There Are Never Enough First-Class Cars in the Spring

They always run out, as you know. Last year, many Hudson enthusiasts had to take second choice. Thousands waited weeks for delivery. This spring, despite trebled output, there will be more delays. Choose your car now, whatever class you are seeking. The leading car has more orders than cars each spring.

Two things are certain: If you buy a class car you will want a Light Six, the latest and coming type. Your first choice will be Hudson.

Hudson--the Ideal

Hudson stands out as the class car in Light Sixes. Its supremacy appears at a glance. It shows in beauty, finish, luxury and refinement. It shows in lightness—2870 pounds. It shows in every part of the chassis.

Hudson is designed by Howard E. Coffin, who created the Light Six type. It marks his latest achievement.

This Hudson model is a four-year result. Two years were spent on it before it appeared. Two years have been spent in refining it.

Hudson is built by the leading builder of class cars. Its prestige gives it permanent value. A year after buying the Hudson will be worth more than any other car in its class.

12,000 Road Tests

But the greatest fact is that Hudson is known to be free from mistakes.

The Light Six

7-Passenger Phaeton
3-Passenger Roadster

Over 1200 Light Six Hudsons are running. In twelve thousand hands they have covered at least 30 million miles.

You know that it hides not a weakness or error. Any owner around you will tell you.

Remember that the Light Six involves a new-type motor. Weight-saving has required changes in every part. New materials were necessary, special steels, much aluminum.

It saves half on tire cost and fuel over old-time Sixes. But, like any new type, it must prove itself faultless.

Hudson has done that. In another year other Light Sixes may have given proof of their staunchness. But to-day the Hudson is, by all odds, the safest investment in this type.

Prove these facts now, while the car can be promptly delivered.

Keystone Has Many Sales Listed For This Week

Twenty-one sales for the week is the report of the Keystone Motor Car Company. These include eleven of the new Saxon six-cylinder cars, five Saxon roadsters of the four-cylinder type, three of the model 32 Chalmers, one model six Chalmers, and one of the model 28 Chalmers. This report indicates a prosperous season for the motor car industry, and especially gratifying to this local agency.

Ford Owners Will Receive \$15,000,000 in Rebates

In eleven months, in place of twelve as expected, the Ford Motor Company will have reached the 300,000 mark. This is the prediction of Henry Ford as contained in the local announcement of Ford Sales Company. This means that \$50 will be returned to every Ford car owner who purchased his car since August 1, 1914, and before August 1, 1915. This makes a total of \$15,000,000 in rebates to be distributed by the Ford Motor Company. In an interview, P. Driscoll, manager of the local Ford agency, said the emphatic announcement of Mr. Ford will materially increase the sales of these cars during the months of May and June, as a great many who were undecided up to this time.

LIFT QUARANTINE

State Livestock Sanitary Board officials stated to-day that a modification of the State quarantine for the foot and mouth disease would be ordered on Wednesday. It will accord with changes in the Federal quarantine. It was explained at the Capitol that the Federal Government order of to-day will permit shipments of cattle, after Government inspection from this State and from those counties which have been closed: Butler, Bucks, Delaware, Erie, Montgomery, Lehigh, Dauphin, Lancaster, York and Cumberland. The Federal inspector in this district is F. W. Ainsworth, Room 905, Kunkel Building, Harrisburg.

Low Priced Railways Suffer Further Declines; Interborough Shares Active

By Associated Press

New York, April 24.—Aside from a "wide" opening in Interborough-Metropolitan shares, resulting from yesterday's late announcement of recapitalization, to-day early stock market presented no unusual features. Interborough common opened with a block of 5,000 shares at 22 to 21½, against yesterday's closing price of 20½. The preferred stock ranged from 7½ to 15½, a maximum decline of 1½. The common soon yielded all its gain. Leading stocks showed a mixture of gains and losses and specialties also reflected variable tendencies. Low priced railways suffered further declines.
