SPECIALTIES TAKEN UP IN WALL STREET

U. S. Steel Only Stock to Rise as Much as One Point During the Morning

By Associated Press

New York, May 1.—Specialties were again taken up at the opening of today's market to the neglect of the railway list and other seasoned issues. Westinghouse, which furnished the sensation of the previous day by reason of its strength and activity, rose a point at the outset, while Pressed Steel Car, Baldwin Locomotive and half a dozen other stocks of this class rose 1 to 3 points. Among the actual leaders U. S. Steel was the only stock to rise as much as a point. Metal shares were mostly lower. Trading was very active but mainly of a professional character.

LEGAL NOTICES

NOTICE is hereby given that on the 26th day of April, 1915, the Harrisburg Savings and Loan Association, of Harrisburg Fennsylvania, filed in the Court of Common Pleas of Dauphin County its petition praying for a Decree of Dissolution, and that a hearing upon said application for dissolution has been fixed by said Court for Monday, June 7, 1915, at 19,00 A. M. when and where all shew cause against the granting of the prayer of the said petitioner if they so desire.

"No. 355, June Term, 1915,"
PAUL A. KUNKEL, Solicitor for Petitioner.

Wanted to Tear Out Dam
Finally, in 1796, £1,600 of the required amount was raised. This had been agreed on for the first payment, but when the money was tendered to Peter Landis, he refused it, announcing that the price had soared to 13,300. Young bloods in the crowd suggested overpowering Landis and ripping out the breast of the dam. Sance rounsel prevailed and they were restrained.

Sance Tennally, in 1796, £1,600 of the required amount was raised. This had been agreed on for the first payment, but when the money was tendered to Peter Landis, he refused it, announcing that the price had soared to 13,300. Young bloods in the crowd suggested overpowering Landis and ripping out the breast of the dam. Sance rounsel prevailed and they were restrained.

Separated, but Sues Husband to Take Out Big Insurance

New York, May 1.—Mrs. Isabella Brulatour has started suit to compel her husband, Jules Brulatour, an importer, to take out \$55,000 life insurance in her favor. She alleges they separated and he agreed to pay her \$2,000 a year and to take out the insurance. He denies the promise to insure himself in her favor.

purchase of the dam and mill. Afterwards a number of residents subscribed several hundred dollars apart from this sum. William Crabbe, Majo twiney, Thomas Gregg, Rudolph Kelker, John Maclay and John Peiffer were among the heaviest contributors.

Forefathers of some of Harrisburg's most distinguished residents were among those who subscribed large amounts to make the city cleaner and healthier back in the old days.

Those who contributed amounts. the expense of pumping the lake dry. The pumping operations were unusual. It required four big centrifugal pumps, which were placed on scows floated on the surface of the lake. These pumps were large enough to permit the passage of solid matter up to four inches in diameter. The water was conveyed through pipes to another lake about half a mile away. The pumping operations required thirty-eight working days of ten hours each, with the pumps bringing up water at the rate of 6,000 gallons a minute. The lake covered about thirty acres and contained more than 4,000,000 gallons of water.

More Beautiful Than Ever BELLEVUE PARK

"The Garden Spot of Harrisburg"

Bellevue Park is more beautiful now than it has ever been. Its natural beauty has been enhanced by the erection of many homes which dot the landscape and give a charming community appearance to the Park.

If you haven't kept pace with the past year's building operations in Bellevue Park, the many handsome homes will prove a pleasant surprise to you. More than ever, you will want to live in Bellevue Park.

Do Not Confuse Bellevue Park With the Usual Lot Proposition

ble than promised development.

Improvements are already there—City Water, Gas, Electricity, Sewers, Telephones, Trolley Facilities—these with schools and churches close by, offer the Bellevue Park resident the same advantages that are to be enjoyed anywhere in Harrisburg.

Home sites in Bellevue Park cost less. In no desirable section of the city can you purchase ground at as low prices per front foot. Spacious lots and reasonable building restrictions insure fresh air, light and desirable surroundings on all sides for all time.

Bellevue Park is different. It offers something more tangi- Nowhere in Harrisburg does a home site have a more promising outlook. Grading work is being vigorously conducted on Market street beyond 21st street. Curbing is already on the ground preparatory to paving Market street to 21st. The main entrance to Reservoir Park at 21st and Market streets is nearing completion. New homes are being started in Bellevue Park, and others are being planned.

> There is activity on all sides - activity along lines that means increased values. A home in Bellevue Park is more than a home-it's an investment.

Would You Escape the Bother of Building?

Then see the beautiful new homes erected for sale by the Investors' Realty Company. There are five in all, rich in architectural beautybuilt soundly-and embodying all those little conveniences that are usually found only in the home one builds for himself. They set a new standard in home-building in Harrisburg.

> DUTCH COLONIAL TYPE HOME BRIARCLIFF AND NORTH FIELD ROADS LOT 125x154 FEET. PRICE, \$8,200.

Let us take you by auto to Bellevue Park and show you these homes and some of the beautiful sites available. Phone Bell 1595 for appointment-no obligation on your part-and the trip will be of mutual pleasure. Or, if you prefer, take Reservoir Park car direct to Bellevue Park—21st and Market Streets. You couldn't choose a more delightful spot for your Sunday afternoon stroll.

DISTANCES SAVED BY PANAMA CANAL

From Colon, on the Atlantic side of the Isthmus of Panama, to Balboa, on the Pacific side, the distance by water around South America is 10,500 nautical miles; through the canal that distance is less than forty-four miles. The difference in length of these routes, 10,550 miles, represents the maximum distance that can be saved to a vesel by use of the canal.

New York, for instance, is nearer to Santance of 13,135 miles by Magelian has been reduced to 5,252 miles by the canal. The water distance between these ports is two-fifths what it used to be. Compared in terms of the overland route between these cities, it is about as if a man who wished to travel from New York to San Francisco were magically transported in an instant to Denver, Colo, there to begin his railroad trip. Three-fifths of the way would be saved before he started.

WOMAN CIRCLES GLOBE TO WIN \$5,000 BET FOR JACK LONDON

New York, May 1.—In 1911, Jack London offered to wager \$5,000 that a woman could work her way around the world as well as a man. His friends scoffed at the idea and finally the wager was made, the author taking the end that Mrs. Hilda Silbert, who lived/near him in California, rode "bad" horses and defied many other supposed limitations of her sex. could do it. Now no longer Mrs. Gilbert, but the Countess Sylvaino, she is back in New York. She already is widowed by the baron. She hobnobbed with a Zulu chief and made such a hit with him that she can always enter fils harem. She was entertained by an Indian rajah. She married the Count Pierre Sylvaino when he protected her when a man tried to tear her mask off in a Paris restaurant. She left him to continue her trip and when she arrived here received word he was dead.

REO TRUCK WITH DUMPING DEVICE

The above cut represents the two-ton hydraulic Reo truck sold to the Highway Department of the City of Harrisburg by the Harrisburg Automobile Company. The body of this truck is so constructed that it will haul its full capacity of street sweepings or any material and then can be arranged to haul 2½ tons of asphalt and dump it either on a pile or spread it. The body is sheet steel to which is atached the latest type hydraulic hoist made. In the past week the truck was thoroughly tried out hauling 2½ tons of sand and river coal loaded from the flats in the water, up the river banks at the loading wharfs at Division, Broad and Market streets. The power was also demostrated by backing its load up a platform to the top of the coal pile on the corner of Broad and Front streets and then dumping the load.
