AMERICANS AGAIN IN DANGER OF ATTACK

Armenians Appear to Be Weakened Following Fierce Resistance

Tiflis, via London, May 10, 3:58 a. m.—American missionaries in the Vilayet of Van, where the Armenians appear to be weakening after a fierce resistance against attacking Turks and Kurds, are reported in grave danger.

The American missions are located in the eastern suburbs of the Vilayet, where for fourteen days the Armenians have been standing off their besiegers. Eleven hundred Armenian boys and girls and thirty American citizens have taken refuge in this quarter of the town.

The Turks have fired 17,000 shells upon the defenders in the fighting of the last two days.

Mr. and Mrs. Robert M. Labaree, missionaries to Turkey, who are widely known here, were formerly located near the Vilayet of Van. They are now at Tabriz. Mrs. Labaree is the daughter of Samuel W. Fleming.

Andrew Lukens' Son Questions Probate of an Earlier Will

Just a few days before his death last month Andrew Nelson Lukens made a new will and after having had it witnessed by Alderman A. M. Landis and a North Third street tailor deposited the instrument in the latter's safe. By this will Lukens left his whole estate to his son, Frank S., and named the beneficiary as executor. The will was dated April 9, 1915.

One week ago the Harrisburg Trust Company offered for probate a will written by Lukens and dated April 20, 1907, with a codicil dated August 11.

To-day the legate under the later will, through his counsel, District Attorney Stroup, asked the Dauphin County Court for a citation appealing from the register's action in probating the earlier will. The action is an amicable one.

CORPORATIONS FAVORED

Washington, May 10.—Labor and the Law was the topic to-day before the industrial relations committee, with Chief Justice Walter Clark, of the North Carolina Supreme Court, the first witness. He will be followed by other judges, lawyers and leaders of industry world. Courts, Justice Clark thought, were inclined to favor corporations in litigation with a poor man.

American Who Lost His Life on Gulfight

CHARLES C. SHORT

Charles C. Short of Chicago was wireless operator of the Gulfight, the American ship which was sunk off the Selly Islands by a submarine, supposed to be of the German navy. Short was 22 years old. This was his first voyage on the vessel.

"I am going to write a letter to President Wilson and Secretary Bryan demanding an American mother that the German government be compelled to make reparation for my son's life," said Mrs. Lottie E. Short, mother of the operator, in her cottage at No. 708 West One Hundred and Third street, Chicago.

"Can this government do nothing to protect its people?" she wept. "We are not at war. My son was a wireless operator and had a promising future. He was my oldest boy."

Mrs. Short broke down. She has three younger children, Phillis, 14; Bertha, 11; and Fred, 7. Her older daughter, Marie, 29, was at the time in a nearby telephone exchange, and Robert, 18, also was at work.

Determined not to lose her diamonds, Mrs. William S. Snoddy, 418 South Cameron street, in her nightclothes chased a burglar up the street at 3 o'clock this morning.

Subsequently it was learned that a colored man answering a similar description had previously visited the home of Edward Forsythe, 422 South Cameron street, and got away with three rings and \$2 which were on a bureau in Mrs. Forsythe's room. The police were notified and Patrolmen Graham and Fagan gave chase, but the burglar got away. Detective Ibach is on the case.

EATING BETWEEN MEALS

Do you know that the stomach needs rest regularly and that eating between meals is a common cause of indigestion?

Do you know what happens when you eat irregularly? Do you know what relation biliousness has to over-eating?

Do you know that when the blood gets thin the digestion becomes weak, that good digestion implies a good blood, and that the blood is rich and red, such blood as comes from the use of Dr. Williams' Pink Pills?

These tonic pills and proper care in the diet will change dyspeptic, despondent, dragged-out people into energetic, hungry, cheerful men and women because Dr. Williams' Pink Pills build up the blood, making the stomach able to secrete the needed digestive fluids, and strengthen the nerves that control the delicate processes of digestion.

After you begin taking Dr. Williams' Pink Pills the first sign of returning health is usually an increased appetite. Then you find that what you eat causes no distress and that you exercise a reasonable amount of care in eating. In a few moments your fermentation food of your food you will have no more trouble.

Your own druggist sells Dr. Williams' Pink Pills and a diet book called "What to Eat and How to Eat" will be sent free on request by the Dr. Williams Medicine Co., Schenectady, N. Y.—Advertisement.

Stomach Troubles Due to Acidity

SO SAYS EMINENT SPECIALIST.

So-called stomach troubles, such as indigestion, wind, and stomach-ache are in many cases due to acidity. The evidence that fermentation is taking place in the food contents of the stomach can be shown by the presence of acids. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, which is acid irritation and inflames the delicate lining of the stomach. The trouble lies entirely in the fermentation of food. Such fermentation is unnatural, and acid formation is not only unnatural, but may do more serious consequences if not corrected. To stop or prevent fermentation of the food contents of the stomach and to neutralize the acid, and render it bland and harmless, a teaspoonful of bisaturated magnesia, probably the most effective corrector of acid stomach known, should be taken in a quarter of a glass of hot or cold water immediately after eating. Whenever wind or acidity is felt, this stops the fermentation, and neutralizes the acidity. In a few moments the fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper antacid, such as bisaturated magnesia, which can be obtained from any druggist and that enables the stomach to do its work properly without being hindered by poisonous gas and dangerous acids.—Advertisement.

RABBI SILVER HAS TIME GETTING HOME

Had to Disguise Himself; in War-torn Countries a Year

Hundreds of Harrisburg Hebrews gathered yesterday to welcome the Rev. Louis Silver, Rabbi of the Keshet Israel congregation, home from Europe where he spent the last year with his parents in the town of Dusheat, province of Kovno. Much of his time was spent in ministering to the wants and needs of those in the war-stricken districts of Polish Russia.

Rabbi Silver yesterday told of his difficulties in getting out of the country. He was forced to disguise himself before he could get a passport because the Russians are retaining all men of fighting age even though they are naturalized American citizens. He did get the passport but was compelled to travel by ox cart to Petrograd, then cross the Baltic in a little steamer. He reached Sweden, then traveled by rail to Christiania, Norway, where he succeeded in securing passage to this country on a Danish boat.

When the war broke out, Rabbi Silver was in Russia. He said the Jews rallied at the first call and that there are now nearly a half million of them fighting in the Russian army. Later he was in the devastated portions of Poland where 200 towns and villages were destroyed during the first German invasion.

Rabbi Silver is preparing reports of his travels to be presented at the meeting of the association of Orthodox Jewish Rabbis in New York, next week. He left this country about one year ago, intending to return last October but was unable to get out because of the war.
