The possibility of a final Austro-German victory in Galicia as a result of the advance from Cracow is said by the war office at Petrograd to have been eliminated. The Russians, strong ly reinforced, are now occupying advantageous positions, the war office states, and are preparing to seek revenge. The German victory is attributed to the concentration of more than 150,000 of the finest German troops along a short front in the neighborhood of Krosno for the sudden blow struck at the Russian line.

Philadelphia, May 13.—The Liberty Bell is doomed. Its structure is so weakened by disease that should any unusual strain be put upon it on its trip to the coast it may separate into two parts, despite the reinforcement afforded by the interior bracing device. The bell will ultimately break in any case, due to the faulty composition of the metal. Yet if it is left unmoved there is every reaso nto believe that the "spider" will suffice to hold its broken parts together.

Such is he diagnosis of Alexander E. Outerbridge, Jr., expert metallurgist, in a letter to Mrs. W. H. Sterling, member of the Liberty bell committee of the Daughters of the American Revolution.

GERMAN EMBASSY WILL ISSUE NO MORE WARNINGS TO AMERICAN TRAVELERS

By Associated Press

Washington, May 13.—The German embassy last night notified by letter and telegraph newspapers in all of the larger cities of the United States to discontinue the publication of its advertisement warning Americans against trans-Atlantic travel on belligerent ships.

Officials of the German embassy not only considered that the advertisements already published had had the effect of giving sufficient warning, but deemed it inadvisable to continue the advertisement in view of the existing situation following the sinking of the Lusitania. This advertisement which appeared twice was to have been published for the third time next Saturday. On its first appearance the advertisement was printed in some papers on the same page with the approaching sailing of the Lusitania.

Action of Governor Wallis May Provides For Half Pay Pensions After Twenty Years' Service; Other Measures Passed

Legislators were much interested in the news from Ohio that Governor Frank B. Willis had vetoed the bill to permit Ohio counties to issue bonds for the building of the Lake Erie and Ohio River Ship Canal. A similar measure was forced through the House Tuesday and is now before Governor Brumbaugh. Even the men who voted for the legislation say that they cannot see how Mr. Brumbaugh can approve the bills since Ohio has rejected the proposition.

Governor Willis, in his veto, says it is unwise to issue bonds without limitations. He says obligations could be incurred in the moment of entusiasm which will be supposed the says of the taxpayers. The Senate bill to establish a State employes' retirement system was passed finally in the House to-day and goes to the Governor. The bill will affect seventeen men in State service. It provides that employes of twenty years' service may be retired on half pay excepting those whose retirement has been otherwise arranged by law. Reparation For Violation of American Rights Demanded; Text Will Be Made Public in Capital Tonight; German Embassy States It Has Given No Intimation as to the Kaiser's Stand and Has Expressed No Opinion on American Note; Official Washington Anxiously Awaits Publication of Text

By Associated Press

Washington, May 13.—President Wilson's note to Germany on the sinking of the Lusitania, will be given out in Washington this evening for publication in morning papers to-morrow. Secretary Bryan announced to-day that it is between 1,200 and 1,500 words long.

In announcing the decision to publish the note to-morrow morning, Secretary Bryan said he expected it would be transmitted to Germany in time for delivery to the German Foreign Office early to-morrow. Actual transmission by cable and through Rome and Vienna, he said, would occur late to-day.

Numerous communications, the secretary said, have reached betate Department from citizens on the attitude the government should take.

"The advice offered in these communications," said the secretary, "differs, but all conclude with expressions of support of the President of the United States,"

President Wilson during the forenoon to-day put the finishing touches
on the note demanding guarantees
that attacks on merchantmen carrying noncombatants shall end and for
reparation for violations of American
rights in the war zone.

Few changes are believed to have
been made in the document, the main
principles as outlined to the cabinet
on Tuesday being maintained. While
couched in friendly terms, it is firm.

It does not say what steps will be
taken or what course will be persued in the event of an unfavorable

reply but indicated that the United
States will spare no pains either by
diplomatic representations or otherwise to obtain an acquiescence in its
nostiton.
