#### PARK EXTENSION **BILL COMES OUT**

Carries the \$300,000 Provided Sproul Bill Reported Out With an and Will Be Sent Up to the Governor's Desk

Increase For the Maintenance

The Beidleman bill carrying \$300,000 for completion of the purchases required for extension of Capitol Park was reported out by the House appropriations committee yesterday afternoon at 5.30 o'clock and immediately passed first reading. It is not expected that there will be any further discussion of it and that it will be approved by the Governor, who is familiar with what the commission has done and the needs for the finishing up of the project, which has been so well handled.

The Beidleman bill carrying \$300,000 the Sproul bill carrying the money for construction and maintenance of the State's main highways, state aid and township roads for two years by the House appropriations committee, which reported the bill to the House last night. The bill carried \$8,500,000 when it passed the Senate. The report of the bill attracted some attention in the House, as members began to think that some new revenue had been found by the committee in charge.

what the commission has been so well anadled.

The bill was one of those under consideration for reductions and it was intimated that it would be cut to \$200,000. Some energetic protests were made and the bill came out, being reported by Mr. Shaffer, Columbia.

Members of the Legislature who have been studying the situation said last night that there would have been strenuous objection to reductions because the work of the commission was generally recognized as well done. The fact that there had been no occasion to go to court was not lost on the legislators.

Blood Troubles Can not Remain If Properly Treated.

There is in S. S., the famous blood purifier, a property that absolutely compels harmful influences to disinterrate and lose their identity. No matter what they are called nor how destructive they are there is in S. S. S. a powerful, searching counter influence to annihilate the most eruptive germ, causes the mucous linings to convert it into an inert substance that is quickly thrown out of the blood and out of the body by the skin, lungs, kidneys, bowels, and destroyed in the liver. There is not a single advance in medicine today that in any sense is an improvement over S. S. Surgery is a wonderful, masterful science, but when it comes to purifying the blood S. S. stands alone. Thousands of doctors have prescribed it. Their patients do not always know it is S. S., because they leave the treatment to the doctor implicitly. But fair-minded dectors long ago realized that in the vegetable nature of S. S. were certain ingredients that to the blood in sickness were just as essential as the feshbuilding elements of the grains, meats, fats and sugars of our dnily food. The average doctor is humane and of trained intelligence. He has seen the recoveries from worst cases of blood trouble by the use of S. S. Get a bottle of S. S. today of any druggist. Accept no substitute. And if you wish proper advice on any form of blood trouble, write to the Medical Adviser. The Swift Specific Co., 102 Swift Bidg., Atlanta, Ga. It is worth while doing so.

## **ADMISSION FEE FOR**

Harrisburg Railways Co. May Draw Line on All but Regular Patrons

Jitney cars may bring closed gates at Paxtang Park, and, an admission fee. Officials of the Harrisburg Railways Company have under consideration a plan to take care of their patrons this summer. Persons who ride to Paxtang Park on jitney cars will have to pay admission to the park. They will also have to walk to the park from the pike. No autos will be permitted in the park, or on company property.

One plan suggested is to sell return tickets with coupons. Passengers going by trolley to the park will use the coupon for admission. It has also been suggested that the main entrance to the park be closed east of the subway. All persons on foot would then have to pay an admission fee. It is said the jitney patrons may have to pay ten cents to get into the park.
