.

You can do as well as these men and women. All you need is special knowledge. The I. C. S. Poultry Farming Course gives you all the information that you need. A special Poultry Breeding Course enables I. C. S. students to produce prize winning stock.

Mail the Coupon for Poultry Book. A valuable 64-page book, "Poultry Farming and Breeding Courses," will be sent on request. Mark the coupon and get it free.

Porch Work

Porches make or mar the exterior appearance of the building.

The wise builder looks to that part of the plan very carefully.

Fir flooring should be used because the weather conditions do not affect it.

Fir flooring will last 20 years on a porch floor.

Also all other lumber should be first class quality.

United Ice & Coal Co. MAIN OFFICE: Forster and Cowden Sts.

Coal Is 50c a Ton Ceaper

It used to be that people bought coal only when cold weather made it necessary to build the fires for winter.

This brought an avalanche of business all at one time. To relieve this rush the operators have a season of cheaper prices and many bins are filled early now.

Will you give this matter your early attention? Kelley has the coal—freshly mined and of best quality.

EPWORTH LEAGUES PLAN SECOND RALLY

J. Horace McFarland Will Lecture on Eaglesmere; All Societies Gain in Membership

At a meeting of the executive committee of the Epworth Leagues of Harrisburg on the evening of Wednesday, the 15th inst., J. Horace McFarland, president of the Stevens Memorial Epworth League, last evening, preliminary plans were formulated for the second rally of this organization.

This will be in the nature of an illustrated lecture by J. Horace McFarland, president of the American Civic Association, on "The Spirit of the Age," and will be given in the Stevens Memorial Methodist church on the evening of Friday, May 14.

The Sunday evening devotional meetings of the leagues last week were all largely attended, there being a net gain in attendance over the previous week of thirty-five. For tomorrow, special musical numbers will be a feature in practically all of the league meetings.

At Curtis Heights Epworth League to-morrow evening, Miss K. E. Berghman will be the leader, and there will be a song by the girls' chorus, as well as a solo by Miss Merle Maher. S. D. Howard will be the leader of the service at Epworth Methodist Church. This chapter almost doubled its attendance last week.

At Fifth Street Church, the service will be in charge of Miss Mary Black. The meeting at Grace church will be under the direction of the president, Charles W. Boll, and Miss Connor will sing.

Miss Mae Ewing is the leader assigned for the service at Ridge Avenue church. The usual custom, the Young Women's Conference will this year precede that of the students, coming from June 16 to 23. The dates for the student conference are June 16 to 23, and for the Young Women's Conference, July 16 to 23; Summer School, July 16 to 23; Summer School for Sunday School Workers, July 16 to 23; Young Men's Field Workers Conference, July 24 to 30. The general conference for Christian Workers comes from July 29 to August 15.

Among the teachers and speakers already secured for the coming summer are: Rev. Cornelius Wolfkin, Right Rev. Arthur S. Lloyd, Dr. John R. Mott, Rev. Charles E. Jefferson, D. D., Rev. G. A. Johnston, Ross, Nolan Rice Best and George Sherwood Ed. J. of New York City, Prof. Charles R. Erdman, of Princeton, N. J., Rev. A. T. Robertson, D. D., of Louisville, Ky., Rev. William Evans and Raymond Robbins, of Chicago, Rev. John R. Davies, of Philadelphia, Rev. Russell Cecil, D. D., and Bishop Collins Denney, of Richmond, Va., Rev. G. Campbell Morgan, D. D., and Rev. Charles Inglis, of London, England, Rev. Charles R. Brown, D. D., of New Haven, Conn., Rev. W. D. Mackenzie and Rev. John Douglas Adam, of Hartford, Conn., Rev. H. E. Fordick, of Montclair, N. J., Miss Margaret Slatery, of Fitchburg, Mass., Misses Martha K. Lawso, Nannie Lee Frayser, Laura White and Mrs. Helen Barrett Montgomery, of Rochester, N. Y., and Miss Emily S. Strong, of Pittsburgh, Pa.

