

# Dreaded An Operation More Than Anything

## Tried Fritola and Traxo and Has Never Since Been Troubled With Gall-stones

Mrs. Mary E. Franse, whose address is West Point, Nebr., Box 411, has written to the Pinus laboratories a very strong endorsement of Fritola and Traxo. In her letter, Mrs. Franse says: "About ten years ago I was about to undergo an operation for gall-stones when I heard of your medicine. Dreading an operation above everything I determined to try Fritola and Traxo and have never been sorry I did so, as I have never been troubled with gall-stones since."

MRS. MARY E. FRANSE

Fritola is a powerful lubricant for the intestinal organs, and one dose is usually sufficient to give ample evidence of its efficacy. It softens the congested masses, disintegrates the hardened particles that occasion so much suffering, and expels the accumulated waste to the intense relief of the patient. Following a dose of Fritola, Traxo should be taken three or four times a day in order to rebuild and restore the system that has been weakened and run down by constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

In the files of the Pinus laboratories at Monticello, Ill., are many letters gratefully acknowledging the satisfactory results following the use of Fritola and Traxo. Arrangements have been made for the distribution of these excellent remedies by leading drug stores everywhere. In Harrisburg Fritola and Traxo can be obtained at Gorgas' the druggist, 16 North Third street, and P. R. R. Station.

# HARDSCRABBLE VIEW GOES OVER TO JUNE 22

## Board Accedes to Request of the Counsel For Property Owners; Lawyers to Combine Forces

June 22 was fixed to-day by the "Hardscrabble" board of viewers for hearing the remainder of the property owners on the west side of Front street between Herr and Calder streets, who have not yet presented their claims to the viewers.

To-day had originally been fixed for hearing the last of the claimants but half a dozen or more attorneys ap-

peared before the board and complained that they had not been allowed sufficient time to get necessary data together and that the city consequently might have the advantage of them in this respect. Because many of them will be busy with court from now on the viewers decided to grant the request to let the hearing date go over until June 22.

While it is hoped to clear up the remainder of the testimony on that day, Chairman Karl Steward, of the viewing board, said that if it required the following day or two to complete the work, the viewers would accordingly extend the sittings.

### LIGHT BRIGADE OFFICER DIES

By Associated Press  
London, May 7.—Lieutenant-General William Henry Beaumont de Horsey, who commanded the famous Light Brigade in its charge at Balaklava, died last night at the age of 89 years. He entered the army in 1844, became a major-general in 1878 and retired in 1883.

# RUSS DROP BOMBS ON CONSTANTINOPLE

## First Attack on Turkish Capital Reported in Dispatch From Athens

### EXTENSIVE DAMAGE DONE

## Three Aviators Said to Have Traveled Over City Dropping Explosives

Paris, May 7, 12.30 P. M.—The first attack of the war on Constantinople is reported in an unofficial dispatch from Athens. It is said three Russian aviators flew over the city dropping several bombs which are believed to have caused extensive damage. The message says also that the Russian Black Sea fleet bombarded the Turkish forts on the left bank of the Bosphorus on Wednesday. Several Russian shells fell within about ten miles of Constantinople.

### Scene of Land Battles and Generals Fighting

GENERAL IAN HAMILTON GENERAL D'AMADE

This is the scene of the land battles for possession of the Gallipoli Peninsula between the Turks on one side and the allies on the other, backed up by 100 warships. The allies sometime ago landed troops on the Asiatic side of the Dardanelles under the command of General D'Amade. The Turks now claim he has been driven off. At least their reports positively state there is no allied force on the Asiatic side. But General Hamilton landed just the other day on the peninsula and the heavy fighting has been at Gaba Tepe some ten miles north of the point of the peninsula. The Turks claim to have driven most of the troops back, but their story has been discredited. It is believed that General Hamilton has many men and is fighting his way north.

GENERAL IAN HAMILTON GENERAL D'AMADE

It is his purpose to attack the forts, which the battleships have been unable to batter down, from the rear. He believes he can overpower the garrisons and thus clear the way to Constantinople.

### Death Toll of Wind Storm in Mississippi and Louisiana Is 21

New Orleans, May 7.—The death toll of the wind storms which devastated Acadia Parish, in Southwestern Louisiana, and Coahoma county in Northwestern Mississippi yesterday, to-day stood at 21. All but one were negroes. Fifteen were killed at Egan and Mermentau, in Acadia Parish, and six near Clarkdale and Jonestown, Miss.

Forty-five more persons are known to have been injured.

### PRINCETON ALUMNI MEETS

Kansas City, Mo., May 7.—Delegates and visitors to the sixteenth annual meeting of the Western Association of Princeton Clubs, began arriving here to-day and will spend to-night and to-morrow reviewing college days and enjoying the entertainment arranged for them. Alumni from all points west of Pittsburgh, Pa., are in attendance.

### TRAFFIC IS INCREASING

Washington, May 7.—Traffic through the Panama Canal during March was considerably greater than for any preceding month. A total of 134 seagoing vessels passed, carrying 635,057 tons of cargo.

