THE HUBER-ROHRER WEDDING AT NOON

Journey to the Pacific Coast Followed by Residence in This City

Miss Ella McHenry Rohrer, daughter of John Franklin Rohrer, of this city, and Harry Groff Huber, formerly of Greensburg, were quietly married at noon today at the home of the bride, 1400 North Second street, with the Rev. Dr. Lewis Seymour Mudge, pastor of the Pine Street Presbyterian Church, officiating. The date is the anniversary of the marriage of the parents of the bride.

White lilies and ferns graced the drawingroom where the ceremony was performed, in the presence of the immediate families. Following the service, Mr. and Mrs. Huber started for a western wedding journey, going to the Pacific coast and the Panama-Pacific exposition, returning by way of the Canadian Rockies. The bride, who was unattended, wore a smart traveling costume of navy blue silk poplin with hat trimmed in ribbon and wings, and a corsage bouquet of orchids and lilies of the valley. After September 1, Mr. and Mrs. Huber will be "at home" to their friends at 1400 North Second street.

Mrs. Huber is one of the best-known women of the city, closely associated with church and social work. Her husband, a son of the late Joseph Huber, of Greensburg, is connected with the motive power division of the Pennsylvania railroad.

The bride who was given in marriage by her father, wore a simple gown of crepe de chine, with tulle veil, and carried bride roses and lilies of the valley. She was attended by the sisters of the bridegroom, the Misses Kate and Ruth Harling as bridesmaids, and her sister, Miss Anabel Swartz as maid of honor, all were attired in gowns of yellow crepe de chine. A niece of the bride, Miss Roberta Ter Swartz of Brooklyn, was flower girl and carried a basket of sweetpeas. Harvey Shull of Harrisburg, brother-in-law of Mr. Farling, was best man.

The bride is an accomplished reader, and has a wide circle of friends. The bridegroom holds a responsible position in California, where they will make their future home.

After the wedding breakfast, which was artistically served by John Scott of the Country club, Mr. and Mrs. Farling left on an afternoon train for New York. After spending a few days there, they will sail by the Southern Pacific route to New Orleans, thence by rail to California.

How to Beautify the Hair

A Simple and Inexpensive Home Method

The hair is like a flower—a little care and proper nourishment does wonders. Just as a plant without air and water withers and dies, so will the hair go if not given proper nourishment. The scalp must be perfectly healthy and free from dandruff, as the scalp is to the hair what good soil is to plants and flowers.

If your hair is not pretty; if it is losing color, too dry, matted, falling out, or if the scalp itches and burns, you can easily overcome all of these conditions by using Parisian Sage, which supplies every hair's need. It soaks right into the hair roots, stimulating them and furnishing nourishment that is needed for the hair to grow not only long and heavy, but fluffy, soft, lustrous and gloriously radiant.

You can get a bottle of this inexpensive yet delightful and helpful hair tonic from any drug counter. Improvement begins with the very first application. Besides stopping the scalp irritation it removes every bit of dandruff. The use of this unequalled tonic will surely give you hair new life and beauty.—Advertisement.

SPANKING BREEZE LOWERS MERCURY

But the Temperature Will Continue Above Normal, Says Forecaster

Under the influence of a spanking breeze which swept inland from the Atlantic, the temperature remained within reasonable bounds on this, the most pleasant day of the present hot wave.

The low pressure area which was off the New England coast is now on the move and the warm weather will continue, no extremely high temperatures are anticipated by Forecaster Denain.

At 8 o'clock this morning, the thermometer registered 65 degrees, six less than yesterday. Philadelphia had a drop of fifteen degrees which is due to its proximity to the Atlantic. By the time the winds had reached here over the heated land they were considerably tempered.

Continued warm weather with local showers is the prediction for tomorrow.

For the second time during the present spell of hot weather, Harrisburg and Philadelphia, with temperatures of 95 and for the week 88. Corresponding to the weather around being the hottest places in the country, yesterday. Late in the afternoon the storm forced the mercury down twenty-five degrees in about five minutes, causing agreeable conditions to reign during the night.

There is a total excess of temperature in this city for the month of 164 degrees, and for the year 38. Corresponding to the weather around being the hottest places in the country, yesterday. Late in the afternoon the storm forced the mercury down twenty-five degrees in about five minutes, causing agreeable conditions to reign during the night.

No Relief Before Next Week

The Washington weather bureau forecast for the week beginning today is as follows:

"In the Middle Atlantic States temperatures will average considerably above normal the coming week, although there will be a change to lower temperature the latter part of the week. Generally fair weather the first half of the week with the probability of heavy rain followed by thunderstorms between May 1 and 4."

SNOWSTORM HERE JUST 17 YEARS AGO TODAY

The weather to-day was quite different from that of April 28, 1898. Seventeen years ago snow was falling in large amounts.

This is the anniversary of the departure of the local troops for Mt. Gretna, to be mustered into service for the Spanish-American war. The snow started about 8 o'clock in the morning. The Governor's Troop was en route and caught the storm at Steelton. The Harrisburg soldiers stopped there, where their addresses were made, and then marched to the Pennsylvania Railroad station. The pavements, awnings and roofs were white. The snow lasted all day and made it rather unpleasant for the soldiers going into camp.

Item Welcomed by Many Men

This recipe can be filled at home, so that no one need know of another's troubles, as the ingredients can be obtained separately at any well-stocked drug store. They are in regular use and many different prescriptions are constantly being filled with them.

This will prove a welcome bit of information for all those who are overworked, gloomy, dependent, nervous and have trembling limbs, heart palpitation, dizziness, cold extremities, insomnia, fear without cause, timidity in venturing and general inability to act naturally and rationally as others do, because the treatment can be prepared secretly at home and taken without any one's knowledge. Overworked men and the many victims of society's late hours and dissipation will, it is said, find the restorative they are in need of.

If the reader decides to try it, get three ounces of ordinary syrup sarsaparilla compound and one ounce compound fluid balsamwort; mix and let stand 24 hours; then get one ounce compound essence cardiol and one ounce tincture of iodine and camphor (not camdrom), mix all together, shake well and take a teaspoonful after each meal and one when retiring.

A certain well-known medical expert asserts that thousands of men and many women are sufferers all because of dormant circulation of the blood and a consequential impairment of the nervous force, which begets the most dreadful symptoms and untold misery.
