

THE WONDER

211 Market Street

He passed our window and he read the sign—

Wonder Clothes

Always---\$10---Always

Just the suit I like—looks good to me—but it is too cheap—I'm kind o' "skeered"—

And he passed on

He went further and he fared worse.

Ever hear of that before?

He went further—paid \$25—and felt satisfied—

Until—

A few months later.

Met a friend of his and exchanged greetings.

Pretty suit you are wearing—where dyegetit?

"Tell you the truth, John—I bought it at the Wonder six months ago—looks good yet, doesn't it—struck a bargain for once in my life.

"What's matter, John—you look sick—feeling bad?"

"Naw!"

And the rest isn't fit for publication.

No More \$10 No More
No Less \$10 No Less

The Wonder

211 Market Street

TWO THIRD CLASS CITY BILLS SIGNED

Mayoralty and Councilman Candidates Getting 51 Per Cent. Primary Vote Elected

Governor Brumbaugh to-day approved the Senate bill amending the third class city law so that when a candidate for mayor receives fifty-one per cent. of the vote cast at the primary he shall be the sole nominee unless defeated by a candidate whose name shall be inserted by stickers. The bill provides that when a candidate for council shall receive fifty-one per cent. of the vote his name shall be printed at the head of the group on the ballot and he shall be held to be elected unless defeated by a candidate whose name shall be inserted by stickers or written on the ballot.

This Governor also approved these Senate bills:

Amending third class city law so that a city may be erected out of two or more boroughs or townships in two or more contiguous counties. This would enable Bethlehem and South Bethlehem to consolidate into a city.

Authorizing companies incorporated in other States to erect buildings and hold real estate for manufacturing purposes.

Regulating appeals from auditors reports in second, third and fourth class school districts.

Regulating holes for blasting in soft coal mines.

Authorizing A. K. Cassel, former special agent of the dairy and food division, to sue the State for money alleged to be due for services.

These House bills were approved:

Validating contracts of foreign corporations made prior to the act of 1911 regulating business of such corporations.

Fixing salaries of jury commissioners, jailor and jail physician in Allegheny.

Amending juvenile court act of 1903 so that court may order medical or surgical attention for children at expense of county.

Permitting persons appointed to fill vacancies in office of township treasurer to be elected to succeed themselves.

Authorizing auditor general to designate clerks to do such official acts as he may desire in conduct of business of department.

Extending powers of second class cities to regulate business of wholesalers and to conduct investigations.

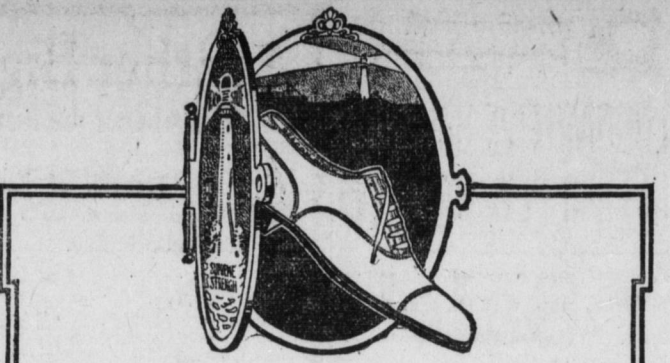

Three Bills Vetted

Three bills were vetted by Governor Brumbaugh to-day:

The Habgood House bill making an act of years practice eligible to election as district attorney was disapproved with these words: "A district attorney is a very important agent. His duties vitally affect the welfare of the people. It is a questionable matter to intrust to one having such slight contact by experience with the machinery of justice to hold an office so important. To lessen the qualifications for this office is a step backward which it is unwise to take."

The act to amend the act relating to appeals from assessments for taxation was vetoed because it "would work no good to the people."

The Schantz Senate bill extending terms of the act relating to two days approved because the Governor sees no reason why there should be a change as the solicitors are elected by the people and the whole matter properly within the control of council."

"Best Pair of Shoes I Ever Wore"

We hear that over and over again.

BEACON SHOES

It's all right to feel well fitted when you first put on a new pair of shoes. But when you have done your best to wear them out it's better yet to realize you have had your money's worth.

ONE KILLED, 2 INJURED IN AUTO ACCIDENT

received in an accident at the plant of the Pennsylvania Steel company.

Left Steelton Late

The three men left Steelton late in the evening for a trip to Dauphin. They stopped there for a while and then started on their homeward journey down through the Dauphin narrows.

Coroner Eckinger says the survivors of the wreck were frank to admit that they were traveling at a high rate of speed. He believes Chambers realized he was going too fast to take the sharp "S" turn at the lower end of the narrows and decided to take chances on the fence. The fence is made of heavy ties and planks and was built by the Northern Central Railway.