# LOVE STANDS OUT AS SUN OF LIFE

## Friendship Is the Bright Star, Declares Ella Wheeler Wilcox

BY ELLA WHEELER WILCOX

(Copyright, 1915, by Star Company)  
Love stands alone in the solar system of the affections like the sun, unmeted and incomparable. From it all other emotions derive their worth, yet they must not expect to imitate its light, warmth or power.

Our friendships are the stars next in magnitude to the orb of light. There can be but one true love, as there is but one sun visible to the earth. But there may be as many orders of friendship as there are varieties of stars in the firmament, though few, to be sure, of the first magnitude.

A great nature can enjoy and be loyal to a great number of friends. It is time to do away with that old idea, ground in human selfishness, that a man should have but one friend. Study the persons who are fond of proclaiming, "I care but for a few people," and you will find them at the core selfish, narrow and unsympathetic. The broad-gauged and noble-hearted man goes out spontaneously to his fellow beings and offers affection and loyalty to many. He attracts as many true friends as his varied characteristics render him capable of enjoying.

authors because I revel in the poets. There are moods when the humorist cheers and entertains me and again I need the philosopher, and all are equally admired and esteemed by me, and there is no one I could spare. I once heard a person say, "I love my friends so intensely I am jealous of any ray of light that falls upon their paths, save through me." This is not friendship. It is self-worship, self-aggrandizement—self to the core. Distrust any act of kindness shown you by such a friend. It is done, not to give you happiness, but to win your gratitude. The real friend never thinks of gratitude, though he would be hurt by your ingratitude. But he would as soon bestow a favor unknown to you, and he rejoices to see you benefited by others, and takes pleasure in anything which helps you no matter how remote it may be from his own interests.

Old friends endeared by years of memories are best. Yet I have no outgoings so intensely I am jealous of any ray of light that falls upon their paths, save through me. I have found me sufficient for him when we both studied simple fractions together, but if he has passed into higher mathematics I have no right to complain if he no longer enjoys singing the multiplication table to the air of "Yankee Doodle" with me as in our early school days. I had better blame myself for not making at least sufficient progress to appreciate him, even if I can not enter into full sympathy with his higher development. If I am worthy the name of a true "old friend," I will rejoice to see him speed on and up even if our paths of necessity diverge.

Not long ago I heard a thinking woman say that she could forgive the sin of commission in a friend far sooner than a sin of omission. "An unkind act or word may spring from a hasty temper or a mistake of judgment, but the friend who sits still and silent while a defender of a mentor commits an unpardonable sin," she said, and said truly.

### A NON-ALCOHOLIC TONIC

Many people need a tonic at this time of year, old folks, weak folks, thin people, people who are run down from too much work—and vacation still many weeks away. Nervous people also need a tonic but cannot safely take alcohol.

A non-alcoholic tonic that will build up the blood and strengthen the nerves is what most people need and Dr. Williams' Pink Pills are exactly that. The one symptom of thin blood that everybody recognizes is pallor. It shows so gradually that other people are liable to notice it before you do. But it is important that you should notice and heed the warning because the thin blood that causes the pallor betrays some drain on the body or some poisoning by its own waste materials that, if not corrected, will result in physical breakdown and ill health.

# Quality Counts

We know that shoes of quality are the kind that build business for us, because they are the kind that please you. When we please you, we please ourselves, because our first consideration always is our customers' satisfaction. Try our quality shoes.

# Suppose We Pared These Tires

Suppose this All-Weather tread—now double-thick—was pared to the thinness of the usual anti-skid. Would it endure like this one? Or so resist puncture?

Suppose we used—as some do—one less fabric ply. Or made the whole tire lighter. Suppose we omitted our exclusive features:

- Our No-Rim-Cut feature—
- Our "On-Air" cure—
- Our rubber rivets—
- Our 126-piano-wire base.

All rivals do omit them. All of them are costly. Our "On-Air" cure alone costs us \$450,000 yearly to save needless blowouts. But could Goodyear Fortified Tires retain top place if we did not give those extras?

Cost Added Lowered

We spend on experts \$100,000 yearly to seek out new improvements. Our All-Weather tread—always double-thick—is made still thicker in some sizes. Our Inner Tubes have been thickened 14 per cent on the average.

Our fabric has been strengthened. Yet on February 1st we made our third big price reduction in two years, bringing the total to 45 per cent. Now you are getting in Goodyear Fortified Tires the best value ever known in tire making.

It is due to yourself that you this year join this army of contented tire users. It is by far the largest army in Tiredom. Any dealer will supply you. (2331)

# Evolutionary Racial Struggle Latest Cause of Great European War

By Associated Press  
London, May 7.—Dr. William Ridgeway, professor of archaeology at Cambridge University in an address last night before the Eugenic Society declared the present war resulted from evolutionary racial struggles. "Hard facts seen from scientific viewpoint," said Dr. Ridgeway, "indicate that the present war is only of a long series and that each new struggle will be more serious. The earth's waste places are getting filled up and these wars are part of evolutionary racial struggles for existence and are not the result of mere kingly ambitions."

**BANKRUPTCY PETITION FILED**  
Charleston, W. Va., May 7.—A petition in involuntary bankruptcy was filed here to-day for the New River and Ohio Coal Company. The company's liabilities are estimated at \$285,000 with assets approximating \$116,000.
