

### Followed Friend's Advice

After trying Fruitola and Traxo, Mrs. L. C. Clark, 840 Meiba St., Dallas, Texas, wrote to the Pinau laboratories as follows:

"I have been a sufferer from gall-stones, and Fruitola and Traxo was recommended and I am glad to say I took advantage of your most wonderful medicine, with wonderful results."

Fruitola and Traxo are two remedies that are used in combination. Fruitola acts on the intestinal organs as a powerful lubricant, softening the congested waste and breaking up the hardened particles so that easy elimination follows quickly, to the great relief of the patient. Traxo is a compound of splendid tonic properties, of special value in strengthening and restoring the system that has been weakened by constant suffering.

The Pinau laboratories have many letters on file testifying to the merit of Fruitola and Traxo; letters from people who have used the remedy and know from actual experience what it has done for them. For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through leading drug stores. In Harrisburg they can be obtained at Gorgas, the Druggist, 16 North Third street—P. R. Station.

### R. J. Reynolds Declares Therein Merchants Paying Pretty Tributes to Vote Desirers; Displays at Many Places

The newspaper as the standard form for advertising is heartily advocated by R. J. Reynolds, founder and president of the R. J. Reynolds Tobacco Company. In discussing newspaper advertising recently Mr. Reynolds said:

"Newspapers and magazines have constituted the backbone of all our advertising."

"I believe that a manufacturer who has a good product with which he can make a popular appeal, and will tell the truth about it in the daily newspapers, backed with a good selling organization, will make an unqualified success. I have had ample experience with this form of advertising to prove, beyond any doubt, that newspapers are, unquestionably, the standard form of advertising."

"This business is international in its scope. We, therefore, have passed the stage on several brands as far as local advertising is concerned. Hence, in connection with newspaper advertising, we use national publications. In establishing brands we cover the country section by section, relying on newspapers for our main advertising support."

"When you consider the number of newspapers that daily go into the millions of homes and how dependent we all are upon them for the world's news, it would be hard to depreciate their value as an advertising medium. After all, it's a simple matter of manufacturing a good article—and letting the people know the truth about it."

"No Retrenchment Owing to War"

"Yes, newspapers are good advertising mediums, of this company would have found it out before it began investing hundreds of thousands of dollars in their columns annually."

"This company thought enough of advertising as a selling medium not to retrench on expenses in this division of the business when the European war broke out. As a matter of fact, more money was appropriated to advertising than we would have otherwise expended. As a result, we are doing the largest business in our history."

"We conduct our business conservatively, having no money to throw away in any direction. But this company never hesitates to back its business judgments, depression or no depression. If we waited for good times to roll around to get business, there would be mighty little incentive for work. The time to work is all the time. And the time to pull that extra spurt that every man has stored away is in slack times. We meet conditions, and overcome them."

"As a matter of fact, business throughout the entire land is improving; very much faster than the pessimists dare to admit."

**DON'T SQUEEZE BLACK-HEADS—DISSOLVE THEM**

Squeezing and pinching out blackheads make the pores large and cause irritation—then, too, after they have become hard and dried, they are pushed out. Blackheads are caused by accumulations of dust and dirt and secretions from the skin and there is only one safe and sure way and one that never fails to get rid of them—a simple way, to dissolve them. This is done by using from any drug store about two ounces of powdered neroxin—sprinkle a little on a hot, wet sponge—rub the blackheads briskly for a few seconds—wash off and you'll be surprised to see that every blackhead has disappeared and the skin will be left soft and the pores in their natural condition—anyone troubled with blackheads, unsightly blemishes should try this simple method.—Advertisement.
