## SWAT FIRST CROP OF THE TYPHOID FLY

### Dr. Raunick Has "Ten Commandments" For Slaughter of Disease Carriers

Special stress is placed on the importance of "swatting" the typhoid fly and guarding milk from possible contamination in the second number of the monthly health bulletin issued by the City Bureau of Health and Sanitation under the direction of Dr. J. M. J. Raunick.

The bulletin contains the warning that the first crop of new typhoid flies is now arriving and that every effort should be made to kill them, and blot out their breeding places. "Clean-up" week is reported to have resulted in an almost total extermination of breeding places.

That the quality of milk being served in the city is of the highest order is demonstrated by the fact that of hundreds of samples last month not one sample was below the standard.

Disease during April has been on the decrease. One hundred and thirty-eight cases were reported, compared to 244 last year. Epidemic typhoid, heart trouble leads the list with 6 and 15 deaths, respectively. Ninety-six deaths were reported.

In the bulletin are found a list of typhoid fly commandments, a recipe for effective fly-killing, and a list of market pointers, written by Dr. Raunick.

#### Typhoid Fly Commandments

"Kill the typhoid fly the instant he appears.

"Treat outdoor privy vaults and manure piles with borax, chloride of lime or rock phosphate.

"Keep all garbage covered.

"Remove manure and garbage at least once a week.

"Keep all food covered.

"Keep the baby screened from typhoid flies.

"Keep all windows and doors screened.

"Kill or trap by any means you know.

"Eat no food that typhoid flies have walked on.

"Buy no food from a store, stand or wagon where typhoid flies are thick.

"Dr. L. O. Howard, United States Government expert, says that the typhoid fly is an efficient breeding rapidly in manure and to prevent the eggs of flies from hatching, in manure, treat it with borax as follows:

"Prepare a borax solution by adding ten ounces of borax to ten gallons of water, for every eight inches of manure to be treated. Spread the manure in thin layers and sprinkle the borax solution thoroughly over each layer.

#### Market Pointers

"Don't handle or taste foods belonging to other people—it frequently spoils the sale of the article.

"Note the following in buying fresh fish:

"They should sink in water.

"Scales should be firmly attached and free from slime.

"Eyes should be prominent—standing out.

"Gills should be bright red—bloody.

"Mouth and gill lids should be closed.

"Body—solid, does not bend when placed horizontally on hand.

"Meat—Firm and elastic, tight on bones.

#### Paris Newspapers Praise President Wilson's Stand

Paris, May 14.—The unofficial version of President Wilson's note to Germany is highly praised by this morning's papers. It shows, says the Figaro, that the United States is over and Germany must give formal guarantees that she will not permit similar crimes in future. If she breaks these promises America will proceed to act. The United States, perhaps, will not go as far as war for it will not be necessary. It is possible the United States may take the initiative in the organization of a defensive league of neutrals which will transfer the passive neutrality of nonbelligerents into active neutrality which will manifest itself, to begin with, by an absolute and complete boycott of Germany which will definitely place her beyond the pale of civilization. We can, in any case, be sure the United States will exact full and entire satisfaction.

#### Direct Testimony of Barnes Ends; Denies Roosevelt Statements

Syracuse, N. Y., May 14.—William Barnes concluded his direct testimony in the Supreme Court here to-day by denying his organization policies, denying parts of the testimony of Theodore Roosevelt and Loyal W. France and contradicting William Loeb. He declared that the Colonel reproached him when in 1910 he did not vote for the former President as temporary chairman of the state convention. He answered many questions designed, his counsel said, to show the "dominance of the defendant" in the Republican party.

#### PAYS PENALTY FOR CRIME

Wilmington, Del., May 14.—Peter Krakus, alias Melba, the slayer of Policeman Francis K. Tierney, this morning paid the penalty of his crime, when he was hanged in the yard at the New Castle county workhouse. The drop fell at 10:25 o'clock. He was pronounced dead 11 minutes later.