Chambers and Carlson landed in a recently dug garden. Erbe was not so fortunate.

So great was the speed of the machine that it crashed completely through the heavy planking and continued zigzagging through a garden until it rammed against a fence. It was badly battered. In going through the fence the radiator and front fenders nosed a plank up on top of the hood. The heavy piece of timber stripped the windshield and top from the machine and smashed the top of the steering wheel. Had the men been in the machine they would have undoubtedly been crushed.

Erbe died less than two hours after he was admitted to the hospital. He was conscious until his death. Carlson, after having several slight lacerations treated, left the hospital for home. This afternoon he was brought back and physicians fear he has severe internal injuries.

Coroner Eckinger will not hold an inquest until Chambers and Carlson are able to leave the hospital.

Not True That Driver Was Unlicensed, Thinks Coroner Eckinger

A report current in Steelton this morning to the effect that Lawrence Chambers, the driver of the car, was operating without a driver's license

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble that which causes all the pain and difficulty, lies in excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost instantaneously by those foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent. of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bluestone magnesia, which is doubtless the best and only really effective antacid and food corrector known. As it has been found that many people are utterly lacking in these valuable properties—E. J. G. Advertisement.

DEMONSTRATIONS FOR WAR MADE IN ROME

The Russians to rout and capturing vast numbers of prisoners.

The furious attack of the French along the section of the front just south of the Belgian border is said to have resulted in a further advance. The official statement from Paris announces the capture of several German trenches near Souchez.

Rain interfered with the fighting yesterday and apparently the movements were less important than on the preceding day, when both the Paris and Berlin communications chronicled successes for the allies. To-day's French announcement states that the German position recently won north of Arras has been maintained.

President's Note Causes Disturbance in Market

By Associated Press

New York, May 14.—President Wilson's note to Germany overshadowed all other considerations and developments in the stock market today. Its possible effect was not altogether apparent at the outset, prices yielding only slightly, except in the so-called war shares and similar specialties which yielded a point.

Later, however, the entire list became unsettled. Standard Railway as well as other dividend paying stocks losing 1 to 2 points.

As the session progressed war shares continued to weaken, Bethlehem Steel and New York Air Brake losing 3 to almost 5 points. Motor stocks were correspondingly lower.

Thousands of Men Buried on Ascension Thursday

By Associated Press

London, May 14.—The week of battle now drawing to a close left both sides exhausted and breathless, says the Daily News correspondent in the North of France. "To-day, Ascension Day," he telephones, "we are burying our thousands and the Germans perhaps their tens of thousands. The fury of the fighting has been unbelievable and the death toll is appalling, but our line is established firmly."

VON MUECKE AND MEMBERS OF EMDEN'S CREW REWARDED

By Associated Press

Damascus, Syria, via London, May 14, 9.55 A. M.—Lieutenant von Muecke and a landing party from the German cruiser Emden which escaped when their ship was sunk in the Indian Ocean on November 16, have arrived here after six months of adventurous wandering. There are fifty men in the party.

"Have I won the iron cross?" was the first question asked by Lieutenant von Muecke.

He and the sailors in his command were delighted when told they were regarded in Germany as heroes and all have been awarded the coveted cross. The lieutenant declared all he wanted now was to get a command in the North Sea.

LEADING PRAISED BY LEADING NEWSPAPERS

[Continued from First Page.]

the seas. It recalls Germany's contention for that liberty. x x x The President has spoken firmly to the country supporting him and to the world without passion the German reply.

New York Press — Into the end of his note Berlin President Wilson has put some teeth, and not too many at that—into the end because the first of it is filled with those graceful but empty rhetorical phrases which the German press has used to belittle the Americans no less than they exulted in the derision of the Berlin militarists.

New York American — The President's letter is undeniably vigorous, but it is possibly too vigorous as well. The nation desired that its rightful demands should be laid before the German government, but it did not anticipate that the President would go so far beyond that point and soundly right the scope of those demands as to invite a rebuff.

Springfield (Mass.) Republican — The government's position in this case is the only one which is not extreme, yet it covers the ground.

Buffalo (N. Y.) Express — There minded men of every party will approve the tone and tenor. The clearness of the demerit without any presentation is made can satisfy the most rigid Americanism that views large affairs sanely. It seems to meet every requirement of American patriotism and honor.

Buffalo (N. Y.) Express — There has been no backdown. Let the people's response go out from every corner of the land. We are all Americans.

Albany (N. Y.) Argus — Dignified in its tone, logical in its argument and conclusions, firm in its demands, the United States note to Germany reflects the poise of President Woodrow Wilson under most trying circumstances.

