DESIGNED AS REPRISAL

Berlin, via London, April 22, 9.50 A. M.—Amendments to the prize rules governing the operation of the German navy signed by Emperor William and Admiral Von Tirpitz, published in the Reichs Anzeiger were designed as a reprisal for the decision made by England and her allies contravening the declaration of London of February 26, 1909.

CARE OF THE EYES

Health as Well as Beauty Demands That Eyes Get Attention

The woman who takes care of herself should give as much attention to her eyes as she does to her skin or to her hair. In the first place after driving or being in the dust of the city or country she should wash or bathe her eyes with tepid water. This removes the irritating dust or small particles. After reading or before going to bed she should bathe the eyes with salt water or tepid water to which is added a pinch of salt, and using an eye cup, will be surprised at the difference in the sparkle of the eyes. If inflamed they should be bathed several times a day. The dull, sunken eyes, the hollow circles and the sallow complexion of many women is due, however, to the complaints and diseases peculiar to women. The best thing I know for this is Dr. Pierce's Favorite Prescription, because it is a temperance tonic, being made of roots and herbs with pure glycerine. It establishes regularity, heals inflammation and banishes pain. Dr. Pierce publishes the ingredients on the wrapper so it is not a secret and I have seen many women cured by it, and not only that, but the dull, sunken eyes, the sunken cheeks and bust, have taken on a sparkle and healthful appearance. Thousands of women have testified to having been cured of womanly diseases by this Prescription. It speedily causes all womanly troubles to disappear—compels the organs to properly perform their natural functions, corrects displacements, overcomes irregularities, removes pain and misery at certain times and brings back health and strength to nervous, irritable and exhausted women.

It banishes pain, headache, backache, low spirits, hot flashes, dragging-down sensations, worry and sleepless-ness, surely and without loss of time. Keep the bowels healthy by using Dr. Pierce's Pellets. They don't gripe.—Advertisement.

An Easy Way to Get Fat and Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams" or following some foolish physical culture stunt, while the real cause of thinness goes uncorrected. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements which are needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its regenerative, re-constructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. George A. Gorzas and other leading druggists of Harrisburg and vicinity have it, and will refund you money if you are not satisfied, as per the guarantee found in every package.

Caution—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken by those who do not wish to gain ten pounds or more.—Advertisement.