#### LORD DE FREYNE KILLED

London, May 14.—The death of the front of Lord D. Freyne and of his brother, the Hon. George Philip Freyne is announced. Lord D. Freyne came into the public eye in 1905, when, as Hon. #### AID FOR AMERICANS

#### DISCUSS SITUATION

Rome, via Paris, May 14.—The meeting of ministers yesterday afternoon was not, strictly speaking, a cabinet council, according to the Giornale D'Italia. The ministers met merely to discuss the situation created by popular agitation for war and to consider questions which will be discussed at the next formal meeting of the cabinet.

## LABOR DELEGATES OPPOSING MAUREL

### R. J. McGrath Is Running Strong Race For President of Federation; All Resolutions In

The big fight in the Pennsylvania Federation of Labor convention came late this afternoon in the election of officers. There were two candidates for president, James Maurer, of Reading, the present presiding officer, and R. J. McGrath, president of the Iron City Central Trades Council, of Pittsburgh.

There is also a spirited contest in the selection of candidates. The constitution provides for seven vice-presidents. Each district is permitted to name one candidate. Delegates from the respective districts met at noon to select their candidates. It was nearly 4 o'clock when the nominations were completed and the balloting started. The delegates agreed to remain in session until all business was completed. Scranton was favored for next year's convention.

Consideration of resolutions ended this morning. The proposed amendment to the constitution to elect State officers of the federation by a referendum vote was defeated. Resolutions adopted were: Recommending legislation compelling all walls to be scraped clean before repapering, offered by the local Painter's Union, endorsing the Brewery Workers' plan for organization of trades councils in the fight against prohibition, and urging legislation that will compel trolley companies to use vestibule cars.

## The Dream

Little Tillie Smith was a pretty little girl, much like hundreds of other pretty little girls in her town. She dreamed much the same kind of dreams.

In her mind's eye, she saw her future home, a sort of semi-fairy castle with the usual dark haired, broad shouldered hero in the foreground.

Tillie was not less desiring than others of such a reality, but in the practical course of a practical world, she married a practical young man of her "set."

By strict economy, in a few years they saw the essential part of their dream come true.

#### GERMAN DRIVE CHECKED

Petrograd, May 14, noon, via London, 1:55 p. m.—The Russians have fallen back upon strong strategic positions along the river San, which runs north and south through central Galicia. They now regard the German drive through west Galicia as having been checked permanently. The arrival of fresh Russian troops, which successfully engaged the German hanks, has relieved pressure upon the Russian center.

#### Italian Cabinet Resigns; Members Unable to Agree

Rome, May 14, via Paris, 2:33 P. M.—King Victor Emmanuel to-day received in the order named the following statement:

Signor Manfredi, president of the Senate; Signor Marcora, president of the Chamber of Deputies, and Signor Giolitti, a former premier, but now the leader of the party in Italy in favor of neutrality.

These are the first evidences of political development of the day, and they were observed with deep interest because of the resignation yesterday of the cabinet on the ground that it did not have the unanimous support of the constitutional parties of the country in its international policy.

#### INTENSE INTEREST IN NOTE IS DISPLAYED IN NEW YORK

New York, May 14.—Intense interest in the American government's note to Germany was shown here to-day by thousands of persons gathered before dawn outside the offices of the morning newspapers waiting for editions containing the text of the communication.

#### Germans and French Agree on Success of Joffre; British Active

London, May 14.—For the first time in the last six months the authors of the German and the French official announcements on the progress of hostilities find themselves in agreement. The German communication admits the truth of the more important of the claims made by General Joffre, the French commander-in-chief, as to the great successes won by the French between LaBassee and Arras.

If this attack can be pushed home the consequences will be still more marked, in the opinion of British military commentators, who are claiming to-day that a little further advance by the French will open a conspicuous gap in the German line, a development which will necessitate the falling back of the Germans on a wide front.

#### KING CONSTANTINE ILL

London, May 14.—An Athens dispatch to the Exchange Telegraph company stated that the illness of King Constantine is taking its normal course. Prayers for his recovery were offered to-day in all churches. His Majesty is said to be suffering from an attack of pleurisy which developed from a cold.

#### GERMAN SUBMARINE SUNK

Byth, Eng., May 14, 12:53 p. m.—A German submarine is reported to have been sunk in the North Sea. The captain of the steamer Collairne on reaching port to-day stated that his vessel apparently had destroyed the submarine by running it down off the Northumberland coast.

#### SERIOUS RIOTING IN MILAN