Albany (N. Y.) Knickerbocker Press — The note placed the issue squarely before Germany for action and any announcement of future policy government, particularly a policy to see war with Germany, is a reflection on the President's wisdom.

Columbus (Ohio) State Journal — How Germany will promise to protect the lives and property of our people in the future, or in what manner this country will receive her refusal, remains to be seen. It is a grave alternative, and while it is not likely to result in war, it will bring about an end to our relations with Germany that will be full of anxiety.

Louisville (Ky.) Anzeiger — We agree with the President that the German government must explain the loss of life and property of our citizens, but we do not think that the death of Americans gives the President the right to demand the cessation of Germany's underhand warfare against Great Britain, commerce so long as England does not abrogate its starvation warfare.

Chicago (Ills.) Tribune — Whatever the fate of our relations with Germany the President undoubtedly has voiced the sentiment of the nation upon the use of the submarine and as to the rights of neutrals on the high seas.

Chicago (Ills.) Herald — There is now no possibility of mistaking the position of our government. And it is a position in which the American people will sustain their government in whatever measures may be necessary to uphold it.

Indianapolis (Ind.) Star — In many a fashion the President's note does not shrink from the logical consequences of his position, but accepts the full significance of his attitude.

St. Paul (Minn.) Pioneer Press — The American note reached to a wonderful height of forceful diplomacy. Hoping for the best, the universal American sentiment will be that America has done its duty and the people will support the President through whatever may be the consequences.

Springfield (Ill.) State Journal — It is the dignified protest of a nation, which, while feeling that its rights and the rights of other neutrals have been violated, is neither vindictive nor resentful.

St. Louis (Mo.) Die Westliche Post — For the press of the whole country, there is at present but one sacred duty to leave nothing undone to avert inner strife. That we Americans of German descent with a bleeding heart contemplate the possibility of an armed conflict between the United States and the land of our forefathers, is the complaint of Germany and the United States for, there still is hope for an honorable understanding on both sides. May Providence grant that the worst be averted.

Cincinnati (Ohio) Volksblatt — The note is disappointing in that it disregards the complaints of Germany and appears to espouse the cause of Great Britain. We think that the difficulty admits of a satisfactory solution by advising American citizens to travel on American vessels. Unwillingly the President shelters British cowardice, which tries to make British ships immune to German attacks by taking American passengers on board.

Cincinnati (Ohio) Free Press — The part of the note dealing with the loss of lives in the Lusitania catastrophe more properly ought to have been directed to the Kaiser's government. It is responsible for the Lusitania's destruction through her brutal threat to starve a nation. Germany cannot stop the under sea war without surrendering to a brutal enemy. We are not obliged and have no right to set up ourselves as the protectors of British shipping.

Cincinnati (Ohio) Commercial Tribune — The strength of a just man armed is apparent in the protest sent by President Wilson. Devoid of truculence, breathing the highest ideal of international justice, this remarkable paper freighted with momentous possibilities, brushes aside all formalities and is frank and in unmistakable language tells the Kaiser's government that the American people think of the series of incidents leading up to the slaughter of innocents on board the Lusitania.

Washington (D. C.) Post — The note is framed in moderate language and leaves abundant opportunity for the German government to reply in a way that will restore good feeling between the two countries. The question is now up to Germany. It is unnecessary to speculate whether the American note will lead to war or peace, because the issue rests with Germany. The alternative is clearly set forth.

Boston (Mass.) Globe — President Wilson has not shirked a grave responsibility. The American note clearly shows that Germany must relent or take whatever consequences we may decide to adopt.

Boston (Mass.) Herald — President Wilson has never written a great state paper more exactly suited to the occasion. We hope most fervently that in a spirit of reasonableness Germany will coincide with the enlightened position set forth with clarity and power by the President.

Boston (Mass.) Journal — President Wilson's words are those of a patriot. We cannot believe that a nation which is bound by so many ties of friendship to this nation is so far possessed by war madness that she will fail to heed the message.

Boston (Mass.) Post — The note is all that such a message from a justly aggrieved nation to an aggressor nation should be. In it is the voice of the American people at its finest and best. It is a powerful appeal to German sanity.

Philadelphia (Pa.) Public Ledger — The administration has spoken and spoken to the point. The German government cannot have the slightest doubt as to its meaning. Will Ger-

ENTRANCE OF U. S. INTO WAR UP TO KAISER

[Continued from First Page.]

many listen to the voice of prudence before it is too late?

Philadelphia (Pa.) Inquirer — We have not always agreed with the President of the United States, but when it comes to a question of the nation's honor, the President must be upheld. The note is written deliberately and coolly. There is not a word spoken in haste.

Springfield (Mass.) Union — Nobody, not even the most punctilious German sympathizer, can assert that the note is intemperate, granted that its premises and logic are sound, and we do not see how they can be controverted.

