DANDRUFF MAKES HAIR FALL OUT

25 cent bottle of "Danderine" keeps hair thick, strong, beautiful

Girls! Try this! Doubles beauty of your hair in few moments

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Advertisement.

DANGEROUS DEBILITY

Debility may result from a number of causes—worry, after-effects of acute illness, lack of nourishment due to disordered digestion, or anything that makes the blood thin, thereby preventing it from carrying health and nourishment to the tissues of the body.

The symptoms of debility vary, but weakness is always present, often a tendency to fatigue easily, ringing in the ears, black spots passing before the eyes, weak back, dizziness, wakefulness caused by inability to stop thinking, and unrefreshing sleep.

Debility is dangerous because it weakens the body's defense against disease. For instance, debilitated people take cold easily and winter is always a trying time for them. When one cold follows another the system surely needs building up.

The treatment of such run-down conditions with Dr. Williams' Pink Pills is based on sound medical principles and common sense. These pills build up the blood so that it nourishes every part of the body, nerves as well as muscles, and brings vigor, strength and health.

Mention this paper and we will mail you the booklet, "Building Up the Blood." Address: Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.—Advertisement.

Governor Brumbaugh is greatly interested in observance of the last of the Spring arbor days which comes to-morrow, and to-day expressed the hope that the people of the State would carry out the suggestions given in his proclamation a short time ago. He reiterated his hope that trees would be planted, calling attention to the necessity of reforestation and to the advantages that would accrue from trees along State highways. The Governor highly recommended the movement for protection of birds to which he referred in his proclamation.

State Zoologist H. A. Surface has issued a bulletin in which he urges that attention be given to providing nests for birds and to the importance of insect destroying birds to the farmers.

Woods, who was a colleague of Mr. Cunningham in the Senate some years ago. He was in consultation with the various department chiefs during the day. When he reached his desk it bore a large bunch of flowers from Pittsburgh friends.

SLOPING WALKS TO RIVER FRONT WALL

[Continued from First Page.]

trians, but more economical. Construction of this method of access to and from the river wall walk will be much less costly than steps. For mothers or nurses with babies, this plan will be particularly convenient, Mr. Taylor says.

Commissioner Taylor's plan is to extend the walks along the banks by a scheme of "fill" and "cut" and to build the pavement of the rough stones that may be taken out of the slopes in trimming up the river front. A walk at least four feet wide will be constructed and the slopes will be supported by flat stones. Shrubbery will be planted on the outer edge so that the approaches will be concealed from those on the wall walk below.

The construction of these paths will be a part of the fine grading and trimming of the river slopes that Mr. Taylor is planning to complete before the planting is begun. He hoped to start yesterday, but because the foreman could not get here in time, the starting of the job has been postponed until next Monday morning. The preliminaries will be tackled from Market street southward first.

MEDICAL IMPOSTER WILL MAKE CONFESSION IN COURT

New York, April 22.—Police authorities said to-day that one of the fifty-four operators of medical museums and their assistants arrested here yesterday in one of the most sweeping raids upon alleged medical imposters ever conducted in this city, had promised to appear in court today and make a confession. His statement, the police assert, will reveal the workings of a system of national scope for extorting money by fraudulent methods of diagnosis.

GOVERNOR HOPES FOR WHITAKER BILL'S PASSAGE

Governor Brumbaugh said to-day that he hopes for the passage of the Whitaker bill providing for the appointment of a commission to conduct the affairs of the Department of Agriculture. He says his intention is, if the law is enacted, to have a working commission of agricultural experts through the instrumentality of which he hopes to greatly improve farming conditions in Pennsylvania.