DR. MORGAN TO AGAIN VISIT THIS COUNTRY

Coming from England For Conference of Christian Workers at Northfield

East Northfield, Mass., April 17.—Rev. G. Campbell Morgan, D. D., of Westminster Chapel, London, has just called to W. R. Moody, pastor, Dwight L. Moody, the evangelist, his acceptance of an invitation to be one of the speakers at the general conference for Christian workers at Northfield, Mass., from July 16 to August 15.

Owing to a severe attack of typhoid fever, Dr. Morgan was compelled to abandon his proposed visit to India and the far East in October, but he has since recovered and will resume his pastoral duties in Westminster Chapel. The announcement of his visit to America this summer will be welcomed by the large body of friends who in Northfield nineteen years ago that Dr. Morgan first became known to the Christian public of America.

Along with this announcement, Mr. Moody has also just given out the program of the thirty-third season of the Northfield conferences. Contrary to the usual custom, the Young Women's Conference will this year precede that of the students, coming from June 16 to 23. The dates for the student conference are June 16 to 23, and for the Young Women's Conference, July 16 to 23; Summer School, July 16 to 23; Summer School for Sunday School Workers, July 16 to 23; Young Men's Field Workers Conference, July 24 to 30. The general conference for Christian Workers comes from July 29 to August 15.

Among the teachers and speakers already secured for the coming summer are: Rev. Cornelius Wolfkin, Right Rev. Arthur S. Lloyd, Dr. John R. Mott, Rev. Charles E. Jefferson, D. D., Rev. G. A. Johnston, Ross, Nolan Rice Best and George Sherwood Ed. J. of New York City, Prof. Charles R. Erdman, of Princeton, N. J., Rev. A. T. Robertson, D. D., of Louisville, Ky., Rev. William Evans and Raymond Robbins, of Chicago, Rev. John R. Davies, of Philadelphia, Rev. Russell Cecil, D. D., and Bishop Collins Denney, of Richmond, Va., Rev. G. Campbell Morgan, D. D., and Rev. Charles Inglis, of London, England, Rev. Charles R. Brown, D. D., of New Haven, Conn., Rev. W. D. Mackenzie and Rev. John Douglas Adam, of Hartford, Conn., Rev. H. E. Fordick, of Montclair, N. J., Miss Margaret Slatery, of Fitchburg, Mass., Misses Martha K. Lawso, Nannie Lee Frayser, Laura White and Mrs. Helen Barrett Montgomery, of Rochester, N. Y., and Miss Emily S. Strong, of Pittsburgh, Pa.

WORKER FOR CIVIL REFORM TO SPEAK Will Answer Statements of Personal Liberty League Made on Local Option Day

A. H. White, manager of the Harrisburg office of the American Civic Reform Union, will speak in two churches to-morrow on live topics.

His first lecture will be given in Park Street United Evangelical Church to-morrow morning on "Personal Liberty." In reply to statements made by members of the Personal Liberty League on local option day. In the afternoon at 2 o'clock he will address a meeting for men only in the First United Brethren Church, Boas street, on "H or H, Which? V or V, Which?" a subject of vital interest.

Mr. White comes well recommended from Erie, Emporium, Lock Haven. He has spent the last three years speaking through this State in the interest of a higher standard of civic righteousness.

TO START SERMON SERIES

To-morrow evening, at 7:30 o'clock, Dr. Clayton Albert Smucker, will begin in the Stevens Memorial Methodist Episcopal Church, Thirteenth and Vernon streets, a series of three sermons on live topics. The first sermon will be on "Witch Fads and Frauds of To-day." On the evening of April 25, the subject of the address will be "Lying in its Varying Forms and Shades." At the men's club meeting on the evening of May 2, he will preach on "Signs of the Times."

MUSIC AT MESSIAH LUTHERAN Morning—Prelude, "Prelude in B Flat," Wolstenholme; offertory, "Moderato Con Moto," Bibl; anthem, "No Shadows Yonder," Gaul; postlude, "Postlude," Lamalgre. Evening—Prelude, "Allegretto Cantando," Leichter; anthem, "Inflammatus" (Stabat Mater), Rossini; offertory, "Priore Lento," Hollins; bass solo, "Face to Face" (by request), Johnson; postlude, "Chant Triumphant," Gaul.