Philadelphia (Pa.) Record — The note is in every respect a masterpiece of diplomacy. It puts the German government squarely in the position of choosing whether it will obey the dictates of conscience, reason and humanity, and retain the friendship of the United States or accept the stigma of an outlaw nation and deliberately provoke a new quarrel.

Chicago (Ill.) News — Every one who reads the note should bear in mind that the cause represented by the authorities in Washington is not alone the cause of Americans and of neutrals. It is the cause of civilization. The ruinous doctrine that international law is whatever a belligerent power chooses to make it had to be challenged in unmistakable terms. The note is admirable in spirit and in substance.

Baltimore (Md.) Sun — There is all the red blood in the message that the voice of a statesman speaking the mind of a great people most anxious not to break the peace, but determined not to tolerate further wrong.

Baltimore (Md.) American — It has evaded nothing; it has intimated nothing and it shows no spirit of trucking. Germany must now either concede the position of this country or stand out-laws before the world.

Chicago (Ill.) Post — The President strips the issue between the United States and Germany down to this fundamental: If the submarine and international law conflict, the submarine law must yield. This is an absolute negation of "necessity knows no law." It is necessary that we know law.

Kansas City (Mo.) Star — President Wilson has said what was in the hearts of his countrymen. His words embody the idealism of the American people and the obligation to maintain the principles of high humanity which the feel has devolved upon them in a world in which some of the hard won gains of civilization have been submerged by the passions of war.

TELLS OF INDIANS HERE 200 YEARS AGO

Relates Weiser's Opposition to Supplying Firewater to the Redskins

Using old records and history to secure his information, Dr. Harvey B. Bashore in an address before the members of the Dauphin County Historical society last evening, gave an interesting account of the Indian history of Harrisburg of almost two hundred years ago.

In his account last evening Dr. Bashore pointed out particularly the fact that in this vicinity many conferences were held between the Indians and the Indian agents, one of the most prominent of these being Conrad Weiser. In mentioning this man he gave an account of Weiser's strong opposition to giving rum to the Indians based on the fact that so many of the chiefs were against it. Weiser in his official report stated that "death without judge or jury is the proper treatment for any man who carries rum to an Indian town. It is an abomination before God and man and is altogether hurtful to the public."

Dr. Bashore then told of Half King, the great chief of the Western Indians who came here and died at the home of John Harris.

Theodore B. Klein presided at the meeting. The following gifts were accepted on behalf of the society: From Mrs. R. A. Lamberton a desk and chair used in the constitutional convention of 1873 by the late Dr. R. A. Lamberton, some specimens of continental paper, a biographical sketch of Conrad Weiser, a book of clippings from literary publications of 1835; from Miss Annie McClure a framed picture of old Paxon Church.

Mr. Klein read an obituary address in memory of the late Mrs. Sarah Eldred McClure. F. Ueberger was elected a member of the society.

Mrs. Whitman to Throw Ball at Suffrage Game

Governor and Mrs. Whitman have been invited to be the guests of honor of the suffragists at the baseball game on May 18 at the Polo Grounds, when the suffrage cause will share the gate receipts from the game between the Giants and the Cubs. Mrs. Norman de R. Whitehouse, chairman of the baseball committee, asked Governor Whitman to toss the ball into the field and open the game, but the Governor, who is not certain of being present, has delegated this part of the program to Mrs. Whitman, who consented.

DROP BOMBS ON FISHING BOAT

London, May 14, 11.02 A. M.—A Reuter dispatch from Ymuden says the Dutch trawler Scragvenhage reports that a Taube aeroplane, coming from the west, dropped three bombs at the fishing boat on Wednesday in spite of the fact that she was flying the Dutch flag. The bombs fell into the sea, where they exploded.

It is no wonder that a woman with a well developed bust and pretty neck and shoulders is always the center of admiration when the great majority of the people are so thin, flat chested and scrawny. It is silly for a woman to allow false pride to keep her from enjoying to the full the charms of perfect womanhood when it may so easily be obtained by a process that will positively do away with the general health. It does not matter how thin or flat chested a woman may be if she is over 15 years of age, or under 50, she can have a bust that will be the envy of all her sex. All that is necessary for her to do is to drink plenty of fresh water and get from any good druggist a little Salton's in tablet form and take one tablet after each meal and one before retiring at night. This is the simplest, safest and most reliable method known to science. It acts quickly, gives a natural development and makes the bust firm and beautiful, also gives even the most scraggy woman a pretty and attractive neck and shoulders. It is a fine tonic, too, and will do wonders for anyone who is run-down or undeveloped. Advertisement.

TO DEVELOP THE BUST
