HARRISBURG HOTTEST CITY IN COUNTRY

(Continued from First Page.)

afternoon the high water mark of '92 was touched. In the evening at 8 o'clock the mercury had settled to 84, but the humidity was down to 88, many degrees below normal.

Until long after midnight, the thermometer hung around the eighty mark. Then under the influence of a light western breeze dropped to fifty. In the early hours of the morning it was comfortably cool—that's all.

By 9 o'clock this morning it was up to sixty again, but a light breeze gently fanned the air which was dryer than yesterday's, making it more agreeable.

Hundreds of persons sought relief from the heat in the parks, along the river and on and in the river.

Many Go Swimming

Small boys and larger ones, too, splashed around in the water yesterday. All pronounced it "right." "Just enough tingle in it to ginger it up" was the consensus of opinion.

Afternoon, after school a score of youths beat it for the old swimming holes along the eastern shore of the island, near the bridge. It would be premature to say they reaped a harvest of pennies.

Turn Hair Dark With Sage Tea

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is still the mother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 60 cents a bottle.
