APPOINTIVE POWERS WITH COUNCIL ONLY

[Continued from First Page.]

pass upon appointments at the hearing given yesterday afternoon to the law and mayors' committee of the Third Class City League of Pennsylvania by the Senate committee on municipal corporations.

The fact that the Democrats in Harrisburg's Council always disagree with the majority when appointments to city offices are to be made and that the objections as a rule are based wholly on political reasons was cited as no excuse for taking this power from the hands of the whole body. Mr. McHugh declared that the present plan was working out splendidly in practically all the other cities of the Keystone State.

working out splendidly in practically all the other cities of the Keystone State.

To Retain Nonpartisan Feature
Pleas for the retention of the nonpartisan feature, the election of the city treasurer by the councilmen and not by the vote of the people, as has been suggested; election of commissioners by designating that the two candidates receiving the highest vote be chosen for four years and the other two for two years; fixing the terms of city solicitors and engineers to begin May 1, and for the proposed salary raiser from \$2.500 to \$3.600 a year were also advocated.

The proposed amendments, it is understood, will be considered when the measure is taken up on Monday.

While the arguments advanced before the Senate committee in a two-hour session during the afternoon were more or less of a rehash of the proceedings of the committee in City Council chamber yesterday morning, the meeting was not without its high lights.

Senator Beidleman vs. Mr. Gardner

Gardner, city solicitor of New Castle had a brief but lively set-to when Mr. Gardner advocated the striking out of the amendment which eliminates the nonpartisan feature from the act. Mr. Gardner stoutly declared that New Castle was satisfied with its Council, that the system was working out nicely there, and that it didn't want any changes. "Maybe," said Mr. Gardner. "Harrisburg didn't come out so well in the selection of its councilmen, but New Castle did."
"Well, in Harrisburg the Council is '2 to 2,' but if you read a certain newspaper," reforted. Senator Beldleman, 'you'll discover that the members are always referred to as three Republicans and two Democrats. What this newspaper does is to adversely criticies the Republicans and praise the Democrats." nonpartisan feature from the act. Mr.

newspaper does is to adversely truction the Republicans and praise the Democrats."

Harrisburg's Council Again
Reference to Harrisburg's Council was made a little later when Senator Beidleman was questioning Nelson R. Bennett, superintendent of finance and accounts of Wilkes-Barre, on certain features of the bill.

Mr. Bennett said he "had heard" that Harrisburg's councilmanic affairs could be conducted more smoothly, perhaps, "if certain outside persons kept their hands out of it and left it alone."

"Whoever told you that," promptly returned Senator Beidleman, "told you what was not true."

Don't Spread the Dust when You Sweep—Collect It

"Making the dust fly" certainly describes the usual method of sweeping.

Even dusting caps don't really keep the hair clean and your throat becomes literally choked.

But this is all past now. There is a better way to sweep—a dustless way. And it's so simple too. Just sprinkle a little Nomordust across the floor and then sweep it ahead of you as you go.

Nomordust holds the dust and keeps it from spreading. It enables you to get favorite grocer—he'll refund your money the room much cleaner too, for you don't
